To Know Our Many Selves Dirk Hoerder, 2010 *To Know Our Many Selves* profiles the history of Canadian studies, which began as early as the 1840s with the Study of Canada. Years later, as the study of other ethnicities was added to the cultural story of Canada, a solid foundation was formed for the nation's master narrative.

Regime of Obstruction William K. Carroll, 2021-04-23 Rapidly rising carbon emissions from the intense development of Western Canada's fossil fuels continue to aggravate the global climate emergency and destabilize democratic structures. The urgency of the situation demands not only scholarly understanding, but effective action. *Regime of Obstruction* aims to make visible the complex connections between corporate power and the extraction and use of carbon energy. Edited by William Carroll, this rigorous collection presents research findings from the first three years of the seven-year, SSHRC-funded partnership, the Corporate Mapping Project. Anchored in sociological and political theory, this comprehensive volume provides hard data and empirical research that traces the power and influence of the fossil fuel industry through economics, politics, media, and higher education. Contributors demonstrate how corporations secure popular consent, and coopt, disorganize, or marginalize dissenting perspectives to position the fossil fuel industry as a national public good. They also investigate the difficult position of Indigenous communities who, while suffering the worst environmental and health impacts from carbon extraction, must fight for their land or participate in fossil capitalism to secure income and jobs. The volume concludes with a look at emergent forms of activism and resistance, spurred by the fact that a just energy transition is still feasible. This book provides essential context to the climate crisis and will transform discussions of energy democracy. Contributions by Laurie Adkin, Angele Alook, Clifford Atleo, Emilia Belliveau-Thompson, John Bermingham, Paul Bowles, Gwendolyn Blue, Shannon Daub, Jessica Dempsey, Emily Eaton, Chuka Ejeckam, Simon Enoch, Nick Graham, Shane Gunster, Mark Hudson, Jouke Huizer, Ian Hussey, Emma Jackson, Michael Lang, James Lawson, Marc Lee, Fiona MacPhail, Alicia Massie, Kevin McCartney, Bob Neubauer, Eric Pineault, Lise Margaux Rajewicz, James Rowe, JP Sapinsky, Karena Shaw, and Zoe Yunker.

The Spy's Son Bryan Denson, 2015-05-05 The true account of the Nicholsons, the father and son who sold national secrets to Russia. "One of the strangest spy stories in American history" (Robert Lindsey, author of *The Falcon* and *the Snowman*). Investigative reporter and Pulitzer Prize finalist

Bryan Denson tells the riveting story of the father and son co-conspirators who betrayed the United States. Jim Nicholson was one of the CIA's top veteran case officers. By day, he taught spycraft at the CIA's clandestine training center, The Farm. By night, he was a minivan-driving single father racing home to have dinner with his kids. But Nicholson led a double life. For more than two years, he had met covertly with agents of Russia's foreign intelligence service and turned over troves of classified documents. In 1997, Nicholson became the highest-ranking CIA officer ever convicted of espionage. But his duplicity didn't stop there. While behind the bars of a federal prison, the former mole systematically groomed the one person he trusted most to serve as his stand-in: his youngest son, Nathan. When asked to smuggle messages out of prison to Russian contacts, Nathan saw an opportunity to be heroic and to make his father proud. "Filled with fascinating details of the cloak-and-dagger techniques of KGB and CIA operatives, double agents, and spy catchers . . . A poignant and painful tale of family love, loyalty, manipulation and betrayal." —The Oregonian

Rainbow Solidarity in Defense of Cuba Leslie Feinberg,2009 Featuring an insightful look at lesbian, gay, bisexual, and transgender (LGBT) life in Cuba, this chronicle illuminates the progress the country has made from centuries of backward attitudes and oppression to the current state of enlightenment. From the mores of the Colonial period to the roles that Hollywood, the CIA, and Wall Street played in depicting Cuba as a police state for gays and in reinforcing the oppression, this overview provides a backdrop of the past and illustrates the persecution and exploitation originally planted by Spanish colonialism and further cultivated by U.S. capitalism. Details on the gradual transformation follow as the narrative examines the impact of the political and institutional initiatives taken by Fidel Castro and the Cuban leadership to overcome bigotry and prejudice against LGBT people--among them free health care and education, guaranteed jobs and housing, special health care for AIDS victims, and widespread sex education.

American Labour's Cold War Abroad Anthony Carew,2018 During the Cold War, American labour organizations were at the centre of the battle for the hearts and minds of working people. At a time when trade unions were a substantial force in both American and European politics, the fiercely anti-communist American Federation of Labor-Congress of Industrial Organizations (AFL-CIO), set a strong example for labour organizations overseas. The AFL-CIO cooperated closely with the US government on foreign policy and enjoyed an intimate, if sometimes strained, relationship

with the CIA. The activities of its international staff, and especially the often secretive work of Jay Lovestone and Irving Brown--whose biographies read like characters plucked from a Le Carré novel--exerted a major influence on relationships in Europe and beyond. Having mastered the enormous volume of correspondence and other records generated by staffers Lovestone and Brown, Carew presents a lively and clear account of what has largely been an unknown dimension of the Cold War. In impressive detail, Carew maps the international programs of the AFL-CIO during the Cold War and its relations with labour organizations abroad, in addition to providing a summary of the labour situation of a dozen or more countries including Finland, France, Italy, Germany, Japan, Greece, and India. American Labour's Cold War Abroad reveals how the Cold War compelled trade unionists to reflect on the role of unions in a free society. Yet there was to be no meeting of minds on this, and at the end of the 1960s the AFL-CIO broke with the mainstream of the international labour movement to pursue its own crusade against communism.
