Marshall McLuhan

Laws of Media Marshall McLuhan, Eric McLuhan, 1988 In the McLuhan tradition, this New Science offers a whole new understanding of human creation, and a vision that could reshape our future.

Marshall McLuhan: Laws of the media Marshall McLuhan, 2005

The Lost Tetrads of Marshall McLuhan Marshall McLuhan, Eric McLuhan, 2017-05 Marshall McLuhan was the visionary theorist best known for coining the phrase “the medium is the message.” His work prefigures and underlies the themes of writers and artists as disparate and essential as Andy Warhol, Nam June Paik, Neil Postman, Seth Godin, Barbara Kruger, and Douglas Rushkoff, among countless others. Shortly before his death, together with his media scholar son Eric, McLuhan worked on a new literary/visual code—almost a cross between hieroglyphics and poetry—that he called “the tetrads.” This was the ultimate theoretical framework for analyzing any new medium, a koan-like poetics that transcends traditional means of discourse. Some of the tetrads were published, but only a few. Now Eric McLuhan has recovered all the “lost” tetrads that he and his father developed, and accompanies them here with accessible explanations of how they function.

Digital McLuhan Paul Levinson, 2003-09-02 Marshall McLuhan died on the last day of 1980, on the doorstep of the personal computer revolution. Yet McLuhan's ideas anticipated a world of media in motion, and its impact on our lives on the dawn of the new millennium. Paul Levinson examines why McLuhan's theories about media are more important to us today than when they were first written, and why the Wired generation is now turning to McLuhan's work to understand the global village in the digital age.

Marshall McLuhan: Renaissance for a wired world Gary Genosko, 2005 This collection contains key critical essays and assessments of the writings of Canadian communications thinker Marshall McLuhan selected from the voluminous output of the past forty years. McLuhan's famous aphorisms and uncanny ability to sense megatrends are once again in circulation across and beyond the disciplines. Since his untimely death in 1980, McLuhan's ideas have been rediscovered and redeployed with urgency in the age of information and cybernation. Together the three volumes organise and present some forty years of indispensable critical works for readers and researchers of the McLuhan legacy. The set includes critical introductions to each section by the editor. Forthcoming titles in this series include Walter Benjamin (0-415-32533-1) December 2004, 3 vols, Theodor Adorno (0-415-30464-4) April 2005, 4 vols and Jean-Francois Lyotard (0-415-33819-0) 2005, 3 vols.

McLuhan For Beginners W. Terrence Gordon, 2012-10-30 Marshall McLuhan was one of the most brilliant and original thinkers of the 20th century. He was so far ahead of his time that he predicted the future and offered a critique of human behavior in a media saturated world that is perhaps more valuable in today's Internet age than it was in his own time. McLuhan pioneered the study of Media, unified Art and Science, and warned us about the perils of a televised, computerized, famous-for-15-minutes, social media world. A world where we would live in each other's faces, and become so alike, so isolated, so anonymous that violence would become a scream of identity, a way of saying, “I am not invisible.” McLuhan tried to teach us to guard against these dehumanizing, debasing effects of technology, and a thousand other things, but we got reality television anyway. The centennial celebration of McLuhan's life and the re-release of his books has led to a surge of new interest in his thinking and teachings. *McLuhan For Beginners* provides an essential introduction that

is clear, comprehensive, and easy to remember. It is full of wise and witty art by Susan Willmarth that is a perfect match to W. Terrence Gordon's writing. McLuhan envisioned the media generated Global Village before it existed, and no one since McLuhan has described its allure and pitfalls better.

