Heterotopia and the City Michiel Dehaene, Lieven De Cauter, 2008-05-15 Heterotopia, literally meaning 'other place', is a rich concept in urban design that describes a space that is on the margins of ordered or civil society, and one that possesses multiple, fragmented or even incompatible meanings. The term has had an impact on architectural and urban theory since it was coined by Foucault in the late 1960s but it has remained a source of confusion and debate since. *Heterotopia and the City* seeks to clarify this concept and investigates the heterotopias which exist throughout our contemporary world: in museums, theme parks, malls, holiday resorts, gated communities, wellness hotels and festival markets. With theoretical contributions on the concept of heterotopia, including a new translation of Foucault's influential 1967 text, *Of Other Space* and essays by well-known scholars, the book comprises a series of critical case studies, from Beaubourg to Bilbao, which probe a range of (post)urban transformations and which redirect the debate on the privatization of public space. Wastelands and terrains vagues are studied in detail in a section on urban activism and transgression and the reader gets a glimpse of the extremes of our dualized, postcivil condition through case studies on Jakarta, Dubai, and Kinshasa. *Heterotopia and the City* provides a collective effort to reposition heterotopia as a crucial concept for contemporary urban theory. The book will be of interest to all those wishing to understand the city in the emerging postcivil society and post-historical era. Planners, architects, cultural theorists, urbanists and academics will find this a valuable contribution to current critical argument.

The Politics of Consumption Alan Bradshaw, Norah Campbell, Stephen Dunne, 2013-05 This age of austerity comes on the back of a lengthened period of apparently rampant consumer excess: that was a party for which we are all now having to pay. A spectacular period of unsustainably funded over-indulgence, it seems, has now given rise to a sobering period of barely fundable mere-subsistence. Consumption, narrated along such lines, is a sin which has to be paid for. Beyond the deceptive theology of consumption, however, lies actual politics. In May 2012, we hosted a conference at Dublin's Royal Society of the Antiquaries of Ireland in order to analyse and debate the politics of consumption. This special issue is the outcome of the discussions which took place during that event. It features conceptual and empirical investigations into the politics of consumption, a head-to-head debate on the idea of consumer citizenship, a series of notes on the relationship between art, politics, and consumption, and reviews of two recent books. Taken together, these diverse pieces underline the need for a politically-oriented analysis of consumption, not only for the sake of informing academic debates but also for the sake of informing contemporary consumption practices. Consumption, we argue, is political: to approach it otherwise is to dogmatically seek refuge in a world of fantasy. Issue editors: Alan Bradshaw, Norah Campbell and Stephen Dunne. Contributors: Ben Fine, Kate Soper, Peter Armstrong, Matthias Zick Varul, Eleftheria Lekakis, Isleide Fontenelle, Adam Arvidsson, Detlev Zwick, Olga Kravets, Stevphen Shukaitis, David Mabb, Antigoni Memou, Femke Kaulingfreks, Ruud Kaulingfreks, Andreas Chatzidakis, Georgios Patsiaouras, Gavin Brown and Angus Cameron.

Great Women of Imperial Rome Jasper Burns, 2006-11-22 Drawing from a broad range of documentation this book vividly characterizes eleven royal women who are brought visually to life through photographs of over 300 ancient coins and through the author's own illustrations. Spanning the period from the death of Julius Caesar in 44BC to the third century AD, and with an epilogue surveying empresses of later eras, the author's compelling biographies reveal their remarkable contributions towards the legacy of Imperial Rome. Examining the wives, daughters, sisters and mothers of

emperors, the study includes: a pregnant Roman princess who saves a Roman army through an act of personal heroism three third-century empresses who rule the most powerful state on Earth, presiding over unprecedented social and political reform an empress, though revered by her husband, is immortalized in history for infidelity and corruption by students of her greatest enemy. Jasper Burns paints portraits of these exceptional women that are colourful, sympathetic, and above all profoundly human. This book will be highly valuable to numismatists, students and scholars of Roman history or women's studies.

