The Tea Party Goes to Washington Rand Paul, 2011-02-22 If the midterm elections were a declaration of war on the status quo, Rand Paul leads the battle charge. Voters fearful of growing government and debt have found voice in the Tea Party phenomenon and the movement continues to deliver a message that Washington, D.C. has found impossible to ignore. In *THE TEA PARTY GOES TO WASHINGTON*, the newly elected senator and self-described constitutional conservative explains why his party has to stand by its limited government rhetoric and why the federal government must be stuffed back into its constitutional box. Given the problems our nation faces, these are not mere suggestions, but moral imperatives. Rand Paul and those who voted for him want to stop borrowing, end the bailouts, and entitlements and the spending. In *THE TEA PARTY GOES TO WASHINGTON* you'll learn: The history of the Tea Party and why it isn't extreme How both parties operate outside the Constitution Rand's plan for a balanced budget Why the Tea Party will endure Now is the time to get America back on track-- this is the moment of the new revolution that will take us back to our grass roots, to the country of our founding fathers. It's a new day in Washington-- as the Tea Party graduates from populist outrage to political influence, Rand Paul stands poised to become one of its greatest champions.

Luso-American Literature Robert Henry Moser, Antonio Luciano de Andrade Tosta, 2011 Portuguese and Cape Verdean immigrants have had a significant presence in North America since the nineteenth century. Recently, Brazilians have also established vibrant communities in the U.S. This anthology brings together, for the first time in English, the writings of these diverse Portuguese-speaking, or Luso-American voices. Historically linked by language, colonial experience, and cultural influence, yet ethnically distinct, Luso-Americans have often been labeled an invisible minority. This collection seeks to address this lacuna, with a broad mosaic of prose, poetry, essays, memoir, and other writings by more than fifty prominent literary figures--immigrants and their descendants, as well as exiles and sojourners. It is an unprecedented gathering of published, unpublished, forgotten, and translated writings by a transnational community that both defies the stereotypes of ethnic literature, and embodies the drama of the immigrant experience.

Report to the President President's Council of Advisors on Science, Executive Office of the President, 2016-03-06 Cities are beginning a new era of change. From 1920 to 2010 many U.S. cities hollowed out as suburbs grew faster than their urban cores. The trend started reversing in 2011 as Millennials and Baby Boomers looking for social connections and convenience settled in urban neighborhoods. Accompanying the resurgence of residential cities are complex and persistent urban challenges, including resilience against climate change and natural disasters. This report focuses on the technologies that shape some key infrastructures and economic activities, as opposed to those involved in delivering education, health care, or social services. As described in Chapter 2 of the report, technological advances promise to improve the environments in which people live and the services that city governments and companies offer. Cleaner energy technologies, new models of transportation, new kinds of water systems, building-construction innovation, low-water and soil-less agriculture, and clean and small-scale manufacturing are or will be available in the near future. These options, which are summarized in the Table of City Infrastructure Technologies, are evolving through private-sector commercialization and implementation plus university and National Laboratory research and development (R&D) in concert with city governments.

The Veiled Web Catherine Asaro, 2022-09-27 "A near-future layering of East and West, of religion and technology . . . and of love and its loss—all woven into an intriguing tapestry." —Diana Gabaldon, bestselling author of the *Outlander* series Winner of the Homer Award for Best Science Fiction Novel A renowned prima ballerina, Lucia del Mar is far more comfortable expressing herself through dance than with words. Shy and introverted, she spends most of her spare time on her laptop. Still, Lucia's job forces her out of her comfort zone, which is how she winds up at a White House reception where she meets Rashid al-Jazari, the wealthy CEO of a multinational corporation. Although attracted to him, Lucia can't help but feel awkward and shrugs off their encounter as a one-time event. Not realizing he feels a similar attraction, she never imagines Rashid will seek out her performances; he is the last person she expects to see when her dance company travels to Italy. Their reunion takes an even more unexpected turn when they're both drugged and kidnapped. Although they overcome their abductors, it leaves them stranded in North Africa. For her own safety, Lucia agrees to marry Rashid, at least for the time being. As she recovers at his family compound in Morocco, reeling from their brush with danger, she struggles to fit into a culture she knows nothing about—and to deal with her growing feelings for Rashid. At the same time, at his secret office there, Rashid is developing a dramatic leap forward in artificial intelligence combined with virtual reality. He finds himself plunged into a fight for control of his work against powerful international forces, and caught in the middle, Lucia is swept into that battle . . . "A terrific novel, ripping a path from today's headlines to tomorrow's realities." —Robert J. Sawyer, Nebula Award-winning author

The Blonde Geisha Jina Bacarr, 2014-08-01 The early summer of 1892 brought a heavy rainy season that year in Japan. Plum Rain, the Japanese called it, because it comes when the fruit bulges with ripeness and promise. Like a young girl reaching womanhood. A girl like me. In the ancient Japanese tradition of beauty and grace, sex and erotic fantasies are hidden secrets that only a select few may learn, and which are forbidden to foreigners. But when a threat to her father's life puts her own in jeopardy, young Kathlene Mallory is sent to live in safety at the Tea House of the Look-Back Tree, where she is allowed to glimpse inside the sensual world of the geisha. During the years of her training in the art of pleasuring men, Kathlene's desires are awakened by the promise of unending physical delights, and she eagerly prepares for the final ritual that will fulfill her dream of becoming a geisha — the selling of her virginity. The man willing to pay for such an honor, Baron Tonda, is not the man for whom Kathlene carries a secret longing, but he is the man who will bring ruin to the teahouse, and danger to Kathlene, if he is disappointed....
