Teaching for Diversity and Social Justice Maurianne Adams, Lee Anne Bell, Pat Griffin, 2007-05-11

For nearly a decade, *Teaching for Diversity and Social Justice* has been the definitive sourcebook of theoretical foundations and curricular frameworks for social justice teaching practice. This thoroughly revised second edition continues to provide teachers and facilitators with an accessible pedagogical approach to issues of oppression in classrooms. Building on the groundswell of interest in social justice education, the second edition offers coverage of current issues and controversies while preserving the hands-on format and inclusive content of the original. *Teaching for Diversity and Social Justice* presents a well-constructed foundation for engaging the complex and often daunting problems of discrimination and inequality in American society. This book includes a CD-ROM with extensive appendices for participant handouts and facilitator preparation.

Modern Romance Aziz Ansari,Eric Klinenberg,2016-06-14 The #1 New York Times Bestseller

“An engaging look at the often head-scratching, frequently infuriating mating behaviors that shape our love lives.” —Refinery 29 A hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from Aziz Ansari, the star of Master of None and one of this generation’s sharpest comedic voices At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it’s wildly different from what people did even just decades ago. Single people today have more romantic options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. “Why did this guy just text me an emoji of a pizza?” “Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos?!” “My girlfriend just got a message from some dude named Nathan. Who’s Nathan? Did he just send her a photo of his penis? Should I check just to be sure?” But the transformation of our romantic lives can’t be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get married and soon have a kid, all by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for *Modern Romance*, the book, he decided he needed to take things

to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project, including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world's leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we've seen before. In *Modern Romance*, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world.

British Spy Fiction and the End of Empire Sam Goodman, 2015-06-05 The position of spy fiction is largely synonymous in popular culture with ideas of patriotism and national security, with the spy himself indicative of the defence of British interests and the preservation of British power around the globe. This book reveals a more complicated side to these assumptions than typically perceived, arguing that the representation of space and power within spy fiction is more complex than commonly assumed. Instead of the British spy tirelessly maintaining the integrity of Empire, this volume illustrates how spy fiction contains disunities and disjunctions in its representation of space, and the relationship between the individual and the state in an era of declining British power. Focusing primarily on the work of Graham Greene, Ian Fleming, Len Deighton, and John le Carre, the volume brings a fresh methodological approach to the study of spy fiction and Cold War culture. It presents close textual analysis within a framework of spatial and sovereign theory as a means of examining the cultural impact of decolonization and the shifting geopolitics of the Cold War. Adopting a thematic approach to the analysis of space in spy fiction, the text explores the reciprocal process by which contextual history intersects with literature throughout the period in question,

arguing that spy fiction is responsible for reflecting, strengthening and, in some cases, precipitating cultural anxieties over decolonization and the end of Empire. This study promises to be a welcome addition to the developing field of spy fiction criticism and popular culture studies. Both engaging and original in its approach, it will be important reading for students and academics engaged in the study of Cold War culture, popular literature, and the changing state of British identity over the course of the latter twentieth century.

Love My Children Rose Butler Browne, James W. English, 1969 Rose Butler Browne (1897-1986), was an eminent African American educator, engineer, and author. Daughter of Xanadu Dori Jones Yang, 2012-01-10 Athletic and strong willed, Princess

Emmajin's determined to do what no woman has done before: become a warrior in the army of her grandfather, the Great Khan Khubilai. In the Mongol world the only way to achieve respect is to show bravery and win glory on the battlefield. The last thing she wants is the distraction of the foreigner Marco Polo, who challenges her beliefs in the gardens of Xanadu. Marco has no skills in the manly arts of the Mongols: horse racing, archery, and wrestling. Still, he charms the Khan with his wit and story-telling. Emmajin sees a different Marco as they travel across 13th-century China, hunting 'dragons' and fighting elephant-back warriors. Now she faces a different battle as she struggles with her attraction towards Marco and her incredible goal of winning fame as a soldier.