New Qing Imperial History Ruth W. Dunnell, Mark C. Elliott, Philippe Foret, James A Millward, 2004-07-31 *New Qing Imperial History* uses the Manchu summer capital of Chengde and associated architecture, art and ritual activity as the focus for an exploration of the importance of Inner Asia and Tibet to the Qing Empire (1636-1911). Well-known contributors argue that the Qing was not simply another Chinese dynasty, but was deeply engaged in Inner Asia not only militarily, but culturally, politically and ideologically. Emphasizing the diverse range of peoples in the Qing empire, this book analyzes the importance to Chinese history of Manchu relations with Tibetan prelates, Mongolian chieftains, and the Turkic elites of Xinjiang. In offering a new appreciation of a culturally and politically complex period, the authors discuss the nature and representation of emperorship, especially under Qianlong (r. 1736-1795), and examine the role of ritual in relations with Inner Asia, including the vaunted (but overrated) tribute system. By using a specific artifact or text as a starting point for analysis in each chapter, the contributors not only include material previously unavailable in English but allow the reader an intimate knowledge of life at Chengde and its significance to the Qing period as a whole.

Rethinking Architectural Historiography Dana Arnold, Elvan Altan Ergut, Belgin Turan Ozkaya, 2006-09-27 Rather than subscribing to a single position, this collection informs the reader about the current state of the discipline looking at changes across the broad field of methodological, theoretical and geographical plurality. Divided into three sections, *Rethinking Architectural Historiography* begins by renegotiating foundational and contemporary boundaries of architectural history in relation to other fields, such as art history and archaeology. It then goes on to critically engage with past and present histories, disclosing assumptions, biases and absences in architectural historiography. It concludes by exploring the possibilities provided by new perspectives, reframing the discipline in the light of new parameters and problematics. This timely and illustrated title reflects upon the current changes in historiographical practice, exploring potential openings that may contribute further transformation of the disciplines and theories on architectural historiography and addresses the current question of the disciplinary particularity of architectural history.

Archigram Simon Sadler, 2005-06-24 The first book-length critical and historical account of an ultramodern architectural movement of the 1960s that advocated living equipment instead of buildings. In the 1960s, the architects of Britain's Archigram group and Archigram magazine turned away from conventional architecture to propose cities that move and houses worn like suits of clothes. In drawings inspired by pop art and psychedelia, architecture floated away, tethered by wires, gantries, tubes, and trucks. In *Archigram: Architecture without Architecture*, Simon Sadler argues that Archigram's sense of fun takes its place beside the other cultural agitants of the 1960s, originating attitudes and techniques that became standard for architects rethinking social space and building technology. The Archigram style was assembled from the Apollo missions, constructivism, biology, manufacturing, electronics, and popular culture, inspiring an architectural movement—High Tech—and influencing the postmodern and deconstructivist trends of the late twentieth century. Although most Archigram projects were at the limits of possibility and remained unbuilt, the six architects at the center of the movement, Warren Chalk, Peter Cook, Dennis Crompton, David Greene, Ron Herron, and Michael Webb, became a focal point for the architectural avant-garde, because they redefined the purpose of architecture. Countering the habitual building practice of setting walls and spaces in place, Archigram architects wanted to provide the equipment for amplified living, and they welcomed any cultural rearrangements that would ensue. *Archigram: Architecture without Architecture*—the first full-length critical and historical account of the Archigram phenomenon—traces Archigram from its rediscovery of early modernist verve through its courting of students, to its ascent to international notoriety for advocating the disappearance of architecture.

The Grail Bird Tim Gallagher, 2017-04-25 “The Grail Bird is an enjoyable read . . . A powerful call for conservation, and an exciting bird adventure” (The Boston Globe). What is it about the ivory-billed woodpecker? Why does this ghost of the southern swamps arouse such an obsessive level of passion in its devotees, who range from respected researchers to the flakiest Loch Ness monster fanatics and Elvis chasers? Since the early twentieth century, scientists have been trying their best to prove that the ivory-bill is extinct. But every time they think they’ve finally closed the door, the bird makes an unexpected appearance. To unravel the mystery, author Tim Gallagher heads south, deep into the eerie swamps and bayous of the vast Mississippi Delta, searching for people who claim to have seen this rarest of birds and following up—sometimes more than thirty years after the fact—on their sightings. What follows is his own Eureka moment with his buddy Bobby Harrison, a true son of the South from Alabama. A huge woodpecker flies in front of their canoe, and they both cry out, “Ivory-bill!” This sighting—the first time since 1944 that two qualified observers positively identify an ivory-billed woodpecker in the United States—quickly leads to the largest search ever launched to find a rare bird, as researchers fan out across the bayou, hoping to document the existence of this most iconic of birds. “The Grail Bird is less an ecological study than a portrait of human obsession.” —The

