The Conventions on the Privileges and Immunities of the United Nations and Its Specialized Agencies August Reinisch,2016 The Convention on the Privileges and Immunities of the United Nations and the Convention on the Privileges and Immunities of the Specialized Agencies entered into force more than 60 years ago. This Commentary offers for the first time a comprehensive discussion covering both Conventions in their entirety, providing an overview of academic writings and jurisprudence for a legal field of particular practical relevance and gives both the academic researcher as well as the practitioner a unique source to understand the complexity of legal issues that the UN, its Specialized Agencies, their officials, Member States' representatives, and experts face in today's world.

They did not stop at Eboli Karin Priem,Giovanna Hendel,Carole Naggar,2020-02-10 The analysis

of UNESCO's audio-visual archives for their digitization has brought to light a forgotten album of 38 contact sheets and accompanying texts by Magnum photographer, David "Chim" Seymour – a reportage made in 1950 for UNESCO on the fight against illiteracy in Italy's southern region of Calabria. A number of his photographs appeared in the March 1952 issue of UNESCO Courier in an article written by Carlo Levi, who had gained worldwide fame with his novel Christ Stopped at Eboli (1945). L'analyse des archives audio-visuelles de l'UNESCO en vue de leur numérisation a permis de découvrir un album oublié comprenant 38 planches-contact et des textes d'accompagnement du photographe de Magnum David « Chim » Seymour – un reportage réalisé en 1950 pour l'UNESCO sur la bataille contre l'analphabétisme en Calabre, une région du sud de l'Italie. Un certain nombre de ses photographies ont été publiées dans le numéro de mars 1952 du Courrier de l'UNESCO avec un article de Carlo Levi, dont le roman Le Christ s'est arrêté à Eboli (1945) lui avait valu une renommée internationale

Model Rules of Professional Conduct American Bar Association. House of Delegates, Center for Professional Responsibility (American Bar Association), 2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Georgia International Monetary Fund. Middle East and Central Asia Dept.,2017-04-13 This paper discusses Georgia's Request for Extended Arrangement under the Extended Fund Facility and Cancellation of Stand-by Arrangement (SBA). The authorities in Georgia have formulated a comprehensive program to preserve macro and financial stability and advance structural reforms to bolster growth. The program envisions fiscal consolidation over the medium term, anchored in keeping debt at its current level while shifting spending toward capital investment to address infrastructure bottlenecks. The IMF staff supports the authorities' request for the approval of the three-year Extended

Arrangement under the Extended Fund Facility and the cancellation of the SBA arrangement.

The Politics of Expertise in International Organizations Annabelle Littoz-Monnet, 2017-02-24 This edited volume advances existing research on the production and use of expert knowledge by international bureaucracies. Given the complexity, technicality and apparent apolitical character of the issues dealt with in global governance arenas, 'evidence-based' policy-making has imposed itself as the best way to evaluate the risks and consequences of political action in global arenas. In the absence of alternative, democratic modes of legitimation, international organizations have adopted this approach to policy-making. By treating international bureaucracies as strategic actors, this volume address novel questions: why and how do international bureaucrats deploy knowledge in policy-making? Where does the knowledge they use come from, and how can we retrace pathways between the origins of certain ideas and their adoption by international administrations? What kind of evidence do international bureaucrats resort to, and with what implications? Which types of knowledge are seen as authoritative, and why? This volume makes a crucial contribution to our understanding of the way

global policy agendas are shaped and propagated. It will be of great interest to scholars, policy-makers and practitioners in the fields of public policy, international relations, global governance and international organizations.

Review of Fund Work on Trade International Monetary Fund. Policy Development and Review Dept., International Monetary Fund. Strategy, Policy, & Review Department, 2005-07-02 The Fund has responded to a number of recent challenges facing its members by stepping up its work on trade. The Fund's trade agenda has been shaped by both Executive Board guidance and demands on missions. The present report assesses the Fund's priorities in the trade area, takes stock of its work, and reviews the Fund's collaboration and division of labor with other institutions.

Transnational Expertise Andrea Schneiker, Christian Henrich-Franke, Robert Kaiser, Christian Lahusen, 2018-05-02 Der Sammelband widmet sich der Analyse transnationaler Expertise - eines Themas, das in jüngerer Zeit beträchtliche Aufmerksamkeit in der Sozial- und Geschichtswissenschaft auf sich gezogen hat. Ihren Ausdruck fand die Forschung in der Entwicklung von Konzepten über

transnationale Expertennetzwerke, Epistemische Gemeinschaften oder Gemeinschaften von Praktikern. Dennoch mangelt es bislang weiterhin an systematischem Wissen über die Funktionsweise transnationaler Expertengruppen und die Wechselbeziehungen, die es zwischen ihnen und Akteuren und Organisationen der transnationalen Politik gibt. Vor dem Hintergrund, dass transnationale Expertise bereits seit geraumer Zeit eine wichtige Rolle in der öffentlichen Politik spielt, nimmt dieser Band eine interdisziplinäre Perspektive ein und präsentiert Beiträge aus der Politikwissenschaft, der Soziologie und der Geschichtswissenschaft. Mit Beiträgen von Ingvild Bode, Christian Henrich-Franke, Robert Kaiser, Christian Lahusen, Alexander Reinfeld, Lukas Schemper, Andrea Schneiker und Carola Maria Westermeier.
