Sony Alpha SLT-A35 / A55 For Dummies Robert Correll,2012-02-21 Presents an introduction to the features of Sony's dSLR cameras, covering such topics as setup menus, exposures, working with lenses, lighting, downloading and editing images, and troubleshooting.

The Multimedia Internet Stephen Weinstein,2007-02-15 Here is a thorough, not-overly-complex introduction to the three technical foundations for multimedia applications across the Internet: communications (principles, technologies and networking); compressive encoding of digital media; and Internet protocol and services. All the contributing systems elements are explained through descriptive text and numerous illustrative figures; the result is a book well-suited toward non-specialists, preferably with technical background, who need well-composed tutorial introductions to the three foundation areas. The text discusses the latest advances in digital audio and video encoding, optical and wireless communications technologies, high-speed access networks, and IP-based media streaming, all crucial enablers of the multimedia Internet.

Integrating Linux and Windows Mike McCune,2001 Annotation This clearly organized, amiably written guide provides solutions for the interoperability issues that come up when Linux and Windows are used together, including: using Samba and Linux for file and print services, implementing the best connectivity techniques, providing reliable data exchange, providing high performance cross-platform database access via ODBC, making the most of platform-independent, browser-based applications, and managing the two systems at the same workstation with boot managers, partitioning, compressed drives, and file systems. McCune is a consultant in Chicago. Annotation c. Book News, Inc., Portland, OR (booknews.com).

Focal Easy Guide to Flash MX 2004 Birgitta Hosea,2013-07-31 Confused by ActionScript? Want to get to grips with

creating interactive graphics and animation in Flash quickly? Whether you are a new user or a professional illustrator, designer or animator experienced in other animation and effects packages, this highly visual, color book will be all you need to get you up and running with the latest powerful upgrade – Flash MX 2004. Birgitta Hosea uses tried and tested material based on her teaching, breaking down the software into its main components and providing lots of screenshots and simple step-by-step instructions. This encourages you to get the most out of the programme and fully develop your skills, whilst allowing those with particular needs to 'jump ahead'. The structure and style, influenced by her commercial and creative expertise, allows you either as a student or professional to dip in and out according to the needs of your specific projects, but also allows the exploration of the programmes capability when you have more time. It is a generalist, accessible, visual and a truly introductory guide, written from the perspective of a designer with a thorough coverage of the basic features of Flash MX 2004, without going too in-depth into coding with ActionScript. Birgitta Hosea is a motion graphics artist and Course Director of the London Animation Studio at Central Saint Martins College of Art and Design. Her experience ranges from designing idents and promotional materials to working as an Art Director on pop promos and short films.
