The Dreaming Mind and the End of the Ming World Lynn A. Struve, 2021-05-31 From the mid-sixteenth through the end of the seventeenth century, Chinese intellectuals attended more to dreams and dreaming—and in a wider array of genres—than in any other period of Chinese history. Taking the approach of cultural history, this ambitious yet accessible work aims both to describe the most salient aspects of this “dream arc” and to explain its trajectory in time through the writings, arts, and practices of well-known thinkers, religionists, litterateurs, memoirists, painters, doctors, and political figures of late Ming and early Qing times. The volume’s encompassing thesis asserts that certain associations of dreaming, grounded in the neurophysiology of the human brain at sleep—such as subjectivity, irrationality, the unbidden, lack of control, emotionality, spontaneity, the imaginal, and memory—when especially heightened by historical and cultural developments, are likely to pique interest in dreaming and generate florescences of dream-expression among intellectuals. The work thus makes a contribution to the history of how people have understood human consciousness in various times and cultures. *The Dreaming Mind and the End of the Ming World* is the most substantial work in any language on the historicity of Chinese dream culture. Within Chinese studies, it will appeal to those with backgrounds in literature, religion, philosophy, political history, and the visual arts. It will also be welcomed by readers interested in comparative dream cultures, the history of consciousness, and neurohistory.

Culture, Courtiers, and Competition David M. Robinson, 2020-03-23 This collection of essays reveals the Ming court as an arena of competition and negotiation, where a large cast of actors pursued individual and corporate ends, personal agency shaped protocol and style, and diverse people, goods, and tastes converged. Rather than observing an immutable set of traditions, court culture underwent frequent reinterpretation and rearticulation, processes driven by immediate personal imperatives, mediated through social, political, and cultural interaction. The essays address several common themes. First, they rethink previous notions of imperial isolation, instead stressing the court’s myriad ties both to local Beijing society and to the empire as a whole. Second, the court was far from monolithic or static. Palace women, monks, craftsmen, educators, moralists, warriors, eunuchs, foreign envoys, and others strove to advance their interests and forge advantageous relations with the emperor and one another. Finally, these case studies illustrate the importance of individual agency. The founder’s legacy may have formed the warp of court practices and tastes, but the weft varied considerably. Reflecting the complexity of the court, the essays represent a variety of perspectives and disciplines—from intellectual, cultural, military, and political to art history and musicology.

The Confusions of Pleasure Timothy Brook, 1998-05-18 The Ming dynasty was the last great Chinese dynasty before the Manchu conquest in 1644. During that time, China, not Europe, was the center of the world: the European voyages of exploration were searching not just for new lands but also for new trade routes to the Far East. In this book, Timothy Brook eloquently narrates the changing landscape of life over the three centuries of the Ming (1368-1644), when China was transformed from a closely administered agrarian realm into a place of commercial

profits and intense competition for status. The Confusions of Pleasure marks a significant departure from the conventional ways in which Chinese history has been written. Rather than recounting the Ming dynasty in a series of political events and philosophical achievements, it narrates this longue durée in terms of the habits and strains of everyday life. Peppered with stories of real people and their negotiations of a rapidly changing world, this book provides a new way of seeing the Ming dynasty that not only contributes to the scholarly understanding of the period but also provides an entertaining and accessible introduction to Chinese history for anyone.

Ming Goes to School Deirdre Sullivan,2016-07-05 Ming goes to school, where she learns to say hello and good-bye. She meets new friends and introduces them to old friends (including her favorite teddy). She builds sandcastles and makes snow angels; she traces, glitters, and glues. She is so fearless that when held at sword point, she even walks the plank! And when she's playing in the mud, she reaches out and touches the worms with her bare hands. But despite those brave deeds, she isn't quite ready for the big red slide—not yet. This is a very sweet story with soft, evocative watercolor illustrations that will help kids to grow comfortable with the idea of starting preschool. Ming is curious and playful and ready for adventure, but even she gets scared of new things sometimes. Kids will relate to her desires and fears and will be excited to see Ming at the top of the slide by the story's end. A quiet and reassuring picture book for preschoolers (3-5), this is a wonderful going-to-school story that can be read both at home and in the classroom or childcare center. The illustrations provide a lot of diversity of characters, making this feel like any classroom in any school in the country.

