Moreover, the Office has underscored the need for a comprehensive approach to copyright review and revision generally. This is especially true in the case of music licensing the problems in the music marketplace need to be evaluated as a whole, rather than as isolated or individual concerns of particular stakeholders.

**No Such Thing as Silence** Kyle Gann, 2010-03-23 First performed at the midpoint of the twentieth century, John Cage's 4'33, a composition conceived of without a single musical note, is among the most celebrated and ballyhooed cultural gestures in the history of modern music. A

meditation on the act of listening and the nature of performance, Cage's controversial piece became the iconic statement of the meaning of silence in art and is a landmark work of American music. In this book, Kyle Gann, one of the nation's leading music critics, explains 4'33 as a unique moment in American culture and musical composition. Finding resemblances and resonances of 4'33 in artworks as wide-ranging as the paintings of the Hudson River School and the music of John Lennon and Yoko Ono, he provides much-needed cultural context for this fundamentally challenging and often misunderstood piece. Gann also explores Cage's craft, describing in illuminating detail the musical, philosophical, and even environmental influences that informed this groundbreaking piece of music. Having performed 4'33 himself and as a composer in his own right, Gann offers the reader both an expert's analysis and a highly personal interpretation of Cage's most divisive work.

Travels in Alaska John Muir, 1915 In the late 1800s, John Muir made several trips to the pristine, relatively unexplored territory of Alaska, irresistibly drawn to its awe-inspiring glaciers and its wild menagerie of bears, bald eagles, wolves, and whales. Half-poet and half-geologist, he recorded his experiences and reflections in *Travels in Alaska*, a work he was in the process of completing at the time of his death in 1914. As Edward Hoagland writes in his Introduction, A century and a quarter later, we are reading "Muir's" account because there in the glorious fiords . . . he is at our elbow, nudging us along, prompting us to understand that heaven is on earth--is the Earth--and rapture is the sensible response wherever a clear line of sight remains. This Modern Library Paperback Classic includes photographs from the original 1915 edition.
