Rome 1300 Herbert L. Kessler, Professor Herbert L Kessler, Johanna Zacharias, Professor Johanna Zacharias, 2000-01-01 On this Jubilee year, the authors take readers back to the first Holy Year, 1300, when Pope Boniface VII promised eternal peace for the souls of all Christians who trekked to the Eternal City. 225 illustrations, 60 in color.

The World Map, 1300-1492 Evelyn Edson, 2007-05-30 In the two centuries before Columbus, mapmaking was transformed. The World Map, 1300--1492 investigates this important, transitional period of mapmaking. Beginning with a 1436 atlas of ten maps produced by Venetian Andrea Bianco, Evelyn Edson uses maps of the fourteenth and fifteenth centuries to examine how the discoveries of missionaries and merchants affected the content and configuration of world maps. She finds that both the makers and users of maps struggled with changes brought about by technological innovation -- the compass, quadrant, and astrolabe -- rediscovery of classical mapmaking approaches, and increased travel. To reconcile the tensions between the conservative and progressive worldviews, mapmakers used a careful blend of the old and the new to depict a world that was changing -- and growing -- before their eyes. This engaging and informative study reveals how the ingenuity, creativity, and adaptability of these craftsmen helped pave the way for an age of discovery.

Italy in the Age of the Renaissance John M. Najemy, 2004-11-05 Italy in the Age of Renaissance offers a new introduction to the most celebrated period of Italian history in twelve essays by leading and innovative scholars. Recent scholarship has enriched our understanding of Renaissance Italy by adding new themes and perspectives that have challenged the traditional picture of a largely secular and elite world of humanists, merchants, patrons, and princes. These new themes encompass both social and cultural history (the family, women, lay religion, the working classes, marginal social groups) as well as new dimensions of political history that highlight the growth of territorial states, the powers and limits of government, the representation of power in art and architecture, the role of the South, and the dialogue between elite and non-elite classes. This thematically organized volume introduces readers to the fruitful interaction between the more traditional topics in Renaissance studies and the new, broader approach to the period that has developed in the last generation.

The Dynamics of Military Revolution, 1300-2050 MacGregor Knox, Williamson Murray, 2001-08-27 This book studies the changes that have marked war in the Western World since the thirteenth century.

Marriage in Italy, 1300-1650 Trevor Dean, K. J. P. Lowe, 2002-05-09 A collection of essays about marriage and the role of women in Renaissance Italy.

History of Western Society Since 1300 for Advanced Placement John P. McKay, Bennett D. Hill, John Buckler, Clare Haru Crowston, Merry E. Wiesner-Hanks, Joe Perry, 2010-10-13 A History of Western Society continues to capture the attention of AP European history students because it recreates the lives of ordinary people and makes history memorable. Brought to you by the highly regarded editors at Bedford/St. Martins, every element of the text has been rethought, reconsidered, and revised to bring the original vision to a new generation of students. The tenth edition continues to tie social history to the broad sweep of politics and culture, heightening its attention to daily life, and strengthening the treatment of European exploration. With a dynamic new design, new special features on visual evidence, and a robust companion reader, A History of Western Society helps AP students master the concepts and content of European history.

The 1300's Stephen Currie, 2001 Describes the politics, government, religion and philosophy, issues, class structure, daily life, and major figures and events in fourteenth-century Europe; and explores non-western empires and dynasties.

Sparta and Lakonia Paul Cartledge, 2013-04-15 In this fully revised and updated edition of his groundbreaking study, Paul Cartledge uncovers the realities behind the potent myth of Sparta. The book explores both the city-state of Sparta and the territory of Lakonia which it unified and exploited. Combining the more traditional written sources with archaeological and environmental perspectives, its coverage extends from the apogee of Mycenaean culture, to Sparta's crucial defeat at the battle of Mantinea in 362 BC.