The Song-Yuan-Ming Transition in Chinese History Paul Jakov Smith,Richard von Glahn,2020-03-23 This volume seeks to study the connections between two well-studied epochs in Chinese history: the mid-imperial era of the Tang and Song (ca. 800-1270) and the late imperial era of the late Ming and Qing (1550-1900). Both eras are seen as periods of explosive change, particularly in economic activity, characterized by the emergence of new forms of social organization and a dramatic expansion in knowledge and culture. The task of establishing links between these two periods has been impeded by a lack of knowledge of the intervening Mongol Yuan dynasty (1271-1368). This historiographical black hole has artificially interrupted the narrative of Chinese history and bifurcated it into two distinct epochs. This book aims to restore continuity to that historical narrative by filling the gap between mid-imperial and late imperial China. The contributors argue that the Song-Yuan-Ming transition (early twelfth through the late fifteenth century) constitutes a distinct historical period of transition and not one of interruption and devolution. They trace this transition by investigating such subjects as contemporary impressions of the period, the role of the Mongols in intellectual life, the economy of Jiangnan, urban growth, neo-Confucianism and local society, commercial publishing, comic drama, and medical learning.

Dynastic Crisis and Cultural Innovation David Der-wei Wang,Shang Wei,2020-05-11 This volume addresses cultural and literary transformation in the late Ming (1550–1644) and late Qing (1851–1911) eras. Although conventionally

associated with a devastating sociopolitical crisis, each of these periods was also a time when Chinese culture was rejuvenated. Focusing on the twin themes of crisis and innovation, the seventeen chapters in this book aim to illuminate the late Ming and late Qing as eras of literary-cultural innovation during periods of imperial disintegration; to analyze linkages between the two periods and the radical heritage they bequeathed to the modern imagination; and to rethink the “premodernity” of the late Ming and late Qing in the context of the end of the age of modernism. The chapters touch on a remarkably wide spectrum of works, some never before discussed in English, such as poetry, drama, full-length novels, short stories, tanci narratives, newspaper articles, miscellanies, sketches, familiar essays, and public and private historical accounts. More important, they intersect on issues ranging from testimony about dynastic decline to the negotiation of authorial subjectivity, from the introduction of cultural technology to the renewal of literary convention.

The Great Ming Code / Da Ming lu, 2012-09-01 Imperial China’s dynastic legal codes provide a wealth of information for historians, social scientists, and scholars of comparative law and of literary, cultural, and legal history. Until now, only the Tang (618–907 C.E.) and Qing (1644–1911 C.E.) codes have been available in English translation. The present book is the first English translation of The Great Ming Code (Da Ming lu), which reached its final form in 1397. The translation is preceded by an introductory essay that places the Code in historical context, explores its codification process, and examines its structure and contents. A glossary of Chinese terms is also provided. One of the most important law codes in Chinese history, The Great Ming Code represents a break with the past, following the alien-ruled Yuan (Mongol) dynasty, and the flourishing of culture under the Ming, the last great Han-ruled dynasty. It was also a model for the Qing code, which followed it, and is a fundamental source for understanding Chinese society and culture. The Code regulated all the perceived major aspects of social affairs, aiming at the harmony of political, economic, military, familial, ritual, international, and legal relations in the empire and cosmic relations in the universe. The all-encompassing nature of the Code makes it an encyclopedic document, providing rich materials on Ming history. Because of the pervasiveness of legal proceedings in the culture generally, the Code has relevance far beyond the specialized realm of Chinese legal studies. The basic value system and social norms that the Code imposed became so thoroughly ingrained in Chinese society that the Manchus, who conquered China and established the Qing dynasty, chose to continue the Code in force with only minor changes. The Code made a considerable impact on the legal cultures of other East Asian countries: Yi dynasty Korea, Le dynasty Vietnam, and late Tokugawa and early Meiji Japan. Examining why and how some rules in the Code were adopted and others rejected in these countries will certainly enhance our understanding of the shared culture and indigenous identities in East Asia.

