The Book on Public Speaking Topher Morrison, 2017-03-21 "One of the most powerful professional speakers in America . . . reveals how he's earned millions onstage, on camera and in business" (Steve Siebold, CSP, past chairman of The National Speakers Association's Million Dollar Speakers Group). If you look at the trends of over thirty years ago in fashion, technology, architecture, and any other industry, what was cutting edge back then has become cliché and grossly out of date now. But in the speaking industry, most people get up and still walk, talk, and sound like the 1980s motivational speakers of yesteryear. *The Book on Public Speaking* takes a head-on approach and challenges the status quo for business leaders that speak in front of their staff, board of directors, and the public. After reading this book you will be privy to the most current methods for speaking to an audience for maximum impact in today's more sophisticated and skeptical culture. If you are the type of business leader who has achieved a level of success in life and feel compelled to share your story with the world, don't lessen that impact by imitating outdated speaking techniques. Instead, break the mold of the speaker cliché and tap into a speaking style that is authentic, packs a punch, and leaves the audience wanting more. "I learned some amazing presentation techniques from Topher. I'm using them right now. They're awesome. You can't tell because you're reading this." —John Heffron, winner of *The Last Comic Standing* "Morrison is crazy good at training you how to communicate on-camera so that your business gets more attention." —James Lavers, professional speaker, founder, "Selling from the Screen"

Polar Bear Pirates Adrian Webster, 2003 A fresh and innovative route to business and personal success - *Polar Bear Pirates* contains a whole new universe of characters and terminology that everyone will instantly recognize and relate to. *Polar Bear Pirates*, highly focused, successful, fun-loving people who truly believe in life before death, are on a quest to reach Fat City. But as we follow the fortunes of these highly motivated bears, we see how they must fight off some pretty ruthless and often highly elusive enemies - enemies who are determined to block their paths and shatter their dreams... Here's a brief sketch of just some of these treacherous characters... Sinkers...the bitter losers who, as disciples of the pear shape, despise anyone else's success and derive immense pleasure from torpedoing it... Head treads...those who block anyone coming up the success ladder; they are devoid of talent, having only got where they are through brown nosing, knife throwing and luck! Neg ferrets...the pessimistic warriors of doom with insatiable appetites for other people's

problems... Molasses Man.. the sweet but slow, well-meaning people who are burdened by the beliefs of others... Bloaters...boasting, lazy, obnoxious and tediously egotistical reptilian saddos who are absolutely full of it! Written in the tradition of the bestselling, Who Moved My Cheese, Polar Bear Pirates is a uniquely entertaining and often hilarious look at business and personal development. A 'game book' of questions, answers, traps and signposts, this book delivers powerful, inspirational messages as it helps you to unravel a series of complex motivational issues on your journey to personal and professional success.

SST, really I feel Im not worthy to be here, she spoke softly again, displaying a reluctance to speak out. I immediately got interested! From experience, such people have interesting stories that will make my day. My sister, dont worry, you have come where your problems will be attended to. I was cajoling her to speak out! And please, I didnt get your name, or you dont feel like telling me? I said. Its not like that, SST! Its just that I dont think I should say what I want to say. She was shying away. I was right. She didnt want her name to be mentioned, theres a story all right! She came back reluctantly. OK. SST, my name is Joan, she said. Joan like hell! No problem, I can use that name. Names are like ages. They really dont count on my show because you hardly get the true dose, all the same I just needed it for the reference. OK, Joan, whats the issue? Let me see your steps, the floor is all yours now. I decided to spur her. I havent got all day even if she was my only caller. Joan, lets hear you before our shot time is up, and we might just miss you for life. I was pushing her. That seemed to wake her, and from then, she started coming out like a canary. When something is bottled up for so long inside someone and it wants to spurt out, a small nod will collapse the whole balloon. SST, you see, I never knew my life will drain to this level. I was not brought up to be like this. I had a good family upbringing, nice parents that wanted the best for me. It was not meant to be like this for me. I bet I was left astray by the company I made in school. Thats it, she is talking now! You cant put it down once you start reading . . .

