The Fingerprint U. S. Department Justice,2014-08-02 The idea of The Fingerprint Sourcebook originated during a meeting in April 2002. Individuals representing the fingerprint, academic, and scientific communities met in Chicago, Illinois, for a day and a half to discuss the state of fingerprint identification with a view toward the challenges raised by Daubert issues. The meeting was a joint project between the International Association for Identification (IAI) and West Virginia University (WVU). One recommendation that came out of that meeting was a suggestion to create a sourcebook for friction ridge examiners, that is, a single source of researched information regarding the subject. This sourcebook would provide educational, training, and research information for the international scientific community.

A Grammar of Neo-Aramaic Geoffrey Khan,2015-11-02 Being direct descendants of the Aramaic spoken by the Jews in antiquity, the still spoken Jewish Neo-Aramaic dialects of Kurdistan deserve special and vivid interest. Geoffrey Khan's A Grammar of Neo-Aramaic is a unique record of one of these dialects, now on the verge of extinction. This volume, the result of extensive fieldwork, contains a description of the dialect spoken by the Jews from the region of Arbel (Iraqi Kurdistan), together with a transcription of recorded texts and a glossary. The grammar consists of sections on phonology, morphology and syntax, preceded by an introductory chapter examining the position of this dialect in relation to the other known Neo-Aramaic dialects. The transcribed texts record folktales and accounts of customs, traditions and experiences of the Jews of Kurdistan.
