Learn Office 2016 for Mac Guy Hart-Davis,2016-07-26 A practical, hands-on approach to using Office 2016 applications to create and edit documents and get work done efficiently. You'll learn how to customize Office, design, create, and share documents, manipulate data in a spreadsheet, and create lively presentations. You'll also discover how to organize your email, contacts, and tasks with the new Outlook for Mac. Conveying information quickly and concisely, the book brings you from beginner or intermediate to an experienced and confident user. Office for Mac remains the leading productivity suite for Mac, with Apple's iWork and the free OpenOffice.org trailing far behind. Now, it's been updated with a cleaner interface and more compatibility with Exchange and SharePoint. This book provides the best combination of accessible and focused coverage of the Office 2016 applications. Rather than cover every seldom-used feature, the book covers real-world usage, putting emphasis on practical tasks and troubleshooting common problems, such as sharing documents with Windows users and older versions of Office. What You Will Learn Create professional documents for home and business using Word Edit documents collaboratively in real time with your colleagues Record and manipulate data using spreadsheets Use your data to create powerful and convincing charts Build persuasive multimedia presentations in PowerPoint Deliver presentations like an expert Keep your e-mail under control with Outlook Stay on top of your schedule and your tasks Who This Book Is For Any Mac user who needs to work with Word, Excel, PowerPoint, or Outlook either for business or for pleasure. Professionals, students, and home user alike will benefit from straightforward explanations, step-by-step instructions, and effective workarounds for everyday problems.

Web Information Systems and Technologies José Cordeiro,Slimane Hammoudi,Joaquim Filipe,2009-04-30 This book contains a selection of the best papers from WEBIST 2008 (the Fourth International Conference on Web Information Systems and Technologies), held in Funchal, Madeira, in 2008, organized by the Institute for Systems and Technologies of Information, Control and Communication (INSTICC), and co-sponsored by the Wo- flow Management Coalition (WfMC). The purpose of the WEBIST series of conferences is to bring together researchers, engineers and practitioners interested in the technological advances and business - plications of web-based information systems. The series focuses on four main topic areas, covering different aspects of web information systems, including internet te- nology; web interfaces and applications; society, e-business, and e-government; and e-learning. WEBIST 2008 received 238 paper submissions from more than 40 countries on all continents. A double-blind review process was enforced, with the help of more than 200 experts from the international Program Committee, each of them specialized in one of the main conference topic areas. After reviewing, 32 papers were selected to be published and presented as full papers and 64 additional papers, describing work-- progress, as short papers for oral presentation only. Furthermore, 58 papers were p- sented as posters. The full-paper acceptance ratio was 13%, and the total oral paper acceptance ratio was 40%. Therefore, we hope that you find the papers included in this book interesting, and we trust they may represent a helpful reference in the future for all those who need to address any of the research areas mentioned above.
