The Child in America William Isaac Thomas,Dorothy Swaine Thomas Thomas,1928 Interest in child adjustment problems and facilities for the study of behavior deviates have grown so rapidly in recent years that a comprehensive treatment of the subject is gladly welcomed. All who deal in any capacity with the problem child will find here a wealth of detailed information about procedures and methods, and a critical evaluation of present practice. The authors deal with their subject from all possible viewpoints. The setting is prepared for the reader by the presentation in the first chapter of pictures of various types of maladjustment, largely in the form of case material. The authors indicate two primary causative factors in maladjustment-organic defect or abnormality in the individual, and wrong habit formation. The remainder of the book is devoted to methods of study and treatment of behavior deviates as indicated by present practice. Methods of dealing with delinquency through the court and the reform school are critically examined. An extensive account is given of psychiatric child guidance clinics and community organizations, club and recreational facilities, for dealing with child behavior problems.

Mastering the Bass Book 1 BRUCE GERTZ,2011-03-04 Mastering the Bass is a thorough method for both electric and upright bass designed to guide bassists to mastery. It begins with building strong time and rhythmic skills, a firm foundation upon which all bass playing must be rooted. Following this, students learn a wide range of grooves and practice reading all styles of music: Blues, Rock, Funk, Reggae, Fusion (including odd meters), Jazz, Latin, Baroque, Classical and more. Ear training incorporated into the method improves the students' listening skills, teaching students to hear chord progressions, melodies and rhythms. Theory lessons help students understand how the bass functions in music. Students also study improvisation of both bass parts and solos on chord changes, articulation (finger and bowing technique), performance goals, visualization, and more. Each volume moves logically to the next level Even seasoned players can fill holes in their technique by going through the method from Book I and moving on to greater technique as well as a deeper understanding in later volumes.Also available in Japanese from ATN, Inc.

Studies in Perception and Action IX Sarah Cummins-Sebree,Michael A. Riley,Kevin Shockley,2010-10-18 The edited book series Studies in Perception and Action contains a collection of research presented at the International Conference on Perception and Action (ICPA). The Studies series has appeared in conjunction with the biennial ICPA since 1991. ICPA provides a forum for presenting new data, theory, and methodological developments relevant to the ecological approach to perceptionaction. This volume is the 9th in the Studies in Perception and Action series, and it contains research presented at the 14th ICPA meeting in the summer of 2007. The sixty papers presented in this volume represent the latest developments in ecological psychology research from four continents. In many instances, the contributions to Studies volumes reflect the first appearance of new ideas in a scientific venue. As a result, the Studies volumes contain the most recent and cutting edge research in perception and action. This volume will appeal to individuals who follow the research literature in ecological psychology, as well as those interested in perception, perceptual development, human movement dynamics, and social processes.
