Moon Phase Astrology Raven Kaldera, 2011-03-28 A guide to understanding the phases of astrological Moon signs and their effects on emotions and personality • Describes the positive and negative character-defining traits of each of the 96 Moon phase/Moon sign combinations • Explains how to use your natal Moon's sign and phase to predict how current and approaching Moons can affect you • Explores the universal challenges arising during each Moon phase throughout the year and ways to honor each phase as it passes The Moon's ever-changing phases offer a way to deepen our understanding of our natal Moon sign as well as the Moon's day-to-day influence on our emotional tides. Through its 8 phases and its wandering dance through each of the 12 signs of the Zodiac--from the Infant's Moon (the New Moon in Aries) to the Storyteller's Moon (the Full Moon in Gemini) to the Prophet's Moon (the waning Balsamic Moon in Aquarius)--the Moon shares its story in 96 different ways. Telling the stories of the heart of all 96 Moon phase and Moon sign combinations, Raven Kaldera explains the creative gifts and emotional challenges bestowed upon those born under each Moon archetype as well as how to nurture the positive traits and improve--or at least discourage--the negative ones. Exploring the influences each Moon archetype has on us as it passes, the author reveals which Moons are the most difficult, what innate qualities each Moon brings out in us, and what we can do to honor each Moon. Including evocative quotes illuminating the nature of each Moon, Kaldera shows how to use your natal Moon's astrological sign and phase to find your "hidden Moons"--the shadows cast by passing Moons--and predict how current and approaching Moons will affect you.

A Path To Pregnancy Donna Stellhorn,2015-10-26 There are plenty of scientific and

medical technologies in the world today available to a woman/couples as they seek to become pregnant. There is also a lot of science on the subject of fertility, and treating infertility. Before science, fertility drugs, and in vitro fertilization, women turned to ancient and traditional wisdom to help make their dreams of motherhood come true. The concepts presented in this book derive from traditional European, American and Asian metaphysical and folk lore. While they should not be understood as directions, recommendations, or prescriptions of any kind, they provide a completely fascinating overview of the ways our ancestors went about increasing the likelihood of becoming pregnant (and excellent tips for the modern couple seeking to become pregnant)! Many ancient secrets from a variety of cultures around the world are included in the book, among them: traditional symbols, colors, herbs, and foods. Obviously, these are traditions, symbols and methods that worked for the women of the past, our grandmothers, great grandmothers, great-great grandmothers, and the mothers before. These fertility symbols are a part of our history, They are part of our own culture and part of the myth and folklore of other cultures. Fertility wisdom exists in our ancestral memory, in the very cells that make up our bodies. The symbols are powerful, magical, like a sacred prayer to the heavens. They have worked for generations, and they can work for you, too! Author Donna Stellhorn doesn't claim to be a Medical Doctor or Scientist, she's a successful Astrologer and Feng Shui expert with more than 20 years experience as a consulting professional, and many more years of study and practice leading into her profession. Her book offers readers an opportunity to have access to the unique blend of techniques she uses to help identify the steps you can take to improve fertility energy in your life. Over the years of helping clients using Astrology to find the right time, and offering insight into the traditions of the past including the techniques of Feng Shui, Donna has helped countless women from around the world fulfill their dreams. She says, "This book contains some of what I have learned over the years working with countless women, offering encouragement, and sharing fertility folklore from around the world. I have listened to the experiences and stories of others, seeking to help them however I can with their desire to get pregnant. I feel through this work, and through them, I have in some small way helped to welcome many children into the world."
