NAD Sandeep Bagchee, This book is perhaps the first comprehensive guide to understanding all the aspects and finer nuances of Hindustani classical music. It is aimed at the serious listener, that is, someone who may not have had any formal lessons himself in this performing art, but who, nevertheless, has picked up an initial interest in listening to classical music, and is, therefore, seeking to know more about its underlying structure, system and traditions. By explaining in a straightforward and extremely readable style, the basic features of Indian music, how time and melody are structured, the main principles of raga delineation and development, and the various genres and styles of vocal as well as instrumental performances, the book aims to enhance the serious listener's understanding of Hindustani music, and heighten his appreciation of this art form. This book includes a glossary of musical terms, a select discography and a select bibliography.

The ideas in this book are critical for woodwind players at all levels, and have been battle-tested in university woodwind methods courses, private studios, and school band halls. Fundamental questions answered with newfound clarity include:- What should I listen for in good woodwind playing?- Why is breath support so important, and how do I do and teach it?- What is voicing? How does it relate to ideas like air speed, air temperature, and vowel shapes?- What things does an embouchure need to accomplish?- How can I (or my students) play better in tune?- What role does the tongue really play in articulation?- Which alternate fingering should I choose in a given situation?- How do I select the best reeds, mouthpieces, and instruments?- How should a beginner choose which instrument is the best fit? Melodica for Absolute Beginners. Play by Letter. Learn to Transpose Helen Winter, The Melodica is one of the best educational instruments. The Melodica is light and portable The Melodica develops both keyboard skills and breath control The Melodica is perfect for group play The Melodica works like a clarinet The Melodica plays like a piano The Melodica sounds like a harmonica or an accordion This book is for kids or adults who are absolute beginners in music. We tried to write it as simply as possible. That is why we use an “easy-to-play” visual aid so any beginner can play music quickly. Neither kids nor their parents have to read sheet music or have a musical background. No previous knowledge is necessary. None at all. Every song has a large and simple, color and letter-coded visual, along with traditional sheet music. The instruction is designed so that children begin with simple circles and gradually advance to reading notes using sheet music. We try to make this transition as easy as a game, where children advance to higher levels themselves. There is a total of 22 songs and 3 options to help children to begin to play right away. **PLAYING BY COLOR CIRCLE PLAY BY LETTER PLAY WITH THE MUSICAL STAFF** The player can first follow the circles and then repeat with the classic note symbols and staff. The helpful letters are always above the notes. There are 3 parts in this book. They are equal to 3 levels. Level 1. Songs that are played in one octave. All songs here appear twice: once written with circles and the next time with classic music notes. This will help kids remember the staff notes. For example: Mary Had a Little Lamb - Ver 1 - CIRCLES Mary Had a Little Lamb - Ver 1 - NOTES Level 2. In this part, you will find one version with both circles and notes and a more advanced version of the song with notes and musical notation. For example: Hot Cross Buns - Ver 1 - CIRCLES Hot Cross Buns - Ver 1 - NOTES Hot Cross Buns - Ver 2 - NOTES (Here the player will play songs in a different key and learn to transpose). Generally, the version of the song written with sheet music is a little bit more complex than a letter-coded version. Such versions already have music notations such as rests or beams, etc. You can find an illustrated explanation of the notation at the end of this book. Level 3. Here, the first two songs are versions of the same melody (different combinations of notes) written with circles and notes. This is important so that the beginner can see how the same melody can be played in different keys. First of all, this book is addressed to newcomers to any keyboard instrument (such as Piano or Synthesizer, not only Melodica). Also, it is a perfect self-training guide for children and beginner adults to mastering the challenges of percussion instruments such as kalimba, marimba, xylophone, glockenspiel, or even color bell set.
