Planet SUN Secrets Saket Shah, 2020-01-05 The Sun god has two arms, he is seated on the pedestal of lotus; both of his hands are embellished with lotus flowers. There is a beautiful golden crown, on his head and a garland of gems around his neck. His radiance is just like the interior part of a lotus flower and he is mounted on the chariot pulled by seven horses. The Sun god is also known as 'Savita', which means - one who creates, 'SAVITA SARVASYA PRASAVITA' (Nirukta -10/31). According to the Rigveda the Sun god situated at the centre of the solar system is an inspirer of all, pervader of the internal parts and an embodiment of almighty god. According to the 'Markandeya Puran' Sun is the embodiment of Brahma, the world originates from the Sun and is established in it. The Sun is the appearance of all the matters and elements and is the eternal almighty. This very God 'Bhaskar' creates nurtures and annihilates the world respectively in the form of lord Brahma, Lord Vishnu & Lord Shiva. Sun is the supreme deity amongst all the nine planets. When Brahma manifested himself by breaking the egg, then he pronounced 'OM'. This Omkar itself is the supreme soul and the very physique of Sun god. The four Vedas emerged from all the four mouths of lord Brahma, which were glowing by their own radiance. The powerful radiance emanating from the 'Omkar' covered the radiance of the Vedas and ultimately all of them unified. This very Vedic appearance of 'Omkar' is the sun god. This radiant sun was the first manifested during the times of creation, hence it was called 'Aditya'. Once the demons, the titans and the monsters unitedly fought with the deities and snatched their power and authority after defeating them. 'Aditi' - the mother of the deities did worship of sun god to get protection from this calamity. Being pleased with her the sun god

took incarnation as her son and established the eternal path of the Veda after defeating the enemies of the deities. He is called Aditya also for this reason. The complexion of Sun god is red. His vehicle is a chariot. There is only one wheel in his chariot which is called 'Samvatsar'. The wheel of his chariot has 12 spokes, which symbolise the twelve months. The wheel has six circumferences, which symbolize the six seasons, and three 'Naves' which is symbolise of the three four-months. The sages (rishi) and all the celestial supernatural beings like 'Gandharva', 'Apsara', 'Nag' yaksha and the deities' move along with him doing his worship. The wheel, power, a loop and a hook are the weapons of sun god. His great-phase (Mahadasha) last for six years. The Sun is considered as a high planet, till the tenth degree, in the zodiac of Aries. Lord Shiva is considered to be the deity of the Sun. To get his blessings and for his pacification, performance of 'Arghya' (pouring water facing the sun in the morning should be done and also the text of Harivansh purana should be listened to. Ruby should be worn on the body and donation of wheat, cow along with a calf, raw-sugar (gur), copper, gold and red-clothes should be made to the brahmins

Planet Mars Secrets Saket Shah, 2020-01-05 In a Vedic Astrology Horoscope, the positions and effect of 9 heavenly bodies are carefully examined. These are the seven planets - Sun, Moon, Mars, Mercury, Jupiter, Venus and Saturn along with two nodes - Rahu and Ketu. Each planet has a long list of significations which are further divided into the direction, metals, age, nature, elements, body part / body system, colors, rulership of zodiac signs and the host of other attributes which a good Astrologer has to keep in mind at the time of making the calculations and giving the forecast. While all planets are given equal attention but it is Mars which is given special attention to check for suddenness in giving bad results - if it is a malefic. At the time of matching the Horoscopes for marriage purposes, it is the presence or absence of Manglik feature which is checked before anything else. So let us go a little deeper into the nature, functioning, and mode of operation of Mars in a Horoscope. Is it always to be feared or does it have the power to give also? Mars is the fourth planet from the Sun. It is called Mangal in Hindi, Kujja in Sanskrit. West has named it after the Roman God of War. Mars is also referred to as the Red Planet because of its reddish appearance as seen from Earth. Similarly all the planets are divided into 4 elements of nature - Fire, Earth, Air and Water. Mars is supposed to be a fiery planet. As the story goes in the Vedic system, Mars is the commander-in-chief of the celestial army. It is therefore, quite natural to associate Mars with action & raw energy, after all it is fiery, hot red and fast (compared to Jupiter and Saturn it is a much faster planet orbiting the Sun).

