Dar Al Islam--the Mediterranean, the World System and the Wider Europe Peter Herrmann,Arno Tausch,2005 With the process of a 'wider Europe' (EU-Commission President Romano Prodi's 'ring of friends') that extends from Marrakech in Morocco to St Petersburg in Russia gathering speed, the growing rift between Europe and America also is about how to deal politically with the countries of the Mediterranean-Muslim world. The house of Islam (Dar al Islam) was pivotal to the European path to the Renaissance and to the re-discovery of classic Greek philosophy. The Mediterranean policy of the European Union aims at a positive and co-operative relationship with the region. A successful integration of the Mediterranean South would have tremendous and positive repercussions for regional and world peace. World-wide leading experts from the field of world systems analysis, economics, integration theory, political science, theology and area studies, agnostics, Christians, Jews and Muslims alike discuss the issue with European decision makers. The outcome is an interdisciplinary evaluation of this projected export of peace, co-operation, dialogue and stability in the framework of world centre-periphery relationships.

Substance Abuse Disorders Hamid Ghodse,Helen

Herrman, Mario Maj, Norman Sartorius, 2011-02-14
Substance abuse disorders are among the most prevalent psychiatric disorders and are frequently comorbid with other psychiatric and health conditions and accompanied by social problems; however, they remain under-recognized and under-treated. Many physicians and mental health practitioners receive little-to-no training in the identification and treatment of these disorders. Approaches to their prevention include some of the major success stories in modern public health as well as some of the deepest controversies in public life. This new title in the WPA series Evidence and Experience in Psychiatry informs psychiatrists and a wide range of professional groups from health and social services about these disorders and their treatment and control. 'Highly Commended' in the Psychiatry section of the 2012 BMA Book Awards

The Fair Tax Book Neal Boortz, John Linder, 2005-08-02 Wouldn't you love to abolish the IRS ... Keep all the money in your paycheck ... Pay taxes on what you spend, not what you earn ... And eliminate all the fraud, hassle, and waste of our current system? Then the FairTax is for you. In the face of the outlandish American tax burden, talk-radio firebrand Neal Boortz and Congressman John Linder are leading the charge to phase out our current, unfair system and enact the FairTax Plan, replacing the federal income tax and withholding system with a simple 23 percent retail sales tax on new goods and services. This dramatic revision of the current system, which would eliminate the reviled IRS, has already caught fire

in the American heartland, with more than six hundred thousand taxpayers signing on in support of the plan. As Boortz and Linder reveal in this first book on the FairTax, this radical but eminently sensible plan would end the annual national nightmare of filing income tax returns, while at the same time enlarging the federal tax base by collecting sales tax from every retail consumer in the country. The FairTax, they argue, would transform the fearsome bureaucracy of the IRS into a more transparent, accountable, and equitable tax collection system. Among other benefits, it will: Make America's tax code truly voluntary, without reducing revenue Replace today's indecipherable tax code with one simple sales tax Protect lower-income Americans by covering the tax on basic necessities Eliminate billions of dollars in embedded taxes we don't even know we're paying Bring offshore corporate dollars back into the U.S. economy Endorsed by scores of leading economists and supported by a huge and growing grassroots movement, the FairTax Plan could revolutionize the way America pays for itself. In this straight-talking book, Neal Boortz and John Linder show you how it would work—and how you can help make it happen.

Indonesia Assessment Gavin W. Jones, Terence H. Hull, 1997 Indonesia's population, the fourth largest in the world, is expected to pass the 200 million mark in 1997. It has sustained high rates of economic growth over the past two decades. This has undoubtedly been related to its success in moderating earlier high rates of population growth, and to its significant accomplishments in human resource development. This volume is therefore timely. It presents a comprehensive evaluation of the current situation and assesses future prospects.
