Poor Katriona O'Sullivan, 2023-05-25 The No. 1 Bestseller Biography of the Year, Irish Book Awards 2023 The Last Word Listeners' Choice Award, Irish Book Awards 2023 'One of the best [books] I have read about the complexities of poverty . . . one of the most remarkable people you will ever meet' Guardian Like young girls everywhere Katriona O'Sullivan grew up bright, enthusiastic, curious. But she was also surrounded by abject poverty and chaos, and after she became pregnant and homeless at 15, what followed was five years of barely surviving. Yet today Katriona is an award-winning academic whose work explores barriers to education for girls like her. What set Katriona on this unexpected path were the mentors and supporters who truly saw her. The teachers who showed her how to wash in the school toilets or turned up at her door to convince her to sit at least one GCSE. The community worker who encouraged her to apply for training schemes. The friend who introduced Katriona to Trinity College's access program while she was a cleaner. Simple acts that would help her turn her life around. Told with warmth, clarity and compassion – compassion for her parents, for her younger self, for others – Poor is both an astonishing personal testimony and an impassioned plea for the future of our children. 'Powerful – Katriona is a legend' Barry Keoghan 'Raw, passionate and resolutely honest – I'll never forget it' Annie Mac 'Full of insight . . . so important' Fi Glover, Times Radio 'I read poor in one sitting I found it so compelling . . . moving, uplifting, brave, heroic' Nuala McGovern, Woman's Hour, BBC Radio Four 'Moving, funny, brave and original - just like the author . . . absolutely incredible' Roísín Ingle, Irish Times Women's Podcast 'One of the books of the year' Patrick Kielty, Late Late Show, RTÉ One 'One of the most important books I have ever read ... a beautiful telling of determination despite the odds' Lynn Ruane, Irish Times 'Fearless, funny and searingly honest' Adil Ray OBE 'Raw and remarkable' Irish Independent 'A book of empowerment and hope'

Patricia Scanlan 'Remarkable . . . a vivid retelling of Katriona flourishing, despite her beginnings' BBC News West Midlands

The Ecology of Games Katie Salen Tekinbas, 2007-11-30 An exploration of games as systems in which young people participate as gamers, producers, and learners. In the many studies of games and young people's use of them, little has been written about an overall "ecology" of gaming, game design and play—mapping the ways that all the various elements, from coding to social practices to aesthetics, coexist in the game world. This volume looks at games as systems in which young users participate, as gamers, producers, and learners. The Ecology of Games (edited by Rules of Play author Katie Salen) aims to expand upon and add nuance to the debate over the value of games—which so far has been vociferous but overly polemical and surprisingly shallow. Game play is credited with fostering new forms of social organization and new ways of thinking and interacting; the contributors work to situate this within a dynamic media ecology that has the participatory nature of gaming at its core. They look at the ways in which youth are empowered through their participation in the creation, uptake, and revision of games; emergent gaming literacies, including modding, world-building, and learning how to navigate a complex system; and how games act as points of departure for other forms of knowledge, literacy, and social organization. Contributors Ian Bogost, Anna Everett, James Paul Gee, Mizuko Ito, Barry Joseph, Laurie McCarthy, Jane McGonigal, Cory Ondrejka, Amit Pitaru, Tom Satwicz, Kurt Squire, Reed Stevens, S. Craig Watkins

Reeve of Veils AK Faulkner, 2019-10-15 Truth is a matter of perspective. Frederick d'Arcy is determined to unearth the truth behind his mother's untimely death, but the only witness is a man whose mind Frederick cannot read: his twin brother, Quentin. And Quentin is up to his neck in trouble half a world away. That trouble's name is Kane Wilson. As Wilson works to out psychics and kill anyone who gets in his way, Frederick enters into a deadly game of cat and mouse. He must outwit, outthink, and outmanipulate Wilson without revealing the extent of his own powers, or the vengeance he seeks could be snatched from his grasp. This isn't the Knight of Flames you remember.

Overthrow a Fascist Regime on \$15 a Day Wayne Madsen, 2008-01-01 The highs and lows of the Bush administration from the vantage point of a political dissenter are revealed in this undaunted analysis of American government. Formerly an executive at a Fortune 500 company, Wayne Madsen quit his job and moved to Washington, DC, in 2000 to launch a journalistic, grassroots campaign that sought to cut through media hype and unveil the truth behind

the politics. Selections of his writings are included, covering issues ranging from 9/11 and the Iraq war to the ousting of Bill Frist and Rick Santorum. As Madsen's whistle-blowing became more pronounced, his financial support from sources within the capital dwindled. But as this riveting account shows, some battles can be fought even on a shoestring budget.

Principal Mikey Derek Taylor Kent, 2021-03-31 A hilarious S.T.E.A.M. chapter book for fans of Wimpy Kid and Dork Diaries, this heartwarming story is perfect for any 7-12 year old. Mikey McKenzie is an expert at using the scientific method to solve problems in his neighborhood and school. The only problem he can't solve is that he's just 10-year-old and nobody takes any of his ideas seriously. But everything changes when the kooky Principal Walker appoints him as the new school principal when she gets called away, much to the chagrin of the stern Vice Principal Sherman. It's a dream come true for Mikey to finally have the power to implement all his great ideas to improve

the school. However, when the power goes to his head, the new job strains his relationships with his best friend and his sister he looks up to. On top of that, the district is threatening to close the underperforming school unless they ace the new standardized test. By the end, he'll have to think outside the box to find solutions that will save the school and his most valued relationships. S.T.E.A.M. concepts: problem-solving, scientific method, educational technology, health/medicine, and social-emotional learning.

No Justice, No Police? Matt Clement, 2023-05-26 Sparked by the brutal police murder of George Floyd, the second wave of the #blacklivesmatter protest movement has surged across more than 100 US cities, spilling into Brazil, South Africa, Paris and London - to name a few of the primary sites of active resistance. This is a new movement, international in scope, with a disproportionately large section of young people - black and white - using their own language and tactics to fundamentally challenge the whole range of racist institutions governing today's globalised world. Matt Clement's No Justice, No Police? The Politics of Protest and Social Change chronicles this movement as it continues to deepen and broaden.