Planet Saturn Secrets Saket Shah, 2020-01-05 Saturn is the most feared planet of all, and for more reasons than one. It is not there in the cosmos to make everything cakewalk for you. It is there giving us hardships, teaching us lessons of life. But this is not to make us destructive and contemptuous, as is the case with Mars negative influence. It is there to make us better individuals, filtering the negative forces to leave us with refined personalities, ready to drive towards spirituality and higher learning. It wants us to be disciplined, thus poses retractions and limitations. Having Saturn's influence doesn't always mean denial of success. It simply means delay. In some cases however, it also denies the native success if positioned in or aspected by enemy sign, or is debilitated. It makes sure to play the role of a teacher in our lives. Its positive influence brings us the old age wisdom, a sense of conventionality, determination, authority, and a lot more. Below is a detailed overview of this ringed planet to further assist you in having a better understanding,

Transit of Planets Vinay Garg, Transit of planets talks about the technique of making predictions on the basis of current position of planets on the horoscope of native. The main objective of Astrology is to predict the future of the native with the help of his horoscope. For making accurate prediction it is necessary to make an analysis of three factors. These three factors are YOGAS formed with the combination and permutation of planets, 2nd important factor is periods (dasa) and 3rd factor is transit. When a person comes with a query, first of all it should be analyzed that the query is related with which house, planets, the planet occupying this house and the planets aspecting this house. The determination of the auspicious or inauspicious results of that house shall be done by analyzing three factors. These are house, house Lord and significators. For example if the question asked is regarding marriage in that case we shall see that which planets are there in seventh house, this house is aspected by which planets. Marriage yoga for the possibility of marriage is there or not and in addition to that the position of significator of 7th house i.e.

Jupiter/Venus should be analyzed. For females the significator of 7th house is Jupiter and for males the natural significator of 7th house is Venus. By analyzing the placement, combination, and benefic or malefic impact of these planets we conclude whether auspicious yoga for the possibility of marriage is there or not. After Yoga next important factor to be considered is major or sub period, the duration of main period is a long and sub period's duration also can be 6 months or more than 2 years therefore, in order to predict the timing of an event during these 2 years the help of transit can be taken. Therefore, for predicting an event the importance of transit should be considered. Although it is a matter of long discussion to determine whether transit predictions should be made on the basis of ascendant sign or moon sign. For supporting the predictions from both, scholars have given logical and justifiable opinions. But, the conclusions that we have derived on the basis of our experience advocate that auspiciousness or inauspiciousness of the transit results of planets should be done on the basis of moon sign and what type of results i.e, which house results it shall yield would be decided on the basis of ascendant sign. For instance if moon is positioned in 7th house and the sign of Leo is there, therefore transit of Saturn into this sign shall cause negative impact of Saturn's SADHESATI because transit of Saturn into Leo shows inauspicious results therefore there can be delay or problems in marriage and married life. Similarly what can be the results of transit of planets by considering the other important factors has been taken into account in this book. Because of lack of availability of books in the field of transit predictions this book has been written for catering the need of students of all India Federation of Astrologer's Societies Delhi. This book shall be of immense help for solving the problems of students while studying the techniques of making predictions.

Charisma of Upachaya House Raj Kumar, As per classics there could be four goals in human life- Dharma, Artha, Kaam & Moksha. However in the materialistic world of today, most of us think, plan and act of / for Artha & Kaam only. Artha covers any / all activities connected with finance & livelihood and Kaam includes all types of desires e.g. sex, comforts and luxuries. Upchaya literally means growth, accumulations, elevation, expansion, improvement, rise, aspiration, profit, gain, prosperity or excess of inflow without much effort and at a much faster rate. Upchaya group of houses contains the best of Artha & Kaam Trikones by excluding their Marka houses (2nd & 7th) and thus includes 3rd, 6th , 10th, & 11th houses. The rest of the houses are called Apathaya houses. The beauty of Upchaya houses is that even natural malefics produce excellent results here. They indicate growth & gain of any or all desires-whether good or evil. Every desire originates in 3rd house. It is nurtured by strong determination & hard work of 3rd house, pointed concentration & competitiveness of 6th house and 10th house provides controlled Kriyaman Karma to enable desire to be fulfilled in 11th house. Every planet associated with 11th house ensures gain/ profit in its own way. The progress which human beings have made so far, can be attributed to these fighting qualities only. The 6th is a Trika house and 11th a Badhak house for movable lagans. However, this book highlights only the positive aspects of Upchaya houses.