Transforming McLuhan Paul Grosswiler, 2010 *Transforming McLuhan* explores the radical, humanist line of descent in interpreting Canadian media and culture theorist Marshall McLuhan's work, rejecting the dominant view of McLuhan as a conservative, uncritical herald of technological determinism and capitalism. This McLuhan is the oppositional critic of modernity, resisting uncontrolled technological change, who seeks new media forms with a human face. Contributors from diverse international and academic perspectives include Douglas Kellner, Nick Stevenson, Gary Genosko, Richard Cavell, Lance Strate, Glenn Willmott, Patrick Brantlinger, Donna Flayhan, and Bob Hanke. Marshall McLuhan was the first to theorize and to develop a concept of media, indicating their importance to all areas of society and culture. Today media are far more pervasive than in the 1950s and 1960s when he wrote. Yet his work has still not received its due attention. *Transforming McLuhan* will begin to correct this oversight.---Mark Poster, University of California-Irvine; Author of *What's the Matter with the Internet?* and *Information Please* *Transforming McLuhan* re-reads the McLuhan phenomenon in light of today's media-saturated, 24/7 news and smartphone world. Here we meet again with the visionary Tiresias in the Underworld whose dark sayings once lit the late afternoon of the twentieth century. These critical readings create a time-out to question him again and to open space-time interstices for alternate thoughts and alternate actions. ---Michael Heim, Mount St. Mary's College, Los Angeles; Author of *The Metaphysics of Virtual Reality* and *Virtual Realism* *Transforming McLuhan* offers a rich and textured reconsideration of Marshall McLuhan's ideas, demonstrating how McLuhan's work is a better match for current multi-dimensional and ambivalent understandings of media and culture than it was for the narrower conceptions that guided those who dismissed McLuhan in his own time. These provocative and well-written essays persuasively engage in what I have called morphing' McLuhan with other key theoretical frameworks. As a result, *Transforming McLuhan* illustrates that cultural theorists have much to learn from McLuhanism, but that McLuhan's perspective also has much room for enrichment from critical media studies. ---Joshua Meyrowitz, University of New Hampshire; Author of *No Sense of Place: The Impact of Media on Social Behavior*--BOOK JACKET.

McLuhan: A Guide for the Perplexed W. Terrence Gordon, 2010-02-25 Marshall McLuhan was dubbed a media guru when he came to prominence in the 1960s. The Woodstock generation found him cool; their parents found him perplexing. By 1963, McLuhan was Director of the Centre for Culture and Technology at the University of Toronto and would be a public intellectual on the international stage for more than a decade, then linked forever to his two best known coinages: the global village and the medium is the message. Taken as a whole, McLuhan's writings reveal a profound coherence and illuminate his

unifying vision for the study of language, literature, and culture, grounded in the broad understanding of any medium or technology as an extension of the human body. *McLuhan: A Guide for the Perplexed* is a close reading of all of his work with a focus on tracing the systematic development of his thought. The overriding objective is to clarify all of McLuhan's thinking, to consolidate it in a fashion which prevents misreading, and to open the way to advancing his own program: ensuring that the world does not sleepwalk into the twenty-first century with nineteenth-century perceptions.

The Legacy of McLuhan Lance Strate, Edward Wachtel, 2005 Marshall McLuhan, a central figure in the fields of communication studies and media ecology, is one of the most important and influential intellectuals of the twentieth century. This volume of original essays brings together 29 leading experts from a wide variety of academic disciplines, and from the media professions, to explore, assess, critique, and extend McLuhan's rich and controversial legacy. The contributors to this anthology address such diverse areas as communication studies, journalism, literature, art and art history, archeology, computer science, digital media, philosophy, theology, law, history, psychology, sociology, political science, and cultural studies. *The Legacy of McLuhan* goes further than any previous study in showing the broad and far-reaching impact of the thought, the publication and the life of Herbert Marshall McLuhan.--BOOK JACKET.

Virtual Marshall McLuhan Donald F. Theall, 2001 Marshall McLuhan was a satirist and prophetic poet who explored subjects from the occult and the esoteric to everyday popular culture and the emerging digital revolution. Written in an accessible, engaging manner, *The Virtual Marshall McLuhan* sheds new light on McLuhan's goals and the background to his influential writings.

McLuhan in Reverse Robert K. Logan, 2021 *McLuhan in Reverse* proposes two new and startling theses about Marshall McLuhan's body of work. The first argues that despite McLuhan's claim that he did not work from a theory, his body of work in fact constitutes a theory that Robert K. Logan calls his General Theory of Media (GToM). The second thesis is that McLuhan's GToM is characterized by a number of reversals, including his reversals of figure and ground, cause and effect, percepts and concepts; and the medium and its content as described in his famous one-liner the medium is the message. While McLuhan's famous *Laws of Media* are part of his GToM, Logan has identified nine other elements of the GToM. They are his use of probes; figure/ground analysis; the idea that the medium is the message; the subliminal nature of ground or environment revealed only by the creation of an anti-environment; the reversal of cause and effect; the importance of percept over concept and hence a focus on the human sensorium and media as extensions of man; the division of communication into the oral, written, and electric ages along with the notions of acoustic and visual space; the notion of the global village; and finally, media as environments and hence media ecology.

This comprehensive collection includes extracts from McLuhan's famous books Understanding Media and The Gutenberg Galaxy, as well as selections from his other books, articles, correspondence, interviews and published speeches.
