Economic Diversification in the Gulf Region, Volume I Ashraf Mishrif, Yousuf Al Balushi, 2017-12-27 This volume focuses on the role of the private sector in diversifying the economics of Gulf countries in the post-petrodollar era, when fluctuating and declining oil prices are negatively impacting national expenditures. It explores current policies of countries in the Gulf Cooperation Council and their efforts to shift their economies away from

heavy dependence on hydrocarbons. The structural changes will create favorable conditions for the private sector to flourish, shift production dependence from public to private sector, and allow for more efficient resource allocation. Such changes will also allow local banks to provide financial support to small and medium enterprises, boost entrepreneurship for job creation, and strengthen organizational structure and efficiency. This is the first volume in Economic Diversification in the Gulf Region.

Engaging Change Mark Wilcox, Mark Jenkins, 2015-05-03 Any significant organizational level change initiative is dependent on the engagement of the people working in that organization. Without engagement, change will falter and ultimately fail. Engaging Change goes behind the scenes of change management to help managers, consultants and practitioners understand why some things work and why others don't. Engaging Change addresses current challenges such as how to understand the environmental context driving the need for change; how to initiate and sustain momentum throughout the change programme; how to institutionalize structural and behavioural change; and how to create compelling visions. With case studies from Sony, Nestlé, Redcats (who own La Redoute, for example) and the British Army, the text provides practice-based insights into the realities of leading sustainable change.

Transforming Sales Management Grant Van Ulbrich, 2023-05-03 How can sales managers coach

their teams through multiple, sometimes stressful, rollouts? You can teach your team to embrace and manage change from the bottom up. Global sales management and transformation leader Grant Van Ulbrich makes a compelling case for tackling this issue using an innovative change management model designed with sales teams in mind. Transforming Sales Management begins with an overview of sales management, sales transformation and change management. Showcasing the issues of organization-focused frameworks in today's current sales atmosphere, the book makes a case for a bottom-up change management model: SCARED SO WHAT.

Transforming Sales Management takes readers through the implementation of the model used at various Fortune 100 groups, universities and institutions, detailing the framework in two parts: SCARED (Surprise, Champion/Conflicted, Action, Receptive/Rejective, Explore, Decide) and SO WHAT (Strategy, Options, Way forward, Hope, Actions, Taking ownership). The author explains the emotional impact of change and why it's important to critically reflect and focus on actions before making a decision and responding to it. The book applies the model to complex sales situations and provides useful support tools to help readers react when confronted with change. Readers will learn how to help their sales teams navigate corporate rollouts, changes to organizational design, the implementation of new technologies, rejection of sales opportunities and changing customer expectations.
