Portrait of a Jew Albert Memmi, 2019-08-15 In this memoir and extended meditation on Jewish identity and anti-Semitic stereotypes written in France in the early 1960s, Albert Memmi paints a portrait of himself as a secular Jew. The book has been compared to Rousseau's *Confessions* because of its meticulous self-examination. Written only 15 years after the end of the Nazi occupation and just over a decade after the establishment of the State of Israel, *Portrait of a Jew* is a snapshot in time as well as a work of psychology and sociology. It both questions prevailing myths about the Jews of his time and describes the reality Memmi sees. Its sequel is *The Liberation of the Jew*. *Portrait of a Jew* and *The Liberation of the Jew* "form a whole: the beginning and the outcome of a passionate quest. The first offers a diagnosis, the second a remedy. [...] Both are written with moving sincerity [...] As a personal document, Memmi's introspective study is valuable. Thought-provoking and disturbing in the best sense of the word, it allows us to look into the tormented mind and soul of a distinguished Jewish writer who aspires to live honestly while belonging simultaneously to two worlds. His doubts and affirmations carry the weight of testimony." — Elie Wiesel, *The New York Times* "*Portrait of a Jew* and *The Liberation of the Jew* [are] filled with a Jewish existentialism marked by quest for identity and self-affirmation far more psychological and sociological than traditionally religious." — Richard Locke, *The New York Times* "A bitter, plangent autobiography written in dark colors and minor chords. It is purgative and painful reading, for it angers, outrages, and reduces the reader to lonely verbal combats. But when the din and dust has died away, the questions and statements are still there asserting themselves." — Henrietta Buckmaster, *The Christian Science Monitor*

The Nature of Reinforcement University of Pittsburgh. Learning Research and Development Center, 1971