Teaching and Social Justice Carolyn Zerbe Enns, Ada L. Sinacore, 2005-01 The purpose of this book is to provide a rationale, theoretical foundations, and general guidelines for implementing multicultural feminist theories and pedagogies in psychology and related disciplines. The major goals are to summarize varied theoretical perspectives on social justice education, suggest general guidelines for integrating theories of pedagogy, and discuss the challenges and rewards of teaching from multicultural and feminist frameworks. The editors use the phrase social justice in the title of this book to highlight the importance of infusing scholarship and practice relevant to diversity in both the process and the content of education. More specifically, social justice in education includes (a) centralizing and affirming the perspectives of those whose experiences have been marginalized or ignored, (b) transforming the manner in which education occurs such that power differences are minimized and the empowerment of learners and educators is optimized, (c) working toward the full and equal participation of all learners, and (d) rethinking the institutional structures in which learning occurs. The book also summarizes how various frameworks construe issues of diversity, identifies the contributions of each, and discusses common as well as divergent implications and

strategies. The first objective, then, is to provide readers with tools for creating multicultural feminist pedagogies. A second goal is to help psychologists and educators integrate theory and practice. A third goal of this book is to bring the literature of pedagogy, particularly pedagogy about diversity, to psychology. Overall, the volume is divided into two sections that address both theoretical and application aspects of multicultural and feminist pedagogies--Preface. Education and Social Justice J. Zajda, S. Majhanovich, V. Rust, E. Martín Sabina, 2006-09-09 This book explores the problematic relationship between education, social justice and the State, against the background of comparative education research. The book critiques the status quo of stratified school systems, and the unequal distribution of cultural capital and value added schooling. The authors address one of today's most pressing questions: Are social, economic and cultural divisions between the nations, between school sectors, between schools and between students growing or declining?

Moral Value and Human Diversity Robert Audi, 2008 Robert Audi looks at four previous major

attempts to codify ethical behaviour: the virtue ethics of Aristotle, the rule-based ethics of Kant; J.S. Mill's utilitarianism; and the movement known as 'common-sense' ethics associated with W.D. Ross.

Social Justice, Education and Identity Carol Vincent, 2003-12-16 This collection will give readers interested in questions of social justice and education access to the work of some of the key contributors to the debate in the UK.

Social Justice In A Diverse Society Tom Tyler, Robert J Boeckmann, Heather J Smith, Yuen J Huo, 2019-07-11 Issues of social justice have been an important part of social psychology since the explosion of psychological research that occurred during and after World War II. At that time, psychologists began to move away from earlier theories that paid little attention to people's subjective understanding of the world. As increasing attention was paid to people's thoughts about their social experiences, it was discovered that people are strongly affected by their assessments of what is just or fair in their dealings with others. This recognition has led to a broad range of studies exploring what people mean by justice and how it influences their thoughts, feelings, and behaviors.

Still Doing It Deirdre Fishel, Diana Holtzberg, 2008 Explores the lives of sensual and outspoken women from all walks of life who are still experiencing vibrant sex lives in their senior years, in a series of human profiles featuring women who defy conventions and make sex an essential part of their well-being. 17,500 first printing.

Language Rights Tove Skutnabb-Kangas, Robert Phillipson, 2016-10-12 Research on Language Rights has produced an enormous-and unwieldy-corpus of literature. Moreover, such work is often controversial and contested, in part because of the need for scholars from different disciplinary traditions to coordinate their concerns and integrate conflicting paradigms. Now, to enable researchers and advanced students to make sense of this vast literature, and the competing

scholarly approaches, Routledge announces Language Rights, a new title in its Critical Concepts in Language Studies series. In four volumes, the set draws on a wide range of disciplines, including Sociolinguistics, Law, Anthropology, Education, Sociology, Political Science, and Economics. The learned editors have assembled both normative texts and studies of their practical applications, as well as more diverse interventions and interpretations. Volume I presents some of the basic concepts in language rights and traces developments from treaties and national constitutions to human-rights principles, and conditions for the maintenance of languages. Volume II, meanwhile, explores the tensions between homogenizing nation states and the status of indigenous and minority languages in education. The third volume in the collection brings together the best thinking on recent developments in language and cultural revitalization through community mobilization around language rights, especially in education, the preconditions for their success, their relationship to land rights and self-determination, and state responses to demands for language rights. Finally, Volume IV assesses ongoing trends of regional and global integration and questions the prospects for the world's languages in the light of economic and cultural constraints.

form to generate critique and collective action. Together, these projects demonstrate the contemporary power of stories to stimulate engagement, active citizenship, the pride of identity, and the humility of human connectedness.
