Preventing and Removing Mildew: Home Methods (Classic Reprint) United States Department Of Agriculture,2018-10-02 Excerpt from Preventing and Removing Mildew: Home Methods As molds grow they cause considerable damage. They discolor fabrics and leather leave a musty odor. They decay wood. Some times molds so severely 'eat' into cloth that it rots and falls to pieces. By preventing mildew, valuable clothing and household goods can be preserved for longer use. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Mold Removal Doug Lynch,2018-05-25 Mold is one of the most dangerous and possibly toxic allergens that can affect your home. It is often caused by a rise in relative humidity levels giving mold exactly what it needs to grow in your home. Author Doug Lynch is the owner of A1 Mold Solutions in Scotch Plains, New Jersey. Doug is a Certified Mold Inspector, Certified Mold Remediation Specialist, and a member in the Indoor Air Quality Association.

Joey Green's Cleaning Magic Joey Green,2010-07-06 From the guru of discovering extraordinary uses for brand-name products come brand-new ways to make cleaning, organizing, and decluttering quick, easy, and a lot more fun The public is endlessly fascinated by quirky and offbeat uses for their favorite products and, this time around, Joey Green tackles household chores with his pantry full of cleaning power. Green's easy and effortless tips and tricks show how to scrub, deodorize, shine, and remove stains with products already in the house. While Green's suggestions may sound implausible, they are, in fact, highly effective. Most products on the market today are a complex mix of lubricants, abrasives, and cleansers, giving these brand-name products plenty of power to clean, dissolve, and fix in the most unexpected ways. Joey Green's Cleaning Magic offers clever ways to make household items do double duty, like using a slice of Wonder Bread to clean up tiny shards of glass from a kitchen floor—just pat it flat against the floor and toss it away—and wiping away the gunk from the bottom of an iron with Purell. This practical, useful, funny,

and entertaining volume includes thousands of incredibly simple ways to clean up every room (and dusty corner) in the house.

Organic Housekeeping Ellen Sandbeck, 2007-11-01 Longing for a kinder, gentler world? As the old saying goes, everything begins at home, and odds are, if you live in the all-American household, the air inside is more toxic than the air outside, even if you live in the most polluted of cities. You regularly handle the filthiest object in your home -- the kitchen sponge -- and put the same chemicals on your face that are used in brake fluid and antifreeze. The cleaning agents and personal care products commonly marketed to and used in American homes contain not only some very dangerous, toxic chemicals, but they also create an overly clean, chemically bombed-out house that compromises immune systems. And with more than fifty million Americans suffering from allergies and other autoimmune diseases -- not to mention the developing and fragile immune systems of children and seniors -- large numbers of people are actually being made sicker and sicker by their homes. Learn to live a clean, healthy, more economical way with Ellen Sandbeck, the nontoxic avenger. In this must-have book for the twenty-first-century home, this passionate, witty advocate of all things organic will teach you how to maintain every part of the home -- from living room to septic tank, kitchen floor to bathroom sink -- using safe, simple cleansers and quick preventative measures as well as the most effective organic products on the market to get the job done. Learn time-saving, preventative housekeeping, such as taking thirty seconds to clean the shower while you shower. Take care of bathroom stains with baking soda and vinegar rather than commercial, toxic bathroom bombs peddled to you with such force by manufacturers. Need whiter whites? There is no

bleaching power on earth stronger than the sun. Snow clean your fine rugs. Choose fruits and vegetables from the relatively pesticide residue-free list. Clean felt-tipped pen stains with vodka. Make furniture shine with olive oil and lemon. Your house will also smell as great as it looks.
