Carley Garner

Trading in the Zone Mark Douglas,2001-01-01 Douglas uncovers the underlying reasons for lack of consistency and helps traders overcome the ingrained mental habits that cost them money. He takes on the myths of the market and exposes them one by one teaching traders to look beyond random outcomes, to understand the true realities of risk, and to be comfortable with the probabilities of market movement that governs all market speculation.

Expert Advisor Programming Gerard Desjardins,Andrew R. Young,2009-12 Finally, the first comprehensive guide to MQL programming is here! Expert Advisor Programming guides you through the process of developing robust automated forex trading systems for the popular MetaTrader 4 platform. In this book, the author draws on several years of experience coding hundreds of expert advisors for retail traders worldwide. You'll learn how to program these common trading tasks, and much more: - Place market, stop and limit orders. - Accurately calculate stop loss and take profit prices. - Calculate lot size based on risk. - Add flexible trailing stops to your orders. - Count, modify and close multiple orders at once. - Verify trading conditions using indicators and price data. - Create flexible and reusable source code functions. - Add advanced features such as timers, email alerts and Martingale lot sizing. - Avoid common trading errors and easily troubleshoot your programs. - Adjustments for fractional pip brokers and FIFO. - Plus, learn how to create your own custom indicators and scripts! Whether you're a beginner or an experienced programmer, Expert Advisor Programming can help you realize your automated trading ideas in the shortest amount of time. This book features dozens of code examples with detailed explanations, fully-functioning example programs, and reusable functions that you can use in your own expert advisors!

The Handbook of Technical Analysis + Test Bank Mark Andrew Lim,2015-09-22 A self study exam preparatory guide for financial technical analysis certifications Written by the course director and owner of www.tradermasterclass.com, a leading source of live and online courses in trading, technical analysis, and money management, A Handbook of Technical Analysis: The Practitioner's Comprehensive Guide to Technical Analysis is the first financial technical analysis examination preparatory book in the market. It is appropriate for students taking IFTA CFTe Level I and II (US), STA Diploma (UK), Dip TA (Aus), and MTA CMT Level I, II, and III exams in financial technical analysis, as well as for students in undergraduate, graduate, or MBA courses. The book is also an excellent resource for serious traders and technical analysts, and includes a chapter dedicated to advanced money management techniques. This chapter helps complete a student's education and also provides indispensable knowledge for FOREX, bond, stock, futures, CFD, and option traders. Learn the definitions, concepts, application, integration, and execution of technical-based trading tools and approaches Integrate innovative techniques for pinpointing and handling market reversals Understand trading mechanisms and advanced money management techniques Examine the weaknesses of popular technical approaches and find more effective solutions The book allows readers to test their current knowledge and then check their learning with end-of-chapter test questions that span essays, multiple choice, and chart-based annotation exercises. This handbook is an essential resource for students, instructors, and practitioners in the field. Alongside the handbook, the author will also publish two full exam preparatory workbooks and a bonus online Q&A Test bank built around the most popular professional examinations in financial technical analysis.

Mql4 Programming by Abdelmalek Malek Abdelmalek Malek,2020-04-23 all what you need to program mql4 automated trading robot programmer (EA for Metatrader4)

Meta trader 4 and Meta trader 5 A. Willians,2024-01-25

Expert Advisor Programming for MetaTrader 4 Andrew R. Young,2015-02-21 Brand new and fully updated for the latest versions of MetaTrader 4, Expert Advisor Programming for MetaTrader 4 is a practical guide to programming expert advisors in the MQL4 language. Leverage the latest features imported from the MQL5 language, including object-oriented programming, enumerations, structures and more. This book will teach you the following concepts: The basics of the MQL4 language, including variables and data types, operations, conditional and loop operators, functions, classes and objects, event handlers and more. Place, modify and close market and pending orders. Add a stop loss and/or take profit price to an individual order, or to multiple orders. Close orders individually or by order type. Get a total of all currently opened orders. Work with OHLC bar data, and locate basic candlestick patterns. Find the highest high and lowest low of recent bars. Work with MetaTrader's built-in indicators, as well as custom indicators. Add a trailing stop or break even stop feature to an expert advisor. Use money management and lot size verification techniques. Add a flexible trading timer to an expert advisor. Construct several types of trading systems, including trend, counter-trend and breakout

systems. Add alerts, emails, sounds and other notifications. Add and manipulate chart objects. Read and write to CSV files. Construct basic indicators, scripts and libraries. Learn how to effectively debug your programs, and use the Strategy Tester to test your strategies. All of the source code in this book is available for download, including an expert advisor framework that allows you to build robust and fully-featured expert advisors with minimal effort. Whether you're a new trader with limited programming experience, or an experienced programmer who has worked in other languages, Expert Advisor Programming for MetaTrader 4 is the easiest way to get up and running in MQL4.

