Handling Qualitative Data Lyn

Richards,2009-11-18 Lecturers, click here to request an e-inspection copy of this text This new edition of Lyn Richards' best-selling book provides an accessible introduction to qualitative research for students and practitioners.

Recognizing that for many new researchers dealing with data is the main point of departure, this book helps them to acquire a progressive understanding of the skills and methodological issues that are central to qualitative research. Lyn Richards provides clear and pragmatic guidance on how to handle, reflect on and get results from small amounts of data, while at the same time showing how a consideration of methods and their philosophical underpinnings informs how we should best handle our data. This book also covers all the processes of making, meeting, sorting, coding, documenting and exploring qualitative data, smoothly integrating software use and the discussion of the main challenges that readers are likely to encounter. It guides novice researchers to achieve valid and useful outcomes from qualitative analysis, and to ensure they do justice to their data. This second edition

features: - Increased coverage of issues about the researcher's relation to their data and ethical implications - An expanded section on preparing for data collection and reflecting on the nature of data. There is also a brand new website, offering: - Live, detailed case studies of qualitative methods in practice, linking to publications and illustrative material. Researchers tell the stories of projects, from design, through what was actually done with the data, to how analysis was achieved and reported; - A software guide with links to information and tutorials in several products.

The Evolution of Bruno Littlemore Benjamin Hale, 2011-04-01 SHORTLISTED FOR THE DYLAN THOMAS PRIZE 2011 Bruno Littlemore; linguist, artist, philosopher. A life defined by a soaring mind, yet bound by a restrictive body. Born in down-town Chicago, Bruno's precocity pulls him from an unremarkable childhood, and under the tuition of Lydia, his intellect dazzles a watching world. But when falls in love with his mentor, the world turns on them with outrage: Bruno is striving to be something he is not, and denying everything that he is. For despite his all too human complexities, dreams and frailties, Bruno's hairy body, flattened nose and jutting brow are, undeniably, the features of a chimpanzee. Like its protagonist, this novel is big, abrasive, witty, perverse, earnest and accomplished. The Evolution of Bruno Littlemore goes beyond satire by showing us not what it means, but what it feels like be human - to love and lose, learn, aspire, grasp, and, in the end, to fail.

Red Flower of China Zhai Zhenhua, 2003-07 The Cultural Revolution had transformed me into a devil, writes Zhai. In 1966, at age 15, she led a Red Guard brigade that tortured Chinese citizens branded counterrevolutionaries. She beat innocent people to death and had others exiled; her squad raided homes and murdered people. Now a professor of engineering in British Columbia, Zhai expresses remorse and guilt rather perfunctorily, and her cool confession is tinged with rationalizations. She blames the flourishing of her evil, barbaric side on her blind faith in Chairman Mao. Her fervor gave way to bitter disillusionment when she herself was banished to the countryside in 1969 to do three years of hard labor and be re-educated by peasants. This is a grisly account of how political brainwashing can induce converts to commit monstrous acts.

Both families arrive at the villa and realize the awful truth--Gerard has double-booked.
