*The Psychology of Humiliation* Evelin Gerda Lindner,2000

*A Dignity Economy* Evelin Lindner,2011-12 The economic crisis has many labels ranging from subprime crisis to credit crunch, to financial tsunami or economic Armageddon. Around the world, people are coming to a single diagnosis: Something is deeply unhealthy in our world. This book advocates a deep paradigm shift, not just from one rigid paradigm to another rigid paradigm, but away from rigidity altogether. Away from massive institutions toward a global movement that is co-created by people and their enthusiastic energy. We need a dignity revolution, and not just in Tunisia or Egypt. Now we need a global dignity revolution, a world dignity movement, a movement that creates inclusion, both locally and globally. This book by the author of award winning books *Making Enemies - Humiliation and International Conflict*, *Emotion and Conflict*, as well as *Gender, Humiliation, and Global Security* provides an overview about the plurality of concepts and movements aimed at this.

*Psychological Components of Sustainable Peace* Peter T. Coleman,Morton Deutsch,2012-06-15 Scholarship on the psychology of peace has been accumulating for decades. The approach employed has been predominantly centered on addressing and preventing conflict and violence and less on the conditions associated with promoting peace. Concerns around nuclear annihilation, enemy images, discrimination, denial of basic human needs, terrorism and torture have been the focal points of most research. The *Psychological Components of a Sustainable Peace* moves beyond a prevention-orientation to the study of the conditions for increasing the probabilities for sustainable, cooperative peace. Such a view combines preventative scholarship with a promotive-orientation to the study of peaceful situations and societies. The contributors to this volume examine the components of various psychological theories that contribute to the promotion of a harmonious, sustainable peace. Underlying this orientation is the belief that promoting the ideas and actions which can lead to a sustainable, harmonious peace will not only contribute to the prevention of war, but will also lead to more positive, constructive relations among people and nations and to a more sustainable planet. The *Psychological Components of a Sustainable Peace* is valuable and stimulating reading for researchers in peace psychology, political psychology, and conflict resolution as well as others who are interested in developing a sustainable, harmonious world.

**Emotion and Conflict** Evelin Lindner,2009-03-20 A social scientist with global affiliations, among others with Columbia University in New York, University of Oslo in Norway, and La Maison des Sciences de l'Homme in Paris, Lindner takes us across history and into nations worldwide to show how emotion spurs hierarchies of domination and therefore causes subjugation, human rights violations, abuse, conflict, and fighting. She spotlights results ranging from the binding and subsequent deforming of Chinese women's feet, to periods of slavery, bondage, feudalism, apartheid, and other events across time. Related actions from political domination internationally, to spousal or child abuse on the homefront are addressed. Lindner looks at how widely divergent societies—from the Japan of Samurais to the Meso America of Aztecs, up to the modern Iraq at war—are driven by hierarchies of emotionally-fueled control with rigid domination. Combining classic literature with emerging research, Lindner explains how similar dynamics are at work also in contemporary societies of the West, albeit more covert. What is still lacking, almost everywhere, is access to the full range of our emotions, together with the skills to regulate these emotions so that they become a liberating force in our lives, play a constructive role for productive, fair, and so-called good conflict, and inform our institution building. Lindner concludes her book by laying out a road map for how to reduce domination and increase human dignity, both in our lives and in the world, by using the power of emotion to implement global systemic change.

*Honor, Humiliation, and Terror* Evelin Lindner,2017-07-04 Humankind has reached a boiling point. Hijacked by toxic competition for dominance, might has become right. The consequence is ubiquitous destruction executed through tools of terror. This book is a breathtaking, globally informed account of how we can reverse this rising tide, making dignity our destiny and legacy... before it is too late.

**Gender, Humiliation, and Global Security** Evelin Lindner,2010-02-26 An award-winning author and transdisciplinary social scientist offers a must-read guide to paradigm change for creating a socially and ecologically sustainable future. *Gender, Humiliation, and Global Security: Dignifying Relationships from Love, Sex, and Parenthood to World Affairs* aims at outlining the kind of change that needs to be made if we wish to create a less crisis-prone world. This audacious work describes a vision for an alternative future, showing how new approaches to love can dignify gender relations, sex, parenthood, and leadership, and how they can guide us to a world where all citizens can live dignified lives. The book is organized in three parts. Part I, *Gender, Humiliation, and Lack of Security in Times of Transition*, examines the nature of humiliation and how love and humiliation are influenced by large-scale, historical transitions such as globalization. Part II, *Gender, Humiliation, and Lack of Security in the World Today*, looks at love, sex, parenthood, and leadership and how they can be dignified. Part III, *Global Security through Love and Humility in the Future*, explores how love can be used to inspire psychological, social, cultural, and political strategies and to stimulate global, systemic change.

