New Makers of Modern Culture Wintle Justin,2013-05-13 New Makers of Modern Culture is the successor to the classic reference works Makers of Modern Culture and Makers of Nineteenth-Century Culture, published by Routledge in the early 1980s. The set was extremely successful and continues to be used to this day, due to the high quality of the writing, the distinguished contributors, and the cultural sensitivity shown in the selection of those individuals included. New

Makers of Modern Culture takes into full account the rise and fall of reputation and influence over the last twenty-five years and the epochal changes that have occurred: the demise of Marxism and the collapse of the Soviet Union; the rise and fall of postmodernism; the eruption of Islamic fundamentalism; the triumph of the Internet. Containing over eight hundred essay-style entries, and covering the period from 1850 to the present, New Makers includes artists, writers, dramatists, architects, philosophers, anthropologists, scientists, sociologists, major political figures, composers, film-makers and many other culturally significant individuals and is thoroughly international in its purview. Next to Karl Marx is Bob Marley, next to John Ruskin is Salmon Rushdie, alongside Darwin is Luigi Dallapiccola, Deng Xiaoping runs shoulders with Jacques Derrida, Julia Kristeva with Kropotkin. Once again, Wintle has enlisted the services of many distinguished writers and leading academics, such as Sam Beer, Bernard Crick, Edward Seidensticker and Paul Preston. In a few cases, for example Michael Holroyd and Philip Larkin, contributors are themselves the subject of entries. With its global reach, New Makers of Modern Culture provides a multi-voiced witness of the contemporary thinking world. The entries carry short bibliographies and there is thorough cross-referencing. There is an index of names and key terms.

The Free World Louis Menand, 2021-04-20 An engrossing and impossibly wide-ranging project . . . In *The Free World*, every seat is a good one. —Carlos Lozada, *The Washington Post* *The Free World* sparkles. Fully original, beautifully written . . . One hopes Menand has a sequel in mind. The bar is set very high. —David Oshinsky, *The New York Times Book Review* | Editors' Choice One of *The New York Times's* 100 best books of 2021 | One of *The Washington Post's* 50 best nonfiction books of 2021 | *A Mother Jones* best book of 2021 In his follow-up to the Pulitzer Prize-winning *The Metaphysical Club*, Louis Menand offers a new intellectual and cultural history of the postwar years. The Cold War was not just a contest of power. It was also about ideas, in the broadest sense—economic and political, artistic and personal. In *The Free World*, the acclaimed Pulitzer Prize-winning scholar and critic Louis Menand tells the story of American culture in the pivotal years from the end of World War II to Vietnam and shows how changing economic, technological, and social forces put their mark on creations of the mind. How did elitism and an anti-totalitarian skepticism of passion and ideology give way to a new sensibility defined by freewheeling experimentation and loving the Beatles? How was the ideal of “freedom” applied to causes that ranged from anti-communism and civil rights to radical acts of self-creation via art and even crime? With the wit and insight familiar to readers of *The Metaphysical Club* and his *New Yorker* essays, Menand takes us inside Hannah Arendt’s Manhattan, the Paris of Jean-Paul Sartre and Simone de Beauvoir, Merce Cunningham and John Cage’s residencies at North Carolina’s Black Mountain

College, and the Memphis studio where Sam Phillips and Elvis Presley created a new music for the American teenager. He examines the post war vogue for French existentialism, structuralism and post-structuralism, the rise of abstract expressionism and pop art, Allen Ginsberg's friendship with Lionel Trilling, James Baldwin's transformation into a Civil Right spokesman, Susan Sontag's challenges to the New York Intellectuals, the defeat of obscenity laws, and the rise of the New Hollywood. Stressing the rich flow of ideas across the Atlantic, he also shows how Europeans played a vital role in promoting and influencing American art and entertainment. By the end of the Vietnam era, the American government had lost the moral prestige it enjoyed at the end of the Second World War, but America's once-despised culture had become respected and adored. With unprecedented verve and range, this book explains how that happened.

Transforming Faces for the Screen Karen Randell, Alexis Weedon, 2023-12-11 This book brings together research from medical and film archives to illustrate the cultural impact of film and literature in its relationship to the discourse of plastic surgery in the 1920s. This different take on reading the body after the First World War enables students of multiple disciplines, and readers interested in both Hollywood and post-war culture, to understand some of the complexities of medical interventions gained after the First World War and the way in which they filtered into the world of Hollywood film making. It also allows readers who may not be familiar with these two 1920s stars to access the films of Lon Chaney and the books and films of Elinor Glyn and gain new insights into 1920s visual culture. For ease of readership, the book is organised so that each of the main chapters focuses on a particular film (either Lon Chaney or Elinor Glyn). This is particularly useful for use in the classroom or for online education. Readers can refer to the film directly, aided by

illustrations of frames from the films. This book tells the story of how two stars of Hollywood film transformed their character's faces on screen through a close reading of three films in the 1920s. It reveals how they applied their embodied knowledge of surgery and surgical procedures to broaden their audience's emotional and intellectual understanding of the treatment of deformity and disability.