Competing in Financial Markets Philip Cooper,2018-03-05 Competing in the financial markets will give both the novice and intermediate traders alike a comprehensive understanding of how to trade in the financial markets without losing their shirts. This book is primarily aimed at the undergraduate whose ambition is to either become a trader in a financial organization or trade online through a financial brokers trading platform. It provides seasoned online traders with new insights into financial assets other than currencies. In simple-to-understand, concise language, enhanced by relevant graphics, all the key trading tools available for traders are explained in enough detail that novice traders should be able to understand and learn how to trade effectively in the financial markets. Chapter by chapter, this book builds a comprehensive understanding of the basic building blocks of trading assets, covering key charting and technical tools including fundamental analysis and the key economic events. The author exposes the myth that trading is an unfathomable mystery.

Hybrid Artificial Intelligent Systems Francisco Javier Martínez de Pisón,Rubén Urraca,Héctor Quintián,Emilio Corchado,2017-06-12 This volume constitutes the refereed proceedings of the 12th International Conference on Hybrid Artificial Intelligent Systems, HAIS 2017, held in La Rioja, Spain, in June 2017. The 60 full papers published in this volume were carefully reviewed and selected from 130 submissions. They are organized in the following topical sections: data mining, knowledge discovery and big data; bioinspired models and evolutionary computing; learning algorithms; visual analysis and advanced data processing techniques; data mining applications; and hybrid intelligent applications.

How To Be A Millionaire Before 2015 Ends John Francisco Sanchez,2014-09-20 If you will follow those steps discussed in this book and you start, make moves right now, you could achieve a biggest change and you can beat the life you've dreaming of and become free from the financial struggle you are facing before the year 2015 ends. (39 pages)

Currency Trading in the Forex and Futures Markets Carley Garner,2012-01-04 Currency trading offers immense potential to stock and futures investors seeking new speculative opportunities. However, there are several ways to trade in currencies, and many unsuspecting traders have been burned by aggressive marketing campaigns and gimmicks luring them into unfavorable trading environments. In this book, best-selling trading author Carley Garner covers everything new currency traders need to know to avoid those pitfalls and start earning big profits. Currency Trading in the Forex and Futures Markets begins by demystifying all the essentials, from quotes and calculations to the unique language of Forex trading. Readers learn all they need to know about choosing trading platforms and brokerage firms; working with leverage; controlling transaction costs; managing liquidity, margins, and risks; and much more. Garner thoroughly explains the currency spot market (Forex); currency futures traded on the Chicago Mercantile Exchange (CME); and currency ETFs. She candidly discusses the advantages and disadvantages of each, cutting through the smoke and mirrors often associated with currency trading. Readers will also find a full section on currency market speculation, including a clear introduction to fundamental and seasonal analysis in currency markets. With her guidance, new currency traders can identify the markets and approaches that best fit their objectives, and avoid the pitfalls that have often victimized their predecessors.

The Sensible Guide to Forex Cliff Wachtel,2012-09-04 FXstreet.Com's 2013 Best Book Award! The Sensible Guide to Forex: Safer, Smarter Ways to Survive and Prosper from the Start is written for the risk averse, mainstream retail investor or trader seeking a more effective way to tap forex markets to improve returns and hedge currency risk. As the most widely held currencies are being devalued, they're taking your portfolio down with them—unless you're prepared. For traders, the book focuses on reducing the high risk, complexity, and time demands normally associated with forex trading. For long-term investors, it concentrates on how to hedge currency risk by diversifying portfolios into the strongest currencies for lower risk and higher capital gains and income. The usual forex materials don't provide practical answers for most retail traders or longer term investors. Virtually all forex trading materials focus on time-consuming, high-leverage, high-risk methods at which most traders fail. Materials about long-term investing in foreign assets rarely take into account the prospects of the related currency. A falling currency can turn an otherwise good investment into a bad one. Throughout the book, the emphasis is on planning and executing only low risk, high potential yield trades or investments and avoiding serious losses at all costs. Packed with richly illustrated examples every step of the way and including additional appendices and references to online resources, the book is the ultimate guide to forex for retail traders and investors seeking to tap forex markets for better currency diversification and income. Provides traders with safer, smarter, less complex and time-consuming ways to trade forex with higher odds of success. These include the use of such increasingly popular new instruments like forex binary options and social trading accounts that mimic expert traders. Shows investors how to identify the currencies most likely to hold or increase their value, and provides a wealth of ideas about how to apply that knowledge to a long-term, low-maintenance portfolio for both income and capital appreciation. Helps anyone seeking an asset class with low correlation to other markets by explaining how the very nature of forex markets means that regardless of market conditions there's always a playable trend somewhere, regardless of what other asset markets are doing, and how to find and exploit it for a short-term trade or a long-term investment in a currency pair, stock, bond, or other asset The Sensible Guide to Forex is only book that teaches mainstream risk averse investors and traders how to build a portfolio that's diversified by currency exposure as well as by asset class and sector, via a variety of safer, simpler methods to suit different needs, risk tolerances, and levels of expertise. Written by Cliff Wachtel, a 30+ year financial market writer, advisor, and analyst, The Sensible Guide to Forex offers practical solutions to the above dilemmas faced by every serious, prudent investor. A must own for any informed investor-but don't take out word for it - see advanced reviews at: <http://thesensibleguidetoforex.com/review/>

