Meteor Showers and their Parent Comets Peter Jenniskens,2006-09-14 Meteor Showers and their Parent Comets is a unique handbook for astronomers interested in observing meteor storms and outbursts. Spectacular displays of 'shooting stars' are created when the Earth's orbit crosses a meteoroid stream, as each meteoroid causes a bright light when it enters our atmosphere at high speed. Jenniskens, an active meteor storm chaser, explains how meteoroid streams originate from the decay of meteoroids, comets and asteroids, and how they cause meteor showers on Earth. He includes the findings of recent space missions to comets and asteroids, the risk of meteor impacts on Earth, and how meteor showers may have seeded the Earth with ingredients that made life possible. All known meteor showers are identified, accompanied by fascinating details on the most important showers and their parent comets. The book predicts when exceptional meteor showers will occur over the next fifty years, making it a valuable resource for both amateur and professional astronomers.

Enterprise and Venture Capital Christopher Golis,2010-09-27 Enterprise and Venture Capital is the bestselling guide for people looking to build new businesses around bright ideas, and investors awake to the opportunities offered by new business building. This is the revised and updated fifth edition of the book that is widely regarded as the handbook of the Australian venture capital industry. Enterprise and Venture Capital sets out in a straightforward and practical way how to put venture capital to work. It discusses the fundamentals of business building, the sources of venture capital available and the steps involved in obtaining the appropriate financing, including the preparation of a business plan, the choice of a venture capitalist and negotiations with investors. This book includes advice to investors on how to invest venture capital wisely and concludes with three case studies involving venture capital investment and the lessons learned by both investors and entrepreneurs. Enterprise and Venture Capital is based on the tripartite experience of one of Australia's leading venture capital managers, a leading corporate finance advisor and an experienced international businessman. It is also based on the analysis of over 6000 business plans and detailed interviews with some of the region's most successful international entrepreneurs.

Stock Index Futures Charles M.S. Sutcliffe,2018-01-18 The global value of trading in index futures is about \$20 trillion per year and rising and for many countries the value traded is similar to that traded on their stock markets. This book describes how index futures markets work and clearly summarises the substantial body of international empirical evidence relating to these markets. Using the concepts and tools of finance, the book also provides a comprehensive description of the economic forces that underlie trading in index futures. Stock Index Futures 3/e contains many teaching and learning aids including numerous examples, a glossary, essay questions, comprehensive references, and a detailed subject index. Written primarily for advanced undergraduate and postgraduate students, this text will also be useful to researchers and market participants who want to gain a better understanding of these markets.

Meteor! Patricia Polacco,1996-08-08 The meteor that crash lands in the middle of Grandma and Grandpa Gaw's yard sets off a chain of events that brings magic to the residents of Mudsock Meadow. A remarkable true-life event comes alive in this reissue of Patricia Polacco's very first picture book.'Based on a true event, this enchanting book overwhelmingly expresses the magic that suddenly pervades a small town, from the funny, folksy way the story is told to the imaginative, full-color illustrations.' ?Publishers Weekly'Polacco's full-color pictures are completely in tandem with the telling'E' ?Booklist (starred review)

Asteroid Hunters Carrie Nugent,2017-03-14 For the first time, scientists could have the knowledge to prevent a natural disaster epic in scale—an asteroid hitting the earth and in this exciting, adventuresome book, Carrie Nugent explains how. What are asteroids, and where do they come from? And, most urgently: Are they going to hit the Earth? What would happen if one was on its way? Carrie Nugent is an asteroid hunter—part of a group of scientists working to map our cosmic neighborhood. For the first time ever, we are reaching the point where we may be able to prevent the horrible natural disaster that would result from an asteroid collision. In Asteroid Hunters, Nugent reveals what known impact asteroids have had: the extinction of the dinosaurs, the earth-sized hole Shoemaker Levy 9 left in Jupiter just a few decades ago, how the meteorite that bursted over Chelyabinsk in Russia could have started a war, and unlucky Ms. Anne Hodges—the only person (that we know of) in US history to be the victim of a direct hit. Nugent also introduces the telescope she uses to detect near-Earth asteroids. Ultimately, detection is the key to preventing asteroid impact, and these specialized scientists are working to prevent the unthinkable from happening. If successful, asteroid hunting will lead to the first natural disaster humans have the know-how and the technology to prevent. The successful hunt and mapping of asteroids could mean nothing less than saving life on earth.
