🔍 [Gin Rummy for Complete Beginners](#) Robert Ticker, 2021-01-11 Gin Rummy or Gin is a traditional card matching game that requires 2 players and a standard 52 playing card deck with kings high and aces low. In Gin Rummy, cards are worth their numerical value with aces worth 1 and face cards worth 10. The objective of Gin Rummy is to be the first to reach 100 points. Before game play can begin, a dealer must be selected. Each player draws one card from a shuffled deck. The player with the lowest card becomes the dealer. The dealer shuffles the deck and passes out 10 cards alternately to each player. The remaining cards are placed faced down in the center of the group to form the stock. The top card of the stock is flipped face up and placed next to the stock to form the discard pile. The player opposite of the dealer has the option to play first by taking the top card of the discard pile. If they choose to pass, the dealer has the choice to take the top card of the discard pile. If they also choose to pass, the other player begins the game by taking the top card from the stock pile. From the first draw onward, a player must pick up a card from either the stock or the discard pile at the beginning of their turn and remove one card from their hand to the discard pile at the end of their turn. The general goal is to get rid of deadwood by melding as many cards as you can in order to go knock or go gin. Deadwood are cards not in a meld. If no player can reach knock or gin by the time the stock pile has two cards left, no points are awarded. Get your copy today by scrolling up and clicking Buy Now to get your copy today

🔖 [Rummy for Complete Beginners](#) Robert Ticker, 2021-01-10 Rummy is a card game that is played with two decks of cards with total of two jokers. To win the rummy game a player must make a valid declaration by picking and discarding cards from the two piles given. One pile is a closed deck, where a player is unable to see the card that he is picking, while the other is an open deck that is formed by the cards discarded by the players. To win at rummy card game, the players have to group cards in valid sequences and sets. In rummy, the cards in each suit rank low to high starting with Ace, 2, 3, 4, 5, 6, 7, 8, 9, 10, Jack, Queen and King. Ace, Jack, Queen and King each has 10 points. The remaining cards have value equal to their face value. For example, 5 cards will have 5 points and so on. The objective of rummy card game is to arrange the 13 cards in valid sets and sequences. To win the game you need to make minimum 2 sequences, out of which one needs to be pure sequence and rest can be any valid sequence or sets. Without a pure sequence you cannot make a valid rummy declaration. This is one of the most important rummy rules. Get your copy today by scrolling up and clicking Buy Now to get your copy today
