Carleton Watkins Carleton E. Watkins, Weston J. Naef, Christine Hult-Lewis, 2011 This is an opulently illustrated catalogue of the entire remaining mammoth photographs of Carleton Watkins (1829-1916). Poetry-Painting Affinity as Intersemiotic Translation Chengzhi Jiang, 2020-04-16 This book interprets the close intimacy between poetry and painting from the perspective of intersemiotic translation, by providing a systematic examination of the bilingual and visual representation of landscape in the poetry of Wang Wei, a high Tang poet who won worldwide reputation. The author's subtle analysis ranges from epistemological issues of language philosophy and poetry translation to the very depths where the later Heidegger and Tao-oriented Chinese wisdom can co-work to reveal their ontological inter-rootedness through a two-level cognitive-stylistic research methodology.

Exploring Ancient Textiles Alistair Dickey, Margarita Gleba, Sarah Hitchens, Gabriella Longhitano, 2022-08-31 Over the past 30 years, research on archaeological textiles has developed into an important field of scientific study. It has greatly benefited from interdisciplinary approaches, which combine the application of advanced technological knowledge to ethnographic, textual and experimental investigations. In exploring textiles and textile processing (such as production and exchange) in ancient societies, archaeologists with different types and quality of data have shared their knowledge, thus contributing to well-established methodology. In this book, the papers highlight how researchers have been challenged to adapt or modify these traditional and more recently developed analytical methods to enable extraction of comparable data from often recalcitrant assemblages. Furthermore, they have applied new perspectives and approaches to extend the focus on less investigated aspects and artefacts. The chapters embrace a broad geographical and chronological area, ranging from South America and Europe to Africa, and from the 11th millennium BC to the 1st millennium AD. Methodological considerations are explored through the medium of three different themes focusing on tools, textiles and fibres, and culture and identity. This volume constitutes a reflection on the status of current methodology and its applicability within the wider textile field. Moreover, it drives forward the methodological debates around textile research to generate new and stimulating conversations about the future of textile archaeology.

Mountain Rivers Revisited Ellen Wohl, 2013-05-28 Published by the American Geophysical Union as part of the Water Resources Monograph Series, Volume 19. What are the forms and processes characteristic of mountain rivers and how do we know them? *Mountain Rivers Revisited*, an expanded and updated version of the earlier volume *Mountain Rivers*, answers these questions and more. Here is the only comprehensive synthesis of current knowledge about mountain rivers available. While continuing to focus on physical process and form in mountain rivers, the text also addresses the influences of tectonics, climate, and land use on rivers, as well as water chemistry, hyporheic exchange, and riparian and aquatic ecology. With its numerous illustrations and references,

hydrologists, geomorphologists, civil and environmental engineers, ecologists, resource planners, and their students will find this book an essential resource. Ellen Wohl received her Ph.D. in geology in 1988 from the University of Arizona. Since then, she has worked primarily on mountain and bedrock rivers in diverse environments.

Craniofacial 3D Imaging Onur Kadioglu,G. Fräns Currier,2019-01-28 This book is designed to serve as an up-to-date reference on the use of cone-beam computed tomography for the purpose of 3D imaging of the craniofacial complex. The focus is in particular on the ways in which craniofacial 3D imaging changes how we think about conventional diagnosis and treatment planning and on its clinical applications within orthodontics and oral and maxillofacial surgery. Emphasis is placed on the value of 3D imaging in visualizing the limits of the alveolar bone, the airways, and the temporomandibular joints and the consequences for treatment planning and execution. The book will equip readers with the knowledge required in order to apply and interpret 3D imaging to the benefit of patients. All of the authors have been carefully selected on the basis of their expertise in the field. In describing current thinking on the merits of 3D craniofacial imaging, they draw both on the available scientific literature and on their own translational research findings.

Pathfinder's Way T.A. White,2016-04-12 The Trateri are about to learn a vital lesson of the Broken Lands. Deep in the remote expanse where anything can happen, it pays to be on a pathfinder's good side. Nobody ventures beyond their village walls. Nobody sane that is. Monstrous creatures and deadly mysteries wait out there. Lucky for the people she serves, Shea's not exactly sane. As a pathfinder, it's her job to face what others fear and protect her charges from the dangers that await in the Broken Lands. It's not an easy job, but she's the best at what she does. When the people she serves betray her, Shea must rely on her wits and skill to survive the Trateri, a barbarian horde sweeping in to conquer the Lowlands, and their warlord, a man as dangerous as he is compelling. Her actions and the decisions she makes might mean the difference between life or death. Danger looms on the horizon and a partnership with the Warlord may be the only thing preventing the destruction of everything she holds dear.

Alive at the End of the World Saeed Jones,2022-09-13 Pierced by grief and charged with history, this new poetry collection from

the award-winning author of *Prelude to Bruise* and *How We Fight for Our Lives* confronts our everyday apocalypses. In haunted poems glinting with laughter, Saeed Jones explores the public and private betrayals of life as we know it. With verve, wit, and elegant craft, Jones strips away American artifice in order to reveal the intimate grief of a mourning son and the collective grief bearing down on all of us. Drawing from memoir, fiction, and persona, Jones confronts the everyday perils of white supremacy with a finely tuned poetic ear, identifying moments that seem routine even as they open chasms of hurt. Viewing himself as an unreliable narrator, Jones looks outward to understand what's within, bringing forth cultural icons like Little Richard, Paul Mooney, Aretha Franklin and Diahann Carroll to illuminate how long and how perilously we've been living on top of fault lines. As these poems seek ways to love and survive through America's existential threats, Jones ushers his readers toward the realization that the end of the world is already here—and the apocalypse is a state of being.