Expert advisor for MT4 for one evening Evgeny Zhdan,2022-05-15 The reader along with the author will independently write an advisor for the MetaTrader-4 trading terminal. The book describes the basic actions that are performed when developing 95% of trade experts. Thanks to the knowledge gained, immediately after reading the book the reader will be able to write a simple expert himself.

Quantum Finance Raymond S. T. Lee,2019-11-15 With the exponential growth of program trading in the global financial industry, quantum finance and its underlying technologies have become one of the hottest topics in the fintech community. Numerous financial institutions and fund houses around the world require computer professionals with a basic understanding of quantum finance to develop intelligent financial systems. This book presents a selection of the author's past 15 years' R&D work and practical implementation of the Quantum Finance Forecast System - which integrates quantum field theory and related AI technologies to design and develop intelligent global financial forecast and quantum trading systems. The book consists of two parts: Part I discusses the basic concepts and theories of quantum finance and related AI technologies, including quantum field theory, quantum price fields, quantum price level modelling and quantum entanglement to predict major financial events. Part II then examines the current, ongoing R&D projects on the application of quantum finance technologies in intelligent real-time financial prediction and quantum trading systems. This book is both a textbook for undergraduate & masters level quantum finance, AI and fintech courses and a valuable resource for researchers and data scientists working in the field of quantum finance and intelligent financial systems. It is also of interest to professional traders/ quants & independent investors who would like to grasp the basic concepts and theory of quantum finance, and more importantly how to adopt this fascinating technology to implement intelligent financial forecast and quantum trading systems. For system implementation, the interactive quantum finance programming labs listed on the Quantum Finance Forecast Centre official site (QFFC.org) enable readers to learn how to use quantum finance technologies presented in the book.

The Power of Japanese Candlestick Charts Fred K. H. Tam,2015-09-01 A practical, must-read guide to candlestick chartingtechniques Japanese candlestick charting is a highly effective method fortiming the market for

short-term profits. Unlike most western techniques—moving average, relative strength index, MACD, stochastic, Bollinger bands, or Elliot waves—candlestick charting signals are based on very close analysis of product price, producing accurate buy or sell signals between two and ten periods earlier than other techniques. In *The Power of Japanese Candlestick Charts*, noted author and futures trading expert Fred Tam offers a full and sophisticated range of charting techniques using candlestick methodology. Written by Fred K. H. Tam, a noted pioneer in exploring the Japanese candlestick methodology. Ideal for anyone who wants to invest or trade in both the futures and stock markets. Includes hundreds of illustrated charts. *The Power of Japanese Candlestick Charts* is a comprehensive and valuable guide to candlestick charting that is perfect for analysts, stock or day traders, and short-term position traders.

The Logical Trader Mark B. Fisher, 2002-07-26 An in-depth look at the trading system that anyone can use. *The Logical Trader* presents a highly effective, yet simple trading methodology that any trader anywhere can use to trade almost anything. The ACD Method developed and refined by Mark Fisher after many years of successful trading, provides price points at which to buy and sell as determined by the opening range of virtually any stock or commodity. This comprehensive guide details a widely used system that is profitably implemented by many computer and floor traders at major New York exchanges. The author's highly accessible teaching style provides readers of *The Logical Trader* with a full examination of the theory behind the ACD Method and the examples and real-world trading stories involving it. Mark B. Fisher (New York, NY), an independent trader, is founder of MBF Clearing Corp., the largest clearing firm on the NYMEX. Founded in 1988, MBF Clearing has grown from handling under one percent of the volume on the NYMEX to nearly twenty percent of the trades today. A 1982 summa cum laude graduate from the Wharton School of Business, University of Pennsylvania, Fisher also received his master's degree in finance and accounting from Wharton. New technology and the advent of around the clock trading have opened the floodgates to both foreign and domestic markets. Traders need the wisdom of industry veterans and the vision of innovators in today's volatile financial marketplace. The Wiley Trading series features books by traders who have survived the market's ever changing temperament and have prospered—some by reinventing systems, others by getting back to basics. Whether a novice trader, professional or somewhere in-between, these books will provide the advice and strategies needed to prosper today and well into the future.