The Psychology of the Girl with the Dragon Tattoo Robin S. Rosenberg, Shannon O'Neill, 2011-12-06 Lisbeth Salander, heroine of Stieg Larsson's *The Girl with the Dragon Tattoo* and its sequels, is one of the most compelling, complex characters of our time. Is she an avenging angel? A dangerous outlaw? What makes Salander tick, and why is our response to her—and to Larsson's Millennium trilogy—so strong? In *The Psychology of the Girl with the Dragon Tattoo*, 19 psychologists and psychiatrists attempt to do what even expert investigator Mikael Blomkvist could not: understand Lisbeth Salander. • What does Lisbeth's infamous dragon tattoo really say about her? • Why is Lisbeth so drawn to Mikael, and what would they both need to do to make a relationship work? • How do we explain men like Martin Vanger, Nils Bjurman, and Alexander Zalachenko? Is Lisbeth just as sexist and as psychopathic as they are? • What is it about Lisbeth that allows her to survive, even thrive, under extraordinary conditions? • How is Lisbeth like a Goth-punk Rorschach test? And what do we learn about ourselves from what we see in her?

Shaking a Leg Angela Carter, 1998-12-01 An electrifying intellectual autobiography, with all the narrative expanse, drama, outrage, and high comedy of the author's fiction. Angela Carter is revealed here, anew, as one of the most important thinkers of twentieth-century world literature—and one of its most pungent voices.”—Rick Moody One of contemporary literature's most original and affecting fiction writers, Angela Carter also wrote brilliant nonfiction. *Shaking a Leg* comprises the best of her essays and criticism, much of it collected for the first time. Carter's acute observations are spiked with her piercing matter-of-factness, her devastating wit, her penchant for mockery, and her passion for the absurd. Whether discussing films or food, feminism or fantasy, science fiction or sex, Carter consistently explores new territories and overturns old ideas. No cultural icon escapes her scrutiny; as in her fiction, Carter offers glorious evidence of the transforming power of the imagination. From delightfully wicked commentaries on *Gone with the Wind*, a Japanese fertility festival, and fellow writers, including Lawrence, Lovecraft, Borges, and Burroughs, to enchanting personal essays, Carter shares her thoughts and herself with glee. “What a wonderful collection—sharp, funny, too decent for sarcasm but great wit and humanity, an unusual combination. But it makes us miss her, miss laughing with her, that real, intelligent, tough writing woman.”—Grace Paley

Emergency Medical Services Institute of Medicine, Board on Health Care Services, Committee on the Future of Emergency Care in the United States Health System, 2007-06-03 *Emergency Medical Services (EMS)* is a critical component of our nation's emergency and trauma care system, providing response and medical transport to millions of sick and injured Americans each year. At its best, EMS is a crucial link to survival in the chain of care, but within the last several years, complex problems facing the emergency care system have emerged. Press coverage has highlighted instances of slow EMS response times, ambulance diversions, trauma center closures, and ground and air medical crashes. This heightened public awareness of problems that have been building over time has underscored the need for a review of the U.S. emergency care system. *Emergency Medical Services* provides the first comprehensive study on this topic. This new book examines the operational structure of EMS by presenting an in-depth analysis of the current organization, delivery, and financing of these types of services and systems. By addressing its strengths, limitations, and future challenges this book draws upon a range of concerns: • The evolving role of EMS as an integral component of the overall health care system. • EMS system planning, preparedness, and coordination at the federal, state, and local levels. • EMS funding and infrastructure investments. • EMS workforce trends and professional education. • EMS research priorities and funding. *Emergency Medical Services* is one of three books in the *Future of Emergency Care* series. This book will be of particular interest to emergency care providers, professional organizations, and policy makers looking to address the deficiencies in emergency care systems.
