The Life Steve McQueen explores and celebrates the memorable aspects of McQueen's life that, taken as a whole, defined the man and cemented his reputation as a Hollywood rebel and risk taker. Peppered with period photos, illustrations, posters, and more, The Life Steve McQueen surveys the movie roles, racing, personal style, art, and pop culture that all combined to crown the King of Cool and ensure his legacy.

Cognitive Theory and Documentary Film Catalin Brylla,Mette Kramer,2018-08-21 This groundbreaking edited collection is the first major study to explore the intersection between cognitive theory and documentary film studies, focusing on a variety of formats, such as first-person, wildlife, animated and slow TV documentary, as well as docudrama and web videos. Documentaries play an increasingly significant role in informing our cognitive and emotional understanding of today's mass-mediated society, and this collection seeks to illuminate their production, exhibition, and reception. Taking an interdisciplinary approach, the essays draw on the latest research in film studies, the neurosciences, cultural studies, cognitive psychology, social psychology, and the philosophy of mind. With a foreword by documentary studies pioneer Bill Nichols and contributions from both theorists and practitioners, this volume firmly demonstrates that cognitive theory represents a valuable tool not only for film scholars but also for filmmakers and practice-led researchers.

The Business of Entertainment Robert C. Sickels,2008-11-30 We love to be entertained. And today's technology makes that easier than ever. Listen to tunes while working out? No problem. Watch a movie on your cell phone? Can do. Get 450 channels of digital entertainment bounced off a satellite and into your vehicle—even while traveling through empty wastelands? Simple. But behind these experiences is a complex industry, dominated by a handful of global media conglomerates whose executives exert considerable influence over the artists and projects they bankroll, the processes by which products are developed, and the methods they use to promote and distribute entertainment. As this set shows, the industries in which commerce, art, and technology intersect are among the most fascinating in all of business. Entertainment is a high-stakes industry where stars are born and flame out in the blink of an eye, where multimillion dollar deals are made on a daily basis, and where cultural mores, for better or worse, are shaped and reinforced. The Business of Entertainment lifts the curtain to show the machinery (and sleight of hand) behind the films, TV shows, music, and radio programs we can't live without. The Business of Entertainment comprises three volumes, covering movies popular music, and television. But it's not all about stars and glitter—it's as much about the nuts and bolts of daily life in the industry, including the challenges of digitizing content, globalization, promoting stars and shows, protecting intellectual property, developing talent, employing the latest technology, and getting projects done on time and within budget. Challenges don't end there. There's also advertising and product placement, the power of reviews and reviewers, the cancerous spread of piracy, the battles between cable and satellite operators (and the threat to both from telephone companies), the backlash to promoting gangsta lifestyles, and more. Each chapter is written by an authority in the field, from noted scholars to entertainment industry professionals to critics to screenwriters to lawyers. The result is a fascinating mosaic, with each chapter a gem that provides insight into the industry that—hands down—generates more conversations on a daily basis than any other.

Hosted Horror on Television Bruce Markusen,2021-07-16 In October 1957, Screen Gems made numerous horror movies available to local television stations around the country as part of a package of films called Shock Theater. These movies became a huge sensation with TV viewers, as did the horror hosts who introduced the films and offered insight--often humorous--into the plots, the actors, and the directors. This history of hosted horror walks readers through the best TV horror films, beginning with the 1930s black-and-white classics from Universal Studios and ending with the grislier color films of the early 1970s. It also covers and explores the horror hosts who presented them, some of whom faded into obscurity while others became iconic within the genre.

A Dictionary of Cinema Quotations from Filmmakers and Critics Stephen M. Ringler,2008-04-19 "The cinema isn't a slice of life, it's a slice of cake"—Alfred Hitchcock. "If you make a popular movie, you start to think where have I failed?"—Woody Allen. "A film is the world in an hour and a half"—Jean-Luc Godard. About 1,850 film people are included—Buñuel, Capra, Chaplin, Disney, Fellini, Fitzgerald, Griffith, Kael, Kurasawa, Pathé, Sarris, Schwarzenegger, Spielberg, Waters and Welles

among them. The quotations are arranged under 31 topics such as acting, animation, audience, budget, casting, critics, costume design, directing, locations, reviews, screenwriting, special effects and stardom. Indexing by filmmakers (or critics), by film titles and by narrow subjects provides a rich array of points of access.