*Systemic Humiliation in America* Daniel Rothbart,2018-03-30 This volume explores contemporary social conflict, focusing on a sort of violence that rarely receives coverage in the evening news. This violence occurs when powerful institutions seek to manipulate the thoughts of marginalized people—manufacturing their feelings and fostering a sense of inferiority—for the purpose of disciplinary control. Many American institutions strategically orchestrate this psychic violence through tactics of systemic humiliation. This book reveals how certain counter-measures, based in a commitment to human dignity and respect for every person's inherent moral worth, can combat this violence. Rothbart and other contributors showcase various examples of this tug-of-war in the US, including the politics of race and class in the 2016 presidential campaign, the dehumanizing treatment of people with mental disabilities, and destructive parenting styles that foster cycles of humiliation and emotional pain.

*The Handbook of Conflict Resolution* Morton Deutsch,Peter T. Coleman,Eric C. Marcus,2006-09-18 The *Handbook of Conflict Resolution*, Second Edition is written for both the seasoned professional and the student who wants to deepen their understanding of the processes involved in conflicts and their knowledge of how to manage them constructively. It provides the theoretical underpinnings that throw light on the fundamental social psychological processes involved in understanding and managing conflicts at all levels—interpersonal, intergroup, organizational, and international. The *Handbook* covers a broad range of topics including information on cooperation and competition, justice, trust development and repair, resolving intractable conflict, and working with culture and conflict. Comprehensive in scope, this new edition includes chapters that deal with language, emotion, gender, and personal implicit theories as they relate to conflict.

*Following Foucault* Howard Richards,2018-02-28 [This book] e;... offers prospective readers the opportunity to assess the respective merits of a poststructuralist, archaeological/genealogical approach (Foucault's) and that of a neo-pragmatist, hyper-Popperian, problem-solving critical realist, Howard Richards, who values the fact that Foucault was sensitive to the need to defend and empower 'subjugated knowledges'.e; - Bert Olivier, University of the Free State

**Routledge Companion to Media and Humanitarian Action** Robin Andersen,Purnaka L. de Silva,2017-09-14 In this moment of unprecedented humanitarian crises, the representations of global disasters are increasingly common media themes around the world. The *Routledge Companion to Media and Humanitarian Action* explores the interconnections between media, old and new, and the humanitarian challenges that have come to define the twenty-first century. Contributors, including media professionals and experts in humanitarian affairs, grapple with what kinds of media language, discourse, terms, and campaigns can offer enough context and background knowledge to nurture informed global citizens. Case studies of media practices, content analysis and evaluation of media coverage, and representations of humanitarian emergencies and affairs offer further insight into the ways in which strategic communications are designed and implemented in field of humanitarian action.

*Introduction to Crisis and Trauma Counseling* Thelma Duffey,Shane Haberstroh,2020-04-14 "Now more than ever, this text is needed. The authors do a wonderful job of tackling the topics most critical in counseling trauma survivors. The resilience-based perspective and the focus on prevention is refreshing and reinforces the idea that people are survivors who are able to thrive even in the darkest and most difficult of times. This

