This book is of interest to both digital forensic educators and digital forensic practitioners, as well as students seeking to learn about digital forensics.

Lucky Hans and Other Merz Fairy Tales Kurt Schwitters, 2009 Kurt Schwitters revolutionized the art world in the 1920s with his Dadaist Merz collages, theater performances, and poetry. But at the same time he was also writing extraordinary fairy tales that were turning the genre upside down and inside out. Lucky Hans and Other Merz Fairy Tales is the first collection of these subversive, little-known stories in any language and the first time all but a few of them have appeared in English. Translated and introduced by Jack Zipes, one of the world's leading authorities on fairy tales, this book gathers thirty-two stories written between 1925 and Schwitters's death in 1948--including a complete English-language recreation of The Scarecrow, a children's book illustrated with avant-garde typography that Schwitters created with Kate Steinitz and De Stijl founder Theo van Doesburg. Lucky Hans and Other Merz Fairy Tales also includes brilliant new illustrations that evoke the 1920s, 1930s, and 1940s. Schwitters wrote these darkly humorous, satirical, and surreal tales at a time when traditional German fairy tales were being co-opted by the Nazis. Filled with sharp critiques of German life during the Weimar and early Nazi eras, Schwitters's tales are rich with absurdist events and insist that not everyone--and perhaps not anyone--lives happily ever after. In Lucky Hans, the starving protagonist tries to catch a rabbit only to have it shed its fur like a coat and run off naked into the forest. In other tales, a sarcastic gypsy stands in for a fairy godmother and an army recruit is arrested for growing to monstrous size. Lucky Hans and Other Merz Fairy Tales is a delightfully strange and surprising book.

Andreas Gursky Andreas Gursky,Hans Irrek,John Yau,2012 Andreas Gursky's new Bangkok series forms the basis of this book. Gursky's photos depict the dark, moving water of Thailand's Chao Phraya river, whose shimmering surface possesses the qualities of abstract painting. Indeed these photos are reminiscent of some of the most recognisable examples of Modernist Abstraction such as the work of Hans Arp, but they also echo the more hostile patterns of military camouflage. Seductively beautiful on the first glance, it is only in time that the rubbish of civilisation becomes recognisable floating on the surface of the river - the flotsam of a threatening reality moving upon colourful reflections. Gursky alludes to the ecological problems that jeopardise Bangkok, and which shortly after these images were made, culminated in the widespread flooding that devastated great parts of Thailand.

Computer Forensics and Cyber Crime Marjie Britz,2013 This work defines cyber crime, introduces students to computer terminology and the history of computer crime, and includes discussions of important legal and social issues relating to computer crime. The text also covers computer forensic science.