Shakespeare and British World War Two Film Garrett A. Sullivan, Jr,2022-03-31 During World War Two, many British writers and thinkers turned to Shakespeare in order to articulate the values for which their nation was fighting. Yet the cinema presented moviegoers with a more multifaceted Shakespeare, one who signalled division as well as unity. Shakespeare and British World War Two Film models a synchronic approach to adaptation that, by situating the Shakespeare movie within histories of film and society, avoids the familiar impasse in which the playwright's works are the beginning, middle and end of critical study. Through close analysis of works by Laurence Olivier, Leslie Howard, Humphrey Jennings, and the partners Michael Powell and Emeric Pressburger, among others, this study demonstrates how Shakespeare served as a powerful imaginative resource for filmmakers seeking to think through some of the most pressing issues and problems that beset wartime British society.

Classic Movie Crosswords Matt Gaffney,2006-09 Both movie lovers and word mavens will turn these crosswords into blockbusters! That's because they're filled with cinematic clues designed to test film fans' knowledge of screen lore. The puzzle titles say it all: Short Subjects," Two Thumbs Up," The Top 50," and The Lady Vanishes" (after the Hitchcock classic), to name just a few. Everything movie-related is fair game: actors, directors, composers, Oscar winners, favorite characters, plot points, and genres. What's the name of the Mel Gibson alien flick? Who was William Hurt's Body Heat costar? And Phil Collins' Oscar-nominated song is called Against All ___"? (Hint: it's four letters.)

Hindi Cinema Nandini Bhattacharya,2013-05-07 Hindi Cinema is full of instances of repetition of themes, narratives, plots and characters. By looking at 60 years of Hindi cinema, this book focuses on the phenomenon as a crucial thematic and formal code that is problematic when representing the national and cinematic subject. It reflects on the cinema as motivated by an ongoing crisis of self-formation in modern India. The book looks at how cinema presents liminal and counter-modern identities emerging within repeated modern attempts to re-enact traumatic national events so as to redeem the past and restore a normative structure to happenings. Establishing structure and event as paradigmatic poles of a historical and anthropological spectrum for the individual in society, the book goes on to discuss cinematic portrayals of violence, gender embodiment, religion, economic transformations and new globalised Indianness as events and sites of liminality disrupting structural aspirations. After revealing the impossibility of accurate

representation of incommensurable and liminal subjects within the historiography of the nation-state, the book highlights how Hindi cinema as an ongoing engagement with the nation-state as a site of eventfulness draws attention to the problematic nature of the thematic of nation. It is a useful study for academics of Film Studies and South Asian Culture.

Research Guide to Japanese Film Studies Abé Markus Nornes,Aaron Gerow,2016-02-02 Michigan Monograph Series in Japanese Studies No. 65 The Research Guide to Japanese Film Studies provides a snapshot of all the archival and bibliographic resources available to students and scholars of Japanese cinema. Among the nations of the world, Japan has enjoyed an impressively lively print culture related to cinema. The first film books and periodicals appeared shortly after the birth of cinema, proliferating wildly in the 1910s with only the slightest pause in the dark days of World War II. The numbers of publications match the enormous scale of film production, but with the lack of support for film studies in Japan, much of it remains as uncharted territory, with few maps to negotiate the maze of material. This book is the first all-embracing guide ever published for approaching the complex archive for Japanese cinema. It lists all the libraries and film archives in the world with significant collections of film prints, still photographs, archival records, books, and periodicals. It provides a comprehensive, annotated bibliography of the core books and magazines for the field. And it supplies hints for how to find and access materials for any research project. Above and beyond that, Nornes and Gerow's Research Guide to Japanese Film Studies constitutes a comprehensive overview of the impressive dimensions and depth of the print culture surrounding Japanese film, and a guideline for future research in the field. This is an essential book for anyone seriously thinking about Japan and its cinema.
