The Viola D'amore Harry Danks,1979

Playing the Viola David Dalton,1989-11-30 `In all areas of human endeavour, time and again an individual appears who, due to a multitude of personal attributes, elevates his or her field to a hitherto unknown height. Such an individual was William Primrose. His name and the viola are synonymous.' Janos Starker This unique book is the result of a series of conversations with Primrose in the last years before his death in 1982. David Dalton describes how he came to the great artist armed with every question he could think of pertaining to performing on and teaching the viola. The lively dialogue contains a wealth of illuminating advice for the student on the technicalities of playing the viola. It is, however, far more than a technical guide. The two violists discuss the unique position of their instrument - `an instrument without tradition' is Primrose's bald description. They cover the topic of repertoire with fascinating insights into the performance of the great concertos by Bartók and Walton, with which Primrose was so closely associated. Still more invaluable advice emerges from the discussion of Primrose's own experience, on the art of performance, on demeanour on stage, on competitions, on recordings, and on preparing for a career. The book is a tribute to one of the greatest artists of this century.

Moon-face and Other Stories Jack London,1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. *The son of the Wolf* (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, *The Call of the Wild* (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including *The Sea-Wolf* (1904), *White Fang* (1906), *South Sea Tales* (1911), and *Jerry of the South Seas* (1917). One of London's most interesting novels is the semi-autobiographical *Martin Eden* (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

The Athletic Musician Barbara Paull,Christine Harrison,1999-02-18 *The Athletic Musician* is an innovative approach that teaches musicians how to prevent and manage injuries, presented in a unique format that combines sound medical protocol with a musician's point of view. Harrison, a musician, discusses the magnitude of the problem of musicians' injuries with reference to statistical surveys and discusses the emotional and psychological impact of injury on the individual musician. Paull, an orthopedic physiotherapist describes, in layman's terms, the athletic approach to a musician's injuries. Each commonly injured area is examined in turn, from neck, back and shoulder pain to arm, wrist and hand problems. For each area, the anatomy is described, followed by an explanation of what causes the injury and how to avoid or prevent the injury from occurring. Musicians should regard themselves as elite 'musical athletes' and protect themselves from injury by following athletic training protocols. The authors present appropriate stretching regimes and postural corrections for both on and off stage, as well as ergonomic changes to instrument and playing positions. The text is amply illustrated with sketches for every exercise and stretch, photographs of musicians demonstrating playing postures, and unique anatomical drawings of musicians. *The Athletic Musician* presents research-based, scientific material in a format that is relevant, clear, and practical for all musicians. The combination of a medical and musical perspectives makes it an indispensable guide for all musicians and the health care professionals who aspire to help them.

Information Security Policies Made Easy Version 10 Charles Cresson Wood,2005-04-01

Political Participation and Democratic Capability in Authoritarian States Lien Pham,Ance Kaleja,2023-05 This book provides an innovative theoretical and empirical exploration of the political participation and democratic capability of people living in authoritarian states. Merging perspectives from sociology and political science, the book demonstrates that despite autocratic restrictions on opposition, there is often still leeway for people to express themselves as political agents and to develop democratic capability. The first two chapters problematise political participation and develop an interdisciplinary three-domain framework that allows for critical engagement with and appreciation of the contexts and varied ways in which participatory activities occur. This framework is applied to analyse six country case studies: Singapore, Jordan, Belarus, Cuba, Nigeria, and Vietnam. Drawing on a range of data sources and different analytical entry points, the book investigates the substantive opportunities people have in exercising political agency and the implications for democratic capability. The book concludes by summarising the emergent themes and examining the potential of applying this method of inquiry in other political contexts. Encompassing both governmental and societal practices, the book offers insights into state-society relations and their role in constructing political values and goals for participation, which people negotiate and mediate to inform their choices, modes, and forms of civic engagement. These insights present a broad approach towards the study of participation, with relevance for understanding political participation in various societies under non-democratic and democratic rule alike. This book will be useful for researchers and students interested in political dynamics and intersections with economic, cultural, and social aspects of development. It will also be beneficial for practitioners interested in participatory actions and social change.

The Veiled Web Catherine Asaro,2022-09-27 "A near-future layering of East and West, of religion and technology . . . and of love and its loss—all woven into an intriguing tapestry." —Diana Gabaldon, bestselling author of the Outlander series Winner of the Homer Award for Best Science Fiction Novel A renowned prima ballerina, Lucia del Mar is far more comfortable expressing herself through dance than with words. Shy and introverted, she spends most of her spare time on her laptop. Still, Lucia's job forces her out of her comfort zone, which is how she winds up at a White House reception where she meets Rashid al-Jazari, the wealthy CEO of a multinational corporation. Although attracted to him, Lucia can't help but feel awkward and shrugs off their encounter as a one-time event. Not realizing he feels a similar attraction, she never imagines Rashid will seek out her performances; he is the last person she expects to see when her dance company travels to Italy. Their reunion takes an even more unexpected turn when they're both drugged and kidnapped.

Although they overcome their abductors, it leaves them stranded in North Africa. For her own safety, Lucia agrees to marry Rashid, at least for the time being. As she recovers at his family compound in Morocco, reeling from their brush with danger, she struggles to fit into a culture she knows nothing about—and to deal with her growing feelings for Rashid. At the same time, at his secret office there, Rashid is developing a dramatic leap forward in artificial intelligence combined with virtual reality. He finds himself plunged into a fight for control of his work against powerful international forces, and caught in the middle, Lucia is swept into that battle . . . “A terrific novel, ripping a path from today’s headlines to tomorrow’s realities.” —Robert J. Sawyer, Nebula Award-winning author