An Introduction To Vedic Astrology: Spiritual Science Of The Ancients Howard Beckman, 1999 The book in three sections studies Vedic Astrology in much detailed stance: practical applications of Vedic astrology in different area of life, characteristics and representations of the planets, signs, houses and stars, and remedial measure to help balance disharmonic influences within the horoscope.

Fundamentals of Astrology M. Ramakrishna Bhat, 2013-01-01 Astrology is both Science and Art. Hence only the talented can appreciate and understand it. Rightly Visnugupta declares that nobody other than a sage can master the ocean-like science of astrology. The great Varahamihira declares, No sin will creep into a place that is sanctified by the presence of a true astrologer. No person who studies and divines the course of destiny will ever be found in hell but will reside permanently in the world of Brahman. This book brings to the fore not only the rationality of astrology but also the nature and structure of the correct knowledge that our forefathers possessed regarding the predictable influences of planets on human beings, and gives a spiritual bias to astrology. The reader is taken step by step in this work from the rudiments Viz., the distribution of constellations in the Zodiacal belt which is divided into twelve Signs, and the planetary hierarchy, through the method of calculating the ascendant and other houses of a natal chart, assessment of the strengths, influences, aspects, affliction, mutual relations etc., of the planets, to the final stage of reading the brighter and darker sides of the subject's life, his chances of success and failure, their periods, ingress of the soul into the mortal coil and exit there from as well as its departure to other worlds according to its karma. In this book, an attempt has been made to give a good account of the science of astrology, with a view to making the reader a good and true astrologer. It also shows that astrology does not make a man a fatalist, helpless automation in the hands of a merciless Fate. It should, on the other hand, help him to take to self-exertion and self-help. This hoary lore, according to the author, is to be practised not for selfish ends but to guide the needy and the distressed, to remove the cause of their suffering and to turn their attention towards God.

Planets in the Signs and Houses Bepin Behari, 2003-07-01 This book follows up on the foundation provided in *Fundamentals of Vedic Astrology* and delves into questions such as impulses likely to be generated by the planets in different signs and houses of the natal chart. The author cuts through the obscurity of the centuries to present a clear and effective science with a deep psychological background and underpinning.

Encyclopedia of Vedic Astrology: Planets, Signs & Houses Shanker Adawal, The notion that astrologers can unfold lives and reveal what waits at the next bend is a thought that comes to all and populist claims have inspired the author to come up with a series of books that will discuss the various aspects in astrology, putting together the research and findings by various groups and the experience gained during his journey. The purpose of the encyclopedia is an attempt to put a clear understanding of the process of astrology, taking into account the first basic principles and dealing with different topics. The encyclopedia which would consist of over eighteen books, is intended to be brought out over a period of two years. These would cover the basics in astrology and then go on to the predictive techniques, the nadi astrology, tajik, yogas, nakshatras, rectification of birth time, vargas, dashas, mundane prashna, muhurta, remedy and other aspects of interest. The advantage of this would be that both students and those who want to pursue research can progress the understanding of this science in a systematic manner. Also the complete set will be of great value to those in India and abroad who want to understand various levels and will give them the flexibility of dwelling into the complexities in a coherent manner. With the growing interest to learn this science in various countries, the readers there will find this series of books very useful. This is the first

book in the series and is the most important. The foundation is based on the principles of basic astrology propounded by various schools of thought. The book covers signs, their impact, the planetary impact in each sign, the role of depositors, details on each planet and their relationship when in aspect and in the divisional charts as also the complexities they can pose. This book attempts at conveying that the basic importance has to be given to the planets, their placement and various relationship as a result of the same. The yogas, dasha, nakshatras etc. will be dealt in the other books that follow, but all have to be applied keeping in mind the first basic principles that are being enumerated in this book.

Esoteric Principles Of Vedic Astrology Bepin Behari, This book presents the ancient Hindu astrology in its occult and esoteric aspects. Traditional practitioners often failed to defend the veracity of the subject and dispel the scepticism of modern intellectuals. The ancient revelations have been restated here to meet contemporary requirements. The ancient seers presented Vedic Astrology under various assumptions and in allegorical and symbolic languages. They assumed polydimensional extension of human consciousness which was closely related with planetary impulses. Apart from the general approach to this ancient science, the study presents in depth the astrological description of the nature of man. It also provides deeper implications of various planetary combinations. Advanced practitioners as well as general readers will find the book informative, illuminating and highly rewarding.
