*The Rise and Impact of Fintech in Latin America* Mr. Bas B. Bakker,Weicheng Lian,Yang Liu,Mariusz A. Sumlinski,Yuanchen Yang,Dmitry Vasilyev,2023-03-29 In the past decade, fintech has shaken up the financial sector in Latin America providing innovations in lending, payments, insurance, and regulation and compliance. This paper examines this development by focusing on both fintech

services and regulation. Exploring fintech's macro-critical impact using country- and bank-level data, we find that booming financial technologies in Latin America have helped boost competition in the banking sector and inclusion. Additionally, we demonstrate that fintech firms in Latin America experienced robust growth even during the pandemic supported by external funding. Finally, we discuss how regulators are addressing the risks associated with financial technologies and how they are leveraging fintech tools in their supervisory activities.

**Cultures of Law in Urban Northern Europe** Jackson W. Armstrong,Edda Frankot,2020-11-24

Drawing together an international team of historians, lawyers and historical sociolinguists, this volume investigates urban cultures of law in Scotland, with a special focus on Aberdeen and its rich civic archive, the Low Countries, Norway, Germany and Poland from c. 1350 to c. 1650. In these essays, the contributors seek to understand how law works in its cultural and social contexts by focusing specifically on the urban experience and, to a great extent, on urban records. The contributions are concerned with understanding late medieval and early modern legal experts as well as the users of courts and legal services, the languages and records of law, and legal activities occurring inside and outside of official legal fora. This volume considers what the expectations of people at different status levels were for the use of the law, what perceptions of justice and authority existed among different groups, and what their knowledge was of law and legal procedure. By examining how different aspects of legal culture came to be recorded in writing, the contributors reveal how that writing itself then became part of a culture of law. Cultures of Law in Urban Northern Europe: Scotland and its Neighbours c.1350–c.1650 combines the historical study of law, towns, language and politics in a way that will be accessible and compelling for advanced level undergraduates and postgraduate to postdoctoral researchers and academics in medieval and early modern, urban, legal, political and linguistic history.
