**Chicago Renaissance** Liesl Olson,2017-08-22 A fascinating history of Chicago’s innovative and invaluable contributions to American literature and art from the late nineteenth to the mid-twentieth century This remarkable cultural history celebrates the great Midwestern city of Chicago for its centrality to the modernist movement. Author Liesl Olson traces Chicago’s cultural development from the 1893 World’s Fair through mid-century, illuminating how Chicago writers revolutionized literary forms during the first half of the twentieth century, a period of sweeping aesthetic transformations all over the world. From Harriet Monroe, Carl Sandburg, and Ernest Hemingway to Richard Wright and Gwendolyn Brooks, Olson’s enthralling study bridges the gap between two distinct and equally vital Chicago-based artistic “renaissance” moments: the primarily white renaissance of the early teens, and the creative ferment of Bronzeville. Stories of the famous and iconoclastic are interwoven with accounts of lesser-known yet influential figures in Chicago, many of whom were women. Olson argues for the importance of Chicago’s editors, bookstore owners, tastemakers, and ordinary citizens who helped nurture Chicago’s unique culture of artistic experimentation. **Benjamin Franklin Butler** Elizabeth D. Leonard,2022-03-10 Benjamin Franklin Butler was one of the most important and controversial military and political leaders of the Civil War and Reconstruction eras. Remembered most often for his uncompromising administration of the Federal occupation of New Orleans during the war, Butler reemerges in this lively narrative as a man whose journey took him from childhood destitution to wealth and profound influence in state and national halls of power. Prize-winning biographer Elizabeth D. Leonard chronicles Butler's successful career in the law defending the rights of the Lowell Mill girls and other workers, his achievements as one of Abraham Lincoln's premier civilian generals, and his role in developing wartime policy in support of slavery's fugitives as the nation advanced toward emancipation. Leonard also highlights Butler's personal and political evolution, revealing how his limited understanding of racism and the horrors of slavery transformed over time, leading him into a postwar role as one of the nation's foremost advocates for Black freedom and civil rights, and one of its notable opponents of white supremacy and neo-Confederate resurgence. Butler himself claimed he was always with the underdog in the fight. Leonard's nuanced portrait will help readers assess such claims, peeling away generations of previous assumptions and characterizations to provide a definitive life of a consequential man.

**A Descriptive Catalogue of the Music of Charles Ives** James B. Sinclair,1999-01-01 This catalogue of the music of Charles Ives contains 728 entries covering all of the prolific composer's works. James Sinclair's book presents information produced by recent Ives scholarship and generous commentary on each of Ives's compositions. It completes the work begun by musicologist John Kirkpatrick in 1955, when Ives's music manuscripts were deposited in the Yale Music Library. Ives's works are arranged alphabetically by title within genres. Whenever possible, each entry includes the main title and any other titles the composer may have used; the forces required; the duration; headings of movements; publication history; citation of the first known performance and first recording; the derivation of the work, listing music on which it may be modeled or from which it may borrow material; the principal literature treating the piece; and commentary on these and other matters. The catalogue also provides musical incipits for all Ives's extant works, seven appendixes (covering his work lists, 'Quality Photo' lists, his songbooks, a chronology of his life, recordings made by Ives, and his private publications and commercial publishers), three concordances, and four extensive indexes (addresses, names, titles, and musical borrowings).

*Mac OS X: The Missing Manual, Tiger Edition* David Pogue,2005-07-12 You can set your watch to it: As soon as Apple comes out with another version of Mac OS X, David Pogue hits the streets with another meticulous Missing Manual to cover it with a wealth of detail. The new Mac OS X 10.4, better known as Tiger, is faster than its predecessors, but nothing's too fast for Pogue and Mac OS X: The Missing Manual. There are many reasons why this is the most popular computer book of all time. With its hallmark objectivity, the Tiger Edition thoroughly explores the latest features to grace the Mac OS. Which ones work well and which do

not? What should you look for? This book tackles Spotlight, an enhanced search feature that helps you find anything on your computer; iChat AV for videoconferencing; Automator for automating repetitive, manual or batch tasks; and the hundreds of smaller tweaks and changes, good and bad, that Apple's marketing never bothers to mention. Mac OS X: The Missing Manual, Tiger Edition is the authoritative book that's ideal for every user, including people coming to the Mac for the first time. Our guide offers an ideal introduction that demystifies the Dock, the unfamiliar Mac OS X folder structure, and the entirely new Mail application. There are also mini-manuals on iLife applications such as iMovie, iDVD, and iPhoto, those much-heralded digital media programs, and a tutorial for Safari, Mac's own web browser. And plenty more: learn to configure Mac OS X using the System Preferences application, keep your Mac secure with FileVault, and learn about Tiger's enhanced Firewall capabilities. If you're so inclined, this Missing Manual also offers an easy introduction to the Terminal application for issuing basic Unix commands. There's something new on practically every page, and David Pogue brings his celebrated wit and expertise to every one of them. Mac's brought a new cat to town and we have a great new way to tame it.

Imagining Home Sidney J. Lemelle,Robin D.G. Kelley,1994-12-17 This collection of original essays brilliantly interrogates the often ambivalent place of Africa in the imaginations, cultures and politics of its “New World” descendants. Combining literary analysis, history, biography, cultural studies, critical theory and politics, Imagining Home offers a fresh and creative approach to the history of Pan-Africanism and diasporic movements. A critical part of the book’s overall project is an examination of the legal, educational and political institutions and structures of domination over Africa and the African diaspora. Class and gender are placed at center stage alongside race in the exploration of how the discourses and practices of Pan-Africanism have been shaped. Other issues raised include the myriad ways in which grassroots religious and cultural movements informed Pan-Africanist political organizations; the role of African, African-American and Caribbean intellectuals in the formation of Pan-African thought—including W.E.B. DuBois, C.L.R. James and Adelaide Casely Hayford; the historical, ideological and institutional connections between African-Americans and South Africans; and the problems and prospects of Pan-Africanism as an emancipatory strategy for black people throughout the Atlantic.
