Simplified Signs John D.. Bonvillian,Nicole Kissane Lee,Tracy T. Dooley,Filip Loncke,Valerie Nelson-Metlay,2021 Simplified Signs presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages. It is the culmination of over twenty years of research and development by the authors. The Simplified Sign System has been developed and tested for ease of sign comprehension, memorization, and formation by limiting the complexity of the motor skills required to form each sign, and by ensuring that each sign visually resembles the meaning it conveys. Volume 1 outlines the research underpinning and informing the project, and places the Simplified Sign System in a wider context of sign usage, historically and by different populations. Volume 2 presents the lexicon of signs, totaling approximately 1000 signs, each with a clear illustration and a written description of how the sign is formed, as well as a memory aid that connects the sign visually to the meaning that it conveys. While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities, cerebral palsy, autism, or aphasia, it may also assist the communication needs of a wider audience - such as healthcare professionals, aid workers, military personnel, travellers or parents, and children who have not yet mastered spoken language. The system also has been shown to enhance learning for individuals studying a foreign language. Lucid and comprehensive, this work constitutes a valuable resource that will enhance the communicative interactions of many different people, and will be of great interest to researchers and educators alike. As with all Open Book publications, this entire book is available to read for free on the publisher's website. *Lawn Boy* Gary Paulsen,2009-03-24 One day I was 12 years old and broke. Then Grandma gave me Grandpa's old riding lawnmower. I set out to mow some lawns. More people wanted me to mow their lawns. And more and more. . . . One client was Arnold the stockbroker, who offered to teach me about the beauty of capitalism. Supply and Demand. Diversify labor. Distribute the wealth. Wealth? I said. It's groovy, man, said Arnold. If I'd known what was coming, I might have climbed on my mower and putted all the way home to hide in my room. But the lawn business grew and grew. So did my profits, which Arnold invested in many things. And one of them was Joey Pow the prizefighter. That's when my 12th summer got really interesting.

**The Lemonade War** Jacqueline Davies,2009 Evan Treski, who is people-smart, and his younger sister Jesse, who is math-smart, battle it out through competing lemonade stands, each trying to be the first to earn one hundred dollars. Reprint.

*The First National Bank of Dad* David Owen,2007-04-24 Most parents do more harm than good when they try to teach their children about money. They make saving seem like a punishment, and force their children to view reckless spending as their only rational choice. To most kids, a savings account is just a black hole that swallows birthday checks. David Owen, a New Yorker staff writer and the father of two children, has devised a revolutionary new way to teach kids about money. In *The First National Bank of Dad*, he explains how he helped his own son and daughter become eager savers and rational spenders. He started by setting up a bank of his own at home and offering his young children an attractively high rate of return on any amount they chose to save. If you hang on to some of your wealth instead of spending it immediately, he told them, in a little while, you'll be able to double or even triple your allowance. A few years later, he started his own stock market and money-market fund for them. Most children already have a pretty good idea of how money works, Owen believes; that's why they are seldom interested in punitive savings schemes mandated by their parents. The first step in making children financially responsible, he writes, is to take advantage of human nature rather than ignoring it or futilely trying to change it. My children are often quite irresponsible with my money, and why shouldn't they be? he writes. But they are extremely careful with their own. *The First National Bank of Dad* also explains how to give children real experience with all kinds of investments, how to foster their charitable instincts, how to make them more helpful around the house, how to set their allowances, and how to help them acquire a sense of value that goes far beyond money. He also describes at length what he feels is the best investment any parent can make for a child -- an idea that will surprise most readers.
