A Note Of Madness Tabitha Suzuma, 2011-12-31 Life as a student is good for Flynn. As one of the top pianists at the Royal College of Music, he has been put forward for an important concert, the opportunity of a lifetime. But beneath the surface, things are changing. On a good day he feels full of energy and life, but on a bad day being alive is worse than being dead. Sometimes he wants to compose and practise all night, at other times he can't get out of bed. His flatmate Harry tries to understand but is increasingly confused by Flynn's erratic mood swings. His friend Jennah tries to help, but

Flynn finds it difficult to be around her as he struggles to control his feelings and behaviour. With the pressure of the forthcoming concert and the growing concern of his family and friends, emotions come to a head. Sometimes things can only get worse before they get better.

The Fundamentals of Figure Drawing Barrington Barber, 2017-06-13 The ability to draw the human form accurately and competently is a primary goal for many aspiring artists, despite the current trend in the art establishment away from figurative subjects. The book is intended for anyone who wants to discover every aspect of what for centuries was regarded as the real test of an artist's mettle. Renowned teacher and artist Barrington Barber begins his exploration with anatomy, an understanding which is vital if the artist is to handle form and translate what he sees into a believable representation of life. He goes on to look at the whole figure: clothed, drawn from life, in action and in detail. Supported by sections on composition, styles and a step-by-step guide to a final composition, he has once again achieved a brilliantly inspirational art book. Comprehensive, easy to follow and packed with over 300 of Barrington Barber's illustrations, *The Fundamentals of Figure Drawing* is a must for artists of all abilities.
