Old Masters Memory Game Mieke Gerritzen,2015-08 Old Masters Memory Game collects the most famous and beloved portrait painters from the 16th and 17th centuries in one game that is fun to play, educational, and a feast for the eyes. The task, as always, is to collect two cards that make one set- in this case, two portrait paintings by the same painter. The sets are clearly recognizable by the posture of the figure, facial expression, the style of painting, and attributes like clothes and hairstyle. To help, there is always the brochure with all the paintings in pairs and a little explanation on the painters. This is a wonderful gift item for gift shops and all museums that collect the old masters. The game consists of 50 cards of 25 sets featuring world-famous portraits by the likes of Rembrandt van Rijn, Johannes Vermeer, Leonardo da Vinci, Sandro Botticello, Titian, Frans Hals, Albrecht Durer, Goya, and many others.

**Ed Emberley** Todd Oldham,Caleb Neelon,2014 Ed Emberley shies away from calling himself an artist and instead likes to say that he draws pictures for a living. Now in his eighties,Ed Emberley is a Caldecott award-winning children's book illustrator and writer who has been creating original books since the1960s. He has written and illustrated more than 100 books and is perhaps best known for his beloved how-to-draw books for kids such as: Ed Emberley's Big Green Drawing Book, Ed Emberley's Drawing Book of Faces, and Ed Emberley's Great Thumbprint Drawing Book, and many others. These simple and straightforward books, first published in the 1970s, have encouraged a generation of kids to take the drawing process step by step. Contemporary working artists today often cite Ed Emberley as a beloved early inspiration in their development as artists. By encouraging kids to draw using just a few simple shapes, Emberley has made drawing and creating accessible to everyone. As Emberley likes to say, Not everyone needs to be an artist, but everyone needs to feel good about themselves. This definitive monograph on the wide repertoire of Emberley's life's work has been beautifully put together by Todd Oldham and Caleb Neelon. Highlighting work spanning over five decades, this gorgeous and comprehensive book celebrates the talented and prolific life of Ed Emberley.

*Brain Games for 5 Year Olds* Leland Books, 2020-03-28 Workbooks for kids have been the same for such a long time. All the titles like for kids ages 5-7 or 3-5 or 5-8 appear too common in the bookstore and can even be best sellers. Nevertheless, it is scientifically proven that every child grows significantly every year and kids of different ages are not alike. A high-quality book can't be for kindergarten kids and third graders at the same time. Forced to learn with an unsuitable book, kids may start to get bored, waste their time and lose their interest in studying. As educators and parents, we care about your kids and understand their characteristics, needs and thinking skills. Unlike other books for a wide range of ages, this book is tailored for 5-year-olds. Our book *Brain games for 5 year old: Word search, Crossword & Sudoku* is published to foster a positive approach to education for this stage of growth. But why not 1, but 3 contents? This book aims at providing your kids with interesting learning experiences and helping balance and develop two hemispheres of their brain: Word Search and Crossword puzzles: to boost your children's memory power, expand their vocabulary, stimulate their creativity and practice their persistence. Sudoku: to sharpen kids' logical and critical thinking, and enhance problem-solving skills. You can hardly find 3x3 and 4x4 grids that perfectly fit your 5-year-old children anywhere else, except in our book. If you believe your beloved children deserve the opportunity to learn with an age-appropriate book, you

have come to the right place! This book is a part of our series, Brain games for kids ages 4 - 8: Word Search, Crossword & Sudoku, each of which suits a particular age, highly recommended by teachers and researchers for comprehensive intellectual development.