Printing and Book Culture in Late Imperial China Cynthia J. Brokaw, Kai-Wing Chow, 2005-03-07 Despite the importance of books and the written word in Chinese society, the history of the book in China is a topic that has been little explored. This pioneering volume of essays, written by historians, art historians, and literary scholars, introduces the major issues in the social and cultural history of the book in late imperial China.

Informed by many insights from the rich literature on the history of the Western book, these essays investigate the relationship between the manuscript and print culture; the emergence of urban and rural publishing centers; the expanding audience for books; the development of niche markets and specialized publishing of fiction, drama, non-Han texts, and genealogies; and more.

The Ming World Kenneth M Swope,2019-08-08 The Ming World draws together scholars from all over the world to bring China's Ming Dynasty (1368-1662) to life, exploring recent scholarly trends and academic debates that highlight the dynamism of the Ming and its key place in the early modern world. The book is designed to replicate the structure of popular Ming-era unofficial histories that gathered information and gossip from a wide variety of fields and disciplines. Engaging with a broad array of primary and secondary sources, the authors build upon earlier scholarship while extending the field to embrace new theories, methodologies, and interpretive frameworks. It is divided into five thematically linked sections: Institutions, Ideas, Identities, Individuals, and Interactions. Unique in its breadth and scope, The Ming World is essential reading for scholars and postgraduates of early modern China, the history of East Asia and anyone interested in gaining a broader picture of the colorful Ming world and its inhabitants.

Trauma and Transcendence in Early Qing Literature Wilt L. Idema,Wai-yee Li,Ellen Widmer,2020-03-17 The collapse of the Ming dynasty and the Manchu conquest of China were traumatic experiences for Chinese intellectuals, not only because of the many decades of destructive warfare but also because of the adjustments necessary to life under a foreign regime. History became a defining subject in their writings, and it went on shaping literary production in succeeding generations as the Ming continued to be remembered, re-imagined, and refigured on new terms. The twelve chapters in this volume and the introductory essays on early Qing poetry, prose, and drama understand the writings of this era wholly or in part as attempts to recover from or transcend the trauma of the transition years. By the end of the seventeenth century, the sense of trauma had diminished, and a mood of accommodation had taken hold. Varying shades of lament or reconciliation, critical or nostalgic retrospection on the Ming, and rejection or acceptance of the new order distinguish the many voices in these writings.

Ming Lo Moves the Mountain Arnold Lobel,1993-08-26 A wise man tells Ming Lo how to move the mountain away from his house.

Entangled Itineraries Pamela H. Smith,2019-04-16 Trade flowed across Eurasia, around the Indian Ocean, and over the Mediterranean for millennia, but in the early modern period, larger parts of the globe became connected

through these established trade routes. Knowledge, embodied in various people, materials, texts, objects, and practices, also moved and came together along these routes in hubs of exchange where different social and cultural groups intersected and interacted. *Entangled Itineraries* traces this movement of knowledge across the Eurasian continent from the early years of the Common Era to the nineteenth century, following local goods, techniques, tools, and writings as they traveled and transformed into new material and intellectual objects and ways of knowing. Focusing on nonlinear trajectories of knowledge in motion, this volume follows itineraries that weaved in and out of busy, crowded cosmopolitan cities in China; in the trade hubs of Kucha and Malacca; and in centers of Arabic scholarship, such as Rey and Baghdad, which resonated in Bursa, Assam, and even as far as southern France. Contributors explore the many ways in which materials, practices, and knowledge systems were transformed and codified as they converged, swelled, at times disappeared, and often reemerged anew.
