Clothing Sacred Scriptures David Ganz,Barbara Schellewald,2018-12-03

According to a longstanding interpretation, book religions are agents of textuality and logocentrism. This volume inverts the traditional perspective: its focus is on the strong dependency between scripture and aesthetics, holy books and material artworks, sacred texts and ritual performances. The contributions, written by a group of international specialists in Western, Byzantine, Islamic and Jewish Art, are committed to a comparative and transcultural approach. The authors reflect upon the different strategies of »clothing« sacred texts with precious materials and elaborate forms. They show how the pretypographic cultures of the Middle Ages used book ornaments as media for building a close relation between the divine words and their human audience. By exploring how art shapes the religious practice of books, and how the religious use of books shapes the evolution of artistic practices this book contributes to a new understanding of the deep nexus between sacred scripture and art.

Red Hot Lies Christopher C. Horner,2008-11-11 Liars--Al Gore, the United Nations, the New York Times. The global warming lobby, relentless in its push for bigger government, more spending, and more regulation, will use any means necessary to scare you out of your wits--as well as your tax dollars and your liberties--with threats of rising oceans, deadly droughts, and unspeakable future consequences of climate change. In pursuing their anti-energy, anti-capitalist, and pro-government agenda, the global warming alarmists--and unscrupulous scientists who see this scare as their gravy train to federal grants and foundation money--resort to dirty tricks, smear campaigns, and outright lies, abandoning scientific standards, journalistic integrity, and the old-fashioned notions of free speech and open debate. In *Red Hot Lies*, bestselling author Christopher Horner--himself the target of Greenpeace dirty tricks and alarmist smears--exposes the dark underbelly of the environmental movement. Power-hungry politicians blacklist scientists who reject global warming alarmism. U.S. senators threaten companies that fund climate change dissenters. Mainstream media outlets openly reject the notion of balance. The occasional ungarded scientist candidly admits the need to twist the facts to paint an uglier picture in order to keep the faucet of government money flowing. In the name of saving the planet, anything goes. But why the nasty tactics? Why the cover ups, lies, and intimidation? Because Al Gore and his ilk want to use big government at the local, state, federal, and global level to run your life, and they can brook no opposition. But the actual facts, as *Red Hot Lies* makes clear, aren't nearly as scary as their fiction.

Discipline-Based Art Education Kay Alexander,Michael Day,1991-01-01 This sampler was designed for art specialists and art museum educators with a basic understanding of teaching discipline-based art education content. The introduction offers a brief history of the Sampler and explains its intended purpose and use. Then 8 unit models with differing methodologies for relating art objectives to the four disciplines: aesthetics, art criticism, art history, and art production, are presented. The sampler consists of two elementary units, two units for middle school, two units intended for required high school art, one high school studio ceramic unit, and a brief unit for art teachers and art museum educators that focuses on visits to art museums. Learning activities, resource material, and learning strategies are given for the units along with a sequence of lessons organized on a theme.

Designing for Privacy and its Legal Framework Aurelia Tamò-Larrieux, 2018-11-03 This book discusses the implementation of privacy by design in Europe, a principle that has been codified within the European Data Protection Regulation (GDPR). While privacy by design inspires hope for future privacy-sensitive designs, it also introduces the need for a common understanding of the legal and technical concepts of privacy and data protection. By pursuing an interdisciplinary approach and comparing the problem definitions and objectives of both disciplines, this book bridges the gap between the legal and technical fields in order to enhance the regulatory and academic discourse. The research presented reveals the scope of legal principles and technical tools for privacy protection, and shows that the concept of privacy by design goes beyond the principle of the GDPR. The book presents an analysis of how current regulations delegate the implementation of technical privacy and data protection measures to developers and describes how policy design must evolve in order to implement privacy by design and default principles.

Dictionary of Ancient Magic Words and Spells Claude Lecouteux, 2015-10-15 A comprehensive handbook of more than 1,000 magical words, phrases, symbols, and secret alphabets • Explains the origins, derivatives, and practical usage of each word, phrase, and spell as well as how they can be combined for custom spells • Based on the magical traditions of Europe, Greece, and Egypt and recently discovered one-of-a-kind grimoires from Scandinavia, France, and Germany • Includes an in-depth exploration of secret magical alphabets, including those based on Hebrew letters, Kabbalistic symbols, astrological signs, and runes From Abracadabra to the now famous spells of the Harry Potter series, magic words are no longer confined to the practices of pagans, alchemists, witches, and occultists. They have become part of the popular imagination of the Western world. Passed down from ancient Babylon, Egypt, and Greece, these words and the rituals surrounding them have survived through the millennia because they work. And as scholar Claude Lecouteux reveals, often the more impenetrable they seem, the more effective they are. Analyzing more than 7,000 spells from the magical traditions of Europe as well as the magical papyri of the Greeks and recently discovered one-of-a-kind grimoires from Scandinavia, France, and Germany, Lecouteux has compiled a comprehensive dictionary of ancient magic words, phrases, and spells along with an in-depth exploration--the first in English--of secret magical alphabets, including those based on Hebrew letters, Kabbalistic symbols, astrological signs, and runes. Drawing upon thousands of medieval accounts and famous manuscripts such as the *Heptameron* of Peter Abano, the author examines the origins of each word or spell, offering detailed instructions on their successful use, whether for protection, love, wealth, or healing. He charts their evolution and derivations through the centuries, showing, for example, how spells that were once intended to put out fires evolved to

protect people from witchcraft. He reveals the inherent versatility of magic words and how each sorcerer or witch had a set of stock phrases they would combine to build a custom spell for the magical need at hand. Presenting a wealth of material on magical words, signs, and charms, both common and obscure, Lecouteux also explores the magical words and spells of ancient Scandinavia, the Hispano-Arabic magic of Spain before the Reconquista, the traditions passed down from ancient Egypt, and those that have stayed in use until the present day.

Hillary (and Bill). Victor Thorn,2008-01-01 110: Is the Clinton 'Body Count' Real? This question has plagued the former first couple for nearly 20 years, and has become such an integral part of popular culture that Hillary has been forced to sarcastically refer to it in press conferences. (Some people even say we're involved in drug dealing and murder.) Still, is the Clinton Body Count real, or simply an urban legend-a product of far-flung conspiracy theory? In Part Three of the Clinton trilogy-The Murder Volume-an overwhelming amount of evidence is provided proving that the 110+ people who've died under mysterious circumstances-all tied in some way, shape, or form to the Clintons-far surpasses any chance of it merely being coincidence. The odds of such a phenomenon occurring naturally are, in fact, so miniscule that alternative explanations become necessary. Other Topics Covered: True Motive forWaco Holocaust -and the Person Who Ordered the Massacre-Revealed! Proof Positive Vince Foster Was Murdered. Now See the Killer Revealed for the First Time! Was Ron Brown Getting Ready to Spill the Beans About Bill & Hillary's Nefarious Activities? Was Bill Being Blackmailed And Was Monica Lewinsky Hillary's Unwitting Pawn?
