Monkey Beach Eden Robinson,2014-08-26 A young Native American woman remembers her volatile childhood as she searches for her lost brother in the Canadian wilds in an extraordinary, critically acclaimed debut novel As she races along Canada's Douglas Channel in her speedboat—heading toward the place where her younger brother Jimmy, presumed drowned, was last seen—twenty-year-old Lisamarie Hill recalls her younger days. A volatile and precocious Native girl growing up in Kitamaat, the Haisla Indian reservation located five hundred miles north of Vancouver, Lisa came of age standing with her feet firmly planted in two different worlds: the spiritual realm of the Haisla and the sobering “real” world with its dangerous temptations of violence, drugs, and despair. From her beloved grandmother, Ma-ma-oo, she learned of tradition and magic; from her adored, Elvis-loving uncle Mick, a Native rights activist on a perilous course, she learned to see clearly, to speak her mind, and never to bow down. But the tragedies that have scarred her life and ultimately led her to these frigid waters cannot destroy her indomitable spirit, even though the ghosts that speak to her in the night warn her that the worst may be yet to come. Easily one of the most admired debut novels to appear in many a decade, Eden Robinson's *Monkey Beach* was immediately greeted with universal acclaim—called “gripping” by the San Diego Union-Tribune, “wonderful” by the Milwaukee Journal Sentinel, and “glorious” by the Globe and Mail, earning nominations for numerous literary awards before receiving the Ethel Wilson Fiction Prize. Evocative, moving, haunting, and devastatingly funny, it is an extraordinary read from a brilliant literary voice that must be heard.

**Tears in the Darkness** Michael Norman,Elizabeth M. Norman,2009-06-09 This major new work about World War II exposes the myths of military heroism as shallow and inadequate. *Tears in the Darkness* makes clear, with great literary and human power, that war causes suffering for people on all sides.

**Truevine** Beth Macy,2016-10-18 NATIONAL BESTSELLER The true story of two African-American brothers who were kidnapped and displayed as circus freaks, and whose mother endured a 28-year struggle to get them back. The year was 1899 and the place a sweltering tobacco farm in the Jim Crow South town of Truevine, Virginia. George and Willie Muse were two little boys born to a sharecropper family. One day a white man offered them a piece of candy, setting off events that would take them around the world and change their lives forever. Captured into the circus, the Muse brothers performed for royalty at Buckingham Palace and headlined over a dozen sold-out shows at New York's Madison Square Garden. They were global superstars in a pre-broadcast era. But the very root of their success was in the color of their skin and in the outrageous caricatures they were forced to assume: supposed cannibals, sheep-headed freaks, even Ambassadors from Mars. Back home, their mother never accepted that they were gone and spent 28 years trying to get them back. Through hundreds of interviews and decades of research, Beth Macy expertly explores a central and difficult question: Where were the brothers better off? On the world stage as stars or in poverty at home? TRUEVINE is a compelling

narrative rich in historical detail and rife with implications to race relations today.

**In the Beginning** Michael Lienesch, 2007-04-23 The current controversy over teaching evolution in the public schools has grabbed front-page headlines and topped news broadcasts all across the United States. In the Beginning investigates the movement that has ignited debate in state legislatures and at school board meetings. Reaching back to the origins of antievolutionism in the 1920s, and continuing to the promotion of intelligent design today, Michael Lienesch skillfully analyzes one of the most formidable political movements of the twentieth century. Applying extensive original sources and social movement theory, Lienesch begins with fundamentalism, describing how early twentieth-century fundamentalists worked to form a collective identity, to develop their own institutions, and to turn evolution from an idea into an issue. He traces the emerging antievolution movement through the 1920s, examining debates over Darwinism that took place on college campuses and in state legislatures throughout the country. With fresh insights and analysis, Lienesch retells the story of the 1925 Scopes monkey trial and reinterprets its meaning. In tracking the movement from that time to today, he explores the rise of creation science in the 1960s, the alliance with the New Christian Right in the 1980s, and the development of the theory of intelligent design in our own time. He concludes by speculating on its place in the politics of the twenty-first century. In the Beginning is essential for understanding the past, present, and future debates over the teaching of evolution.

**On the Viking Trail** Don Lago, 2004-04 When his father developed Alzheimer's disease, Don Lago realized that the stories and traditions of his Swedish ancestors would be lost along with the rest of his father's memories. Haunted by this inevitable tragedy, Lago set out to fight back against forgetting by researching and reclaiming his long-lost Scandinavian roots. Beginning his quest with a visit to his ancestral home of Gränna, Sweden, Lago explores all facets of Scandinavian America—Swedish, Danish, Finnish, Norwegian, and Icelandic—along the way. He encounters Icelanders living in the Utah desert, a Titanic victim buried beneath a gigantic Swedish coffee pot in Iowa, an Arkansas town named after the famous Swedish opera singer Jenny Lind, a real-life Legoland in southern California, and other unique remnants of America's Scandinavian past. Visits to Sigurd Olson's legendary cabin on the banks of Burntside Lake in the Boundary Waters of Minnesota and Carl Sandburg's birthplace in Galesburg, Illinois, further provide Lago with an acute sense of the Scandinavian values that so greatly influenced, and continue to influence, American society. More than just a travel memoir, On the Viking Trail places Scandinavian immigrants and their history within the wider sweep of American culture. Lago's perceptive eye and amusing tales remind readers of all ethnic backgrounds that to truly appreciate America one must never forget its immigrant past.

**Images of Colonialism and Decolonisation in the Italian Media** Paolo Bertella Farnetti, Cecilia Dau Novelli, 2017-11-06 The twentieth century saw a proliferation of media discourses on colonialism and, later, decolonisation. Newspapers, periodicals, films, radio and TV broadcasts contributed to the construction of the image of the African "Other" across the colonial world. In recent years, a growing body of literature has

explored the role of these media in many colonial societies. As regards the Italian context, however, although several works have been published about the links between colonial culture and national identity, none have addressed the specific role of the media and their impact on collective memory (or lack thereof). This book fills that gap, providing a review of images and themes that have surfaced and resurfaced over time. The volume is divided into two sections, each organised around an underlying theme: while the first deals with visual memory and images from the cinema, radio, television and new media, the second addresses the role of the printed press, graphic novels and comics, photography and trading cards.

**Vaults of Madness** Greg A. Vaughan, 2011-02-08 In their lightless sanctuary, an army of serpentfolk gathers to bring the world above to its knees. The skull of the dead god Ydersius has fallen into the hands of his worshipers once more, and fanged fanatics now commence the rites to resurrect their slain deity.--Back cover

Thousands of Palauan entries are new or greatly expanded. The expanded English-Palauan finder list allows for quick reference to the Palauan equivalents of many English words.

**Reading Lessons from the Eighteenth Century** Evelyn Arizpe, Morag Styles, Shirley Brice Heath, 2006 Covers the history of reading and children's literature in the eighteenth century. Drawing upon the Jane Johnson (1706-1759) archives in the Bodleian Library, Oxford and the Lilly Library, University of Indiana, it is able to document the typical

reading practices of an upper middle class family in this period. More particularly, it draws on these unique collections to throw light on a series of questions currently preoccupying scholars in the fields of the history of reading, the history of children's literature, and the history of women. At the same time, the human presence of Jane Johnson and her children gives this book a wide appeal to non-specialist readers through its thorough use of the Johnson archives.
