Wally Olins on Brand Wally Olins, 2004-04-17 Wise, witty, readable, and very, very useful. A tour de force from the world's leading authority on branding. —Anthony Hopwood, Said Business School, Oxford Brands are a cultural phenomenon of our time. Yet, whether praised or derided, they have suffered from a critical debate characterized by routine thinking, glib assumptions, or mere prejudice. Wally Olins draws on a lifetime of marketing experience to explain why it is time to throw the old mission statements away, what happens when a brand goes global, when we shouldn't automatically assume that the customer comes first, and how it might be good news that branding is set to spread even further. Above all, Olins provides a positive rejoinder to the new orthodoxies of the No Logo critics of branding by showing how they confuse their views about brands with their views about capitalism. As he argues, brands are no longer just about corporations, products, and services. In fact, all the significant institutions in our lives—the towns, cities, regions, or countries in which we live, our sports teams and museums, our consumer groups and charities—are given strength, identity, a defining role, and a satisfying cohesion via branding, one of the most significant social—as well as business—developments of modern times. Always wise, questioning, and iconoclastic, Wally Olins takes us to the literal heart of the matter: our crucial neglect of the way in which consumer decisions about brands are as emotional as all the other important decisions in our lives. For everyone in marketing, advertising, design, and business, and for anyone who wants to understand how the world works in the early twenty-first century, this is one of those rare books that breaks the mold.

Personal Connections in the Digital Age Nancy K. Baym, 2015-08-04 The internet and the mobile phone have disrupted many of our conventional understandings of ourselves and our relationships, raising anxieties and hopes about their effects on our lives. In this second edition of her timely and vibrant book, Nancy Baym provides frameworks for thinking critically

about the roles of digital media in personal relationships. Rather than providing exuberant accounts or cautionary tales, it offers a data-grounded primer on how to make sense of these important changes in relational life Fully updated to reflect new developments in technology and digital scholarship, the book identifies the core relational issues these media disturb and shows how our talk about them echoes historical discussions about earlier communication technologies. Chapters explore how we use mediated language and nonverbal behavior to develop and maintain communities, social networks, and new relationships, and to maintain existing relationships in our everyday lives. The book combines research findings with lively examples to address questions such as: Can mediated interaction be warm and personal? Are people honest about themselves online? Can relationships that start online work? Do digital media damage the other relationships in our lives? Throughout, the book argues that these questions must be answered with firm understandings of media qualities and the social and personal contexts in which they are developed and used. This new edition of *Personal Connections in the Digital Age* will be required reading for all students and scholars of media, communication studies, and sociology, as well as all those who want a richer understanding of digital media and everyday life.

The Fighting Captain Alan Burn, 2006-07-30 A riveting account of the World War II naval career of the man who did more to win the Battle of the Atlantic than any other officer at sea. Captain F. J. Walker, RN, dedicated his life to defeating the Germans—and Karl Dönitz, Führer der U-Boote, in particular—by containing the U-boats, wearing them down, and sending them back to their bunkers. He was a formidable figure and one of the greatest fighting captains in the Royal Navy, sinking twenty U-boats. For this he was awarded a CB and four DSOs. A month after D-Day, exhausted by his continuous actions at sea against the enemy and his successful exertions to keep the U-boats out of the English Channel to ensure the safe passage of the Allied landings at D-day, he went ashore in Liverpool after a patrol. His ships and the men he had trained and inspired were already back at sea when he died on the 9 July, 1944, aged 48. His ships went on to sink another nine U-boats, bringing his flotillas' total up to twenty-nine, before the U-boat fleet finally surrendered. Fifteen of which were sunk by Walker's own ship, HMS Starling.

Tacky Rax King, 2021-11-02 An irreverent and charming collection of deeply personal essays about the joys of low pop culture and bad taste, exploring coming of age in the 2000s in the age of Hot Topic, Creed, and frosted lip gloss—from the James Beard Award-nominated writer of the Catapult column “Store-Bought Is Fine” Tacky is about the power of pop culture—like any art—to imprint itself on our lives and shape our experiences, no matter one's commitment to good taste. These fourteen essays are a nostalgia-soaked antidote to the millennial generation's obsession with irony, putting the aesthetics we hate to love—snakeskin pants, Sex and the City, Cheesecake Factory's gargantuan menu—into kinder and sharper perspective. Each essay revolves around a different maligned (and yet, Rax would argue, vital) cultural artifact, providing thoughtful, even romantic meditations on desire, love, and the power of nostalgia. An essay about the gym-tan-laundry exuberance of Jersey Shore morphs into an excavation of grief over the death of her father; in You Wanna Be On Top, Rax writes about friendship and early aughts girlhood; in another, Guy Fieri helps her heal from an abusive

relationship. The result is a collection that captures the personal and generational experience of finding joy in caring just a little too much with clarity, heartfelt honesty, and Rax King's trademark humor. A VINTAGE ORIGINAL

Fips Geoffrey Brooks, 1999-07-27 Weener Föhringer (Fips) became one of the most successful U-Boat commanders in WW1 through a blend of skill, daring and, by his own typically modest admission, sheer luck. This vivid memoir, never before published in English, makes compelling reading. This is an inspiring and chivalrous story; it is ironic then that, when finally sunk by the Royal Navy off the East Coast of England, Fips was machine-gunned in the water, contrary to repeated Government denials of such behaviour.

ICT, Pedagogy and the Curriculum Viv Ellis, Avril

Loveless,2013-01-11 This book explores the impact new information and communication technologies are having on teaching and the way children learn. The book addresses key issues across all phases of primary and secondary education, both in the UK and internationally. ICT, Pedagogy and the Curriculum looks at the relationship between ICT, paradigms of teaching and learning, and the way in which curriculum subjects are represented. Three principal areas are addressed: * the wider perception of ICT in society, culture and schooling * the challenges to pedagogy * the way in which ICT not only supports learning and teaching but changes the nature of curriculum subjects. The tensions between the use of technology to replicate traditional practices, and the possibilities for transforming the curriculum and pedagogy are explored, offering an original and distinctively critical perspective on the way in which we understand ICT in education. It will be of interest to all primary and secondary teachers and those in initial teacher training who are concerned about current technology initiatives in education and how to respond to them.