The Church Triumphant E. Glenn Hinson, 1995

The High Middle Ages Tim McNeese, 1999-09-01 The High Middle Ages covers a period of recovery between two of the darkest periods in European history. Farming innovations, the growth of monarchical rule, the dramatic rebirth of towns and cities, and the formation of the world's first universities are among the topics vividly documented in this richly illustrated text. You will also find informational texts about the Crusades. Challenging review questions encourage meaningful reflection and historical analysis. A unit test and answer key are included.

The Medieval World, 300-1300 Norman F. Cantor, 1968

The Origins of the State in Italy, 1300-1600 Julius Kirshner, 2009-05-15 The beginnings of the state in Europe is a central topic of contemporary historical research. The making of such early modern Italian regional states as Florence, the kingdom of Naples, Milan, and Venice exemplifies a decisive turn in the state tradition of Western Europe. The Origins of the State in Italy, 1300-1600 represents the best in American, British, and Italian scholarship and offers a valuable and critical overview of the key problems of the emergence of the state in Europe. Some of the topics covered include the political legitimacy of the aborning regional states, the changing legal culture, the conflict between church and state, the forces shaping public finances, and the creation of the Italian League. The eight essays in this collection originally appeared in the Journal of Modern History. Contributors include Roberto Bizzocchi, Giorgio Chittolini, Trevor Dean, Riccardo Fubini, Elena Fasano Guarini, Aldo Mazzacane, Anthony Molho, and Pierangelo Schiera. This volume will appeal to historians, historical sociologists, and historians of political thought.

The Transformation of Europe 1300-1600 David Nicholas, 1999-04-30 This comprehensive survey of European history between 1300 and 1600 challenges conventional vision of Europe that divides the world between the late-medieval and early modern periods, emphasizing the distortion involved in that construction. Important changes toward modernity are evident, the book argues, as early as the fourteenth century; only in religious history does there appear to be some justification for retaining the traditional notion that modern age began with Martin Luther, though even in that arena the institutional break of the Protestants with Rome cannot conceal fundamental continuity of expression and attitude.

The Formation of Muscovy 1300 - 1613 Robert O. Crummey, 2014-06-06 This is a comprehensive account of the rise of the late medieval Russian monarchy with Moscow as its capital, which was to become the territorial core of the Soviet Union. The legacy of the Grand Princes and Tsars of Muscovy -- a tradition of strong governmental authority, the absence of legal corporations, and the requirement that all Russians contribute to the defence of the nation -- has shaped Russia's historical development down to our own time.

1300 Hours Doc Collins, 2018-12-10 The book 1300 Hours serves as a love letter to the veteran and service member communities. CPT Ava Stenberg flies US and Coalition forces from the battlefield to the next echelon of care, as an army flight nurse working with the air force CCATT team. When she's not deployed, she oversees the trauma unit at MCV Hospital in Richmond, Virginia. While tremendously accomplished in her professional life, her personal life bears scars that are both visible and unseen—sleeplessness, PTSD, moral trauma, survivor guilt, two divorces, and a service dog accompanies the traits of a nation's hero that is still only human. The book 1300 Hours introduces an unlikely pairing of a Major League Baseball hopeful and a widow, who opens a physical therapy

practice in the city. Dalton Michelson, a B-list celebrity-athlete, has absolutely no concept of military life or how to navigate the culture of the fairer sex since suffering a personal loss. This first installment of a five-book series captures the reality of human interaction in today's socio-economic climate.

Renaissances Richard MacKenney, 2004-10-29 This highly-illustrated book emphasizes above all the diversity of the Italian Renaissance in the period between the fourteenth and the seventeenth centuries: the enormously varied forms of cultural achievement and the different circumstances that prevailed in various contexts, both urban and courtly. Richard MacKenney examines why the great revival did not touch the whole of Italy or the majority of its people. He argues that, while the wonder and joy of classical rebirth remained vivid, there was also a dimension of anxiety, especially in the challenge that ancient cultures posed to Christian belief.
