The Oxford Guide to the Uralic Languages Marianne Bakró-Nagy,Johanna Laakso,Elena Skribnik,2022-03-24 This volume offers the most comprehensive and wide-ranging treatment available today of the Uralic language family, a group of languages spoken in northern Eurasia. While there is a long history of research into these languages, much of it has been conducted within several disparate national traditions; studies of certain languages and topics are somewhat limited and in many cases outdated. The Oxford Guide to the Uralic Languages brings together leading scholars and junior researchers to offer a comprehensive and up-to-date account of the internal relations and diversity of the Uralic language family, including the outlines of its historical development, and the contacts between Uralic and other languages of Eurasia. The book is divided into three parts. Part I presents the origins and development of the Uralic languages: the initial chapters examine reconstructed Proto-Uralic and its divergence, while later chapters provide surveys of the history and codification of the three Uralic nation-state languages (Hungarian, Finnish, and Estonian) and the Uralic minority languages from Baltic Europe to Siberia. This part also explores questions of endangerment, revitalization, and language policy. The chapters in Part II offer individual structural overviews of the Uralic languages, including a number of understudied minority languages for which no detailed description in English has previously been available. The final part of the book provides cross-Uralic comparative and typological case studies of a range of issues in phonology, morphology, syntax, and the lexicon. The chapters explore a number of topics, such as information structure and clause combining, that have traditionally received very little attention in Uralic studies. The volume will be an essential reference for students and researchers specializing in the Uralic languages and for typologists and comparative linguists more broadly.

Kuwait Diary Holly Doyne,2006 In April 2003, I said goodbye to my husband and children before leaving for Kuwait on a 12-month hardship tour. It was to be at least six months before mid-tour, if leave would be allowed by then. Checked in, and caught Lufthansa out of Frankfurt. Ever have one of those dreams in which you taxi forever and go nowhere? This was one of those off the end of the earth type experiences. With that, U.S. Army Physician Holly Doyne departed Germany for an assignment to Camp Doha as Command Surgeon, ARCENT-Kuwait, for what became a prolonged tour. This is her record of that time. It is about battling with the heat and the dust in the desert. It is about ordered chaos and confusion tempered with caring. It is a warm and lively account by a determined and compassionate physician who went to conquer, assigned to a location where making a difference really mattered.