book is essential reading for all counselors.” —Victoria E. Kress, PhD, Youngstown State University “This book provides an exceptional review of the contemporary sociopolitical issues, historical perspectives, and clinical skills critical to effective crisis and trauma healing. Incorporating issues of power, privilege, culture, ecological context, and relational dynamics affords a unique perspective and makes this resource a must for anyone working in the area of trauma and crisis.” —Frederic P. Bemak, EdD, Professor Emeritus, George Mason University, Founder and Director, Counselors Without Borders This introductory text integrates evidence-based models and best practices with relational-cultural theory, which is responsive to the many forms of traumatic stress and tragedies that clients experience. It is a unique contribution that emphasizes the power of the connections counselors form with clients and communities in crisis and the means by which counselors can intervene, inspire growth, and promote healing during times of tragedy and loss. Readers will gain vital skills as they learn real-life approaches to crisis work with diverse populations in a variety of settings, including individuals, families, communities, students, military personnel, violence survivors, and clients who are suicidal. The authors provide strength-based, trauma-informed applications of cognitive behavioral therapy, behavioral therapy, neurofeedback, mindfulness, and creative practices. In addition, each chapter contains compelling case examples, multiple-choice and essay questions, and key topic discussion prompts to guide student learning and promote classroom discussion. \*Requests for digital versions from ACA can be found on [www.wiley.com](http://www.wiley.com). \*To purchase print copies, please visit the ACA website \*Reproduction requests for material from books published by ACA should be directed to [permissions@counseling.org](mailto:permissions@counseling.org) Thelma Duffey, PhD, is professor and chair in the Department of Counseling at the University of Texas at San Antonio. **Global Citizen** Aksel Braanen Sterri, 2014 A globalized world places new demands on us as citizens. Global Citizen--Challenges and Responsibility in an Interconnected World gives insight and perspectives on what it means to be a citizen in a global world from Norway's most distinguished scholars. It poses and answers important questions, such as which duties and rights do we have as citizens in a globalized world; which institutions are just and sustainable, and how can a global ethic and a global worldview be reconciled with the fact that the lives of the greater part of the Earth's population is still local?

**Journey to Earthland** Paul Raskin, 2016-08-25 This inquiry builds a conceptual and strategic framework for understanding the contemporary global crisis and for shaping our world in transition. Its bedrock concern is the search for an organic planetary civilization, a vision that now opens before us as both possibility and exigency in an interdependent and dangerous century.

**Humiliation** William Ian Miller, 1993 'In an illuminating and darkly intelligent study, William Miller...has revealed...humiliation as the closet dominatrix she is, an emotion whose power to discipline us makes the world go round...Miller makes his pages blaze and roar...by throwing another handful of hollow complacencies upon the fire....The five essays making up this book...are about the persistence of the norm of reciprocity in our daily lives, about the ways in which shame and envy and especially humiliation sustain 'cultures of honor' to this day.'-Speculum

**The Polythink Syndrome** Alex Mintz, Carly Wayne, 2016-01-20 Why do presidents and their advisors often make sub-optimal decisions on military intervention, escalation, de-escalation, and termination of conflicts? The leading concept of group dynamics, groupthink, offers one explanation: policy-making groups make sub-optimal decisions due to their desire for conformity and uniformity over dissent, leading to a failure to consider other relevant possibilities. But presidential advisory groups are often fragmented and divisive. This book therefore scrutinizes polythink, a group decision-making dynamic whereby different members in a decision-making unit espouse a plurality of opinions and divergent policy prescriptions, resulting in a disjointed decision-making process or even decision paralysis. The book analyzes eleven national security decisions, including the national security policy designed prior to the terrorist attacks of 9/11, the decisions to enter into and withdraw from Afghanistan and Iraq, the 2007 surge decision, the crisis over the Iranian nuclear program, the UN Security Council decision on the Syrian Civil War, the faltering Kerry Peace Process in the Middle East, and the U.S. decision on military operations against ISIS. Based on the analysis of these case studies, the authors address implications of the polythink phenomenon, including prescriptions for avoiding and/or overcoming it, and develop strategies and tools for what they call Productive Polythink. The authors also show the applicability of polythink to business, industry, and everyday decisions.

**Constructive Controversy** David W. Johnson, 2015-06-18 Using the social psychological theory of 'constructive controversy', this book analyses the nature of disagreement among members of decision-making groups. It addresses questions such as: do differences of opinion enhance or obstruct creative thinking? And why do people make decisions based only on their own perspective without considering alternative viewpoints?

**Global Humanitarian Emergencies**, 2001

**The CNN Effect** Piers Robinson, 2005-07-08 The CNN Effect examines the relationship between the state and its media, and considers the role played by the news reporting in a series of 'humanitarian' interventions in Iraq, Somalia, Bosnia, Kosovo and Rwanda. Piers Robinson challenges traditional views of media subservience and argues that sympathetic news coverage at key moments in foreign crises can influence the response of Western governments.

**Relational-Cultural Therapy** Judith V. Jordan, 2017-10-30 Jordan explores the history, theory, and practice of relationship centered, culturally oriented psychotherapy. This new edition highlights new research on the effectiveness of RCT in a variety of real-world situations such as developing team-building exercises in workplaces, and providing a theoretical frame for an E.U.-sponsored conference on human trafficking.
