Mercedes-Benz 300SL. Jurgen Lewandowski, 1988

Mercedes-Benz 300 SLR Günter Engelen, 2015-04 In 1955, Mercedes-Benz wins the sports car world championship with the racing car 300 SLR (W 196 S). In addition to the titles achieved that same year in the formula 1 world championship and the European touring car championship, this success is proof of the unprecedented dominance of a single manufacturer on the stage of international automobile racing. Stirling Moss and Juan Manuel Fangio, the most successful drivers of their era, celebrate impressive double victories in the 300 SLR at the most demanding road races in the world, triumphs that continue to afford this unparalleled racing car lasting fame to this day. Based on extensive research in the archives of Mercedes-Benz Classic, this book provides exhaustive and authentic documentation of the technical development of the W 196 S. All of the races as well as the biography of each individual vehicle are presented with the aid of images and illustrations, some of which have never before been published. Its high-quality design and exquisite features make the book a true collector's item. (German edition ISBN 978-3-7757-4000-5)

MERCEDES-BENZ, the Early SL Cars Bernd S. Koehling, 2013-04-19 The 300SL, the 190SL and the pagoda SL were already legends, when still in production. That has not changed till today. Names like Gullwing or Pagoda are forever associated with the SL name. Both cars are the foundation on which every new SL still rests today. And the SLK traces its roots back to the 190SL, the car that convinced management in the 1950s that the SL story was worth to be developed further. This reference book covers the complete history of all three versions, discusses a one of a kind 300SL roadster and comes with recent non-Daimler AG color photography. If you want to know

Already the subject of a Ludvigsen Library Series book, the racing 300SL inspired the creation of a production version, which first took flight in 1954. The 300SL stunned critics and experts alike with its fabulous performance-more than 150 miles per hour-exotic looks and superb build quality. Not just a pretty face, the 300SL was also extremely successful in competition on both sides of the Atlantic. The original coupe was followed by a roadster version in 1957; in all, 3,258 were made. Drawing on his unmatched archive of Mercedes-Benz photos, including coverage by Rudy Mailander and Edward Eves of the 300SL production line, Karl Ludvigsen presents the 300SL in all its glory. He also draws on his own experience as an owner of one of these great cars.

Based on the 300S production model but installed in a radical, tubular space frame, the 300SL was a tour de force of lightweight aerodynamic design. Extensive, unpublished photography superbly and intimately captured by Rodolfo Mailander show the 300SL at the Mille Miglia, Berne, Nurburgring and Le Mans. Mercedes-Benz 300 SL Rennsportwagen Günter Engelen, 2015-09 The 300 SL (W 194) is the first racing car with which Mercedes-Benz renewed its participation in international automobile racing in the postwar period. Top-ranking positions and triumphs, such as at the legendary twenty-four-hour endurance race in Le Mans or the Carrera Panamericana in Mexico, are not a long time in the coming and as early as 1952 secure a place for the Stuttgart-based make in the worldwide motor sports scene. The racing car achieved particular fame for its unusual gull-winged doors, which turn the production sports car 300 SL, introduced in 1954 and directly derived from the W 194, into one of the lasting icons in automobile history. The book provides exhaustive and authentic documentation of the technical development of the W 194 based on extensive research in the archives of Mercedes-Benz Classic: all of the races as well as the biography of each individual vehicle are presented with the aid of in part unpublished images and illustrations. Rudolf Uhlenhaut Wolfgang Scheller, Thomas Pollak, 2017 Born 1906 in London as the son of an English mother and a German father, Rudolf Uhlenhaut was an engineer and designer for Daimler-Benz. He became famous for his achievements regarding the Silver Arrows, the 300 SL with the famous gull wing doors, the legendary Mercedes-Benz 300 SLR, known as the "Uhlenhaut Coupé" and the various experimental C 111 versions well-known for several speed records. -- Uhlenhaut joined Daimler-Benz in 1931 after finishing his studies of mechanical engineering in Munich. In 1936 he took over as head of the racing department and conducted the Silver Arrows and Rudolf Caracciola to their 1937 European championship. Based upon the 300 SL "Gullwing", initially a thoroughbred racing sports car, he created the road versions W198 and the smaller open-topped W121, both launched at the International Motor Sports Show in New York 1954. Though Uhlenhaut never owned a car of his own, his official company car, a 300 SLR with a top speed of 290 km/h became famous as the Uhlenhaut Coupé, the fastest car of its day authorized for road use! -- This first ever comprehensive biography of Rudolf Uhlenhaut, illustrated with many previously unpublished photographs, depicts his life and technical achievements, presenting a complete compilation of all the patents he filed and exploring their significance. It also draws a vivid picture of the person behind the technical innovations and tries to explore his character and motivation.

Mercedes-Benz - the Grand Cabrios and Coupés, 2015 Nothing says summer like driving a convertible. The car without a roof has always been a symbol for luxury and laissez-faire. And it still holds true today: everybody who's anybody drives topless. The larger four-seater convertibles in particular have always been highly sought after--but they are difficult to build and have usually been made as coupes for this reason. Mercedes-Benz has always been a pioneer in this area. Mercedes-Benz: The Grand Cabrios & Coupes gives us a peek at the long-standing partnership between Mercedes-Benz and Stuttgart-based photographer Rene Staud. Carefully staged photos show graceful curves and precision down to the finest details that convey the company's dedication to a very special kind of driving pleasure. This volume presents the most important convertibles and related coupes from 100 years of Daimler automotive history. A special highlight is Daimler's new flagship, a convertible based on the new S-class that is being rolled out at the 2015 IAS. Even though summer eventually comes to an end, and sunny days can give way to showers, this book stands for everlasting convertible adventures.

Mercedes-Benz W114 and W115 James Taylor, 2021-03-22 The W114 and W115 models were enormously successful for Mercedes-Benz, and their sales in nine years of production between 1967 and 1976 almost equalled the total of all Mercedes passenger models built in the 23 years between 1945 and the time of their introduction in 1968. There were many reasons for this success, but perhaps the most important was that Mercedes expanded the range to include a simply vast amount of variants including four-cylinder and six-cylinder petrol engines, four-cylinder diesels; saloons, coupes and long-wheelbase models. With around 200 photographs, this book features the story of the design and development of the W114 and W115 ranges. It gives full technical specifications, including paint and interior trim choices; includes a chapter on the special US variants; gives

production tables and model type codes and explores the Experimental Safety Vehicles developed from these cars. Finally, there is a chapter on buying and owning a 114- or 115-series Mercedes.