Motivational Speaker 3 Tilawan,2012-10-26 There are some things when we miss them in life, it won't matter what else we gained. There are some things when we gain them, it won't matter what else we missed and no greater wisdom can we discover than this, and the greatest wisdom is to discover our purpose in life! The day you discover God's purpose for your life, you will cease to be using your your efforts but His. You will no longer use your strength but His. You will no longer be using your wisdom in what you are doing but His. You will no longer use your approach to issues of your life but His, for you have discovered His assignment for your life! Your assignment in life is never far from you, but it could be far from your focus. Always change your focus to discover what is God's purpose for your life! Wealth is not your purpose, it is a slice of it. Fame is not your purpose, it is a slice of it. Power is not your purpose, it is a slice of it and until you discover your purpose, the slices will keep distracting you from God's plan for your life! Let no attraction; either the attractions of money, fame or power distract you from pursuing your purpose in life! The attractions that cannot distract you at the early stage of your struggles in discovering your purpose in life, will serve you at its later stage! Trying to do like everybody else might not be your purpose. Trying to do what people

like may not be your purpose. Trying to do as you are told may not be your purpose. Trying to to impress the people around you, may not be your purpose. Discovering your purpose in life will give you a picture of where your tomorrow will be. It will give you the right mentality to achieving a breakthrough in life. Because whenever the journey of your struggles starts to bog down, you cannot breakthrough with the wrong mentality that sees you from a picture of where you found yourself. You can only go forward with a right mentality of the picture of where your tomorrow will be. And when tomorrow comes and you see yourself in great victory, you will then realise that what is needed is not to thank God for answered prayers but to apologise to Him for the times we go about in behaviours that shows He was not faithful to us! A feeling in actions and activities that shows He might not really have cared about our situation! I came to the point that I planned to stop the show for the day. My dear listeners, always have a positive attitude to whatever you are going through in life and keep to the path and action that will carry you to your victory in life. You can't get an answer by following a formula half way. You can't get an answer by following a formula the wrong way. The formula ensures that we do away with anything that is stopping us from achieving our victory in life. Most times, it is the presence of some little things that is denying the coming of some wonderful things in our lives... HE CHANGES PEOPLE'S LIVES THROUGH HIS MOTIVATIONAL

Recent Milestone and Technology Development in Sustainable Energy and Advanced Material for Applied Engineering and Industry Ubaidillah, Ph.D.,Aditya Rio Prabowo, Dr. Eng.,Fitrian Imaduddin, Ph.D.,Dominicus Danardono Dwi Prija Tjahjana, Ph.D. ,Indri Yaningsih, Dr. Eng.,2023-01-09 This research applies a numerical study of topology optimization of laminate composite structures by using a Finite Element Method. In this methodology, the plies orientation is excluded from the optimization. The geometry-based optimization from frames of a MALE UAV fuselage structure is presented. The minimum strain energy with an optimization constraint of 20 percent of weight reduction is used in the objective function. Before the primary analysis, benchmark studies of topology optimization without considering orientations from previously published literature are performed. The convergence studies were taken to acquire the appropriate mesh size in the FEM technique, which utilized a four-noded shell element. The FE analysis and optimization results showed that the structural design of the newly frame composite fuselage MALE UAV meets the structural strength requirements specified in the airworthiness standard STANAG 4671.

Religion and Knowledge Mathew Guest,Elisabeth Arweck,2016-04-15 Religions have always been associated with particular forms of knowledge, often knowledge accorded special significance and sometimes knowledge at odds with prevailing understandings of truth and authority in wider society. New religious movements emerge on the basis of reformulated, often controversial, understandings of how the world works and where ultimate meaning can be found. Governments have risen and fallen on the basis of such differences and global conflict has raged around competing claims about the origins and content of religious truth. Such concerns give rise to recurrent questions, faced by academics, governments and the general public. How do we treat statements made by religious groups and on what basis are they made? What authorities lie behind religious claims to truth? How can competing claims about knowledge be resolved? Are there instances when it is appropriate to police religious knowledge claims or restrict their public expression? This book addresses the

relationship between religion and knowledge from a sociological perspective, taking both religion and knowledge as phenomena located within ever changing social contexts. It builds on historical foundations, but offers a distinctive focus on the changing status of religious phenomena at the turn of the twenty-first century. Including critical engagement with live debates about intelligent design and the 'new atheism', this collection of essays brings recent research on religious movements into conversation with debates about socialisation, reflexivity and the changing capacity of social institutions to shape human identities. Contributors examine religion as an institutional context for the production of knowledge, as a form of knowledge to be transmitted or conveyed and as a social field in which controversies about knowledge emerge.
