Health, Healing and the Church's Mission Willard M. Swartley, 2012-08-02

Does the Christian community have the resources to develop a coherent response to health care challenges today? Accounting for biblical, theological and church-historical streams, Willard Swartley divulges a long tradition of healing and health care inherited by Christians today. Beginning with in-depth studies of Old and New Testament understandings of healing, the book surveys three millennia of biblical and theological teaching and practice in congregational life and mission. Along the way Swartley uncovers how Christians have understood the role of the church and other institutions in providing health and healing. The book concludes with an attempt to synthesize these biblical, historical and moral perspectives to help all Christians, including those in health care professions, respond to our current health care challenges.

Soul Food Adrian Miller, 2013-08-15 2014 James Beard Foundation Book Award, Reference and Scholarship Honor Book for Nonfiction, Black Caucus of the American Library Association In this insightful and eclectic history, Adrian Miller delves into the influences, ingredients, and innovations that make up the soul food tradition. Focusing each chapter on the culinary and social history of one dish--such as fried chicken, chitlins, yams, greens, and red drinks--Miller uncovers how it got on the soul food plate and what it means for African American culture and identity. Miller argues that the story is more complex and surprising than commonly thought. Four centuries in the making, and fusing European, Native American, and West African cuisines, soul food--in all its fried, pork-infused, and sugary glory--is but one aspect of African American culinary heritage. Miller discusses how soul food has become incorporated into American culture and explores its connections to identity politics, bad health raps, and healthier alternatives. This refreshing look at one of America's most celebrated, mythologized, and maligned cuisines is enriched by spirited sidebars, photographs, and twenty-two recipes.

Imagination and the Journey of Faith Sandra M. Levy, 2008-09-05 What makes us open to mystery, to glimpses of the Transcendent in our daily lives? The power of the imagination, according to Sandra Levy - a power that has been seriously depleted in today's postmodern culture. To address and redress this deficit, Levy explores how the imagination expresses itself - through ritual, music, poetry, art, story - and focuses on specific practices that can exercise and enrich our spiritual capacity, thus opening us up to divine encounter. *Imagination and the Journey of Faith* will speak to all readers, whether religious believers or not, who wish to strengthen and deepen the imaginative power of their spiritual lives.--BOOK JACKET.

Diamond Gems David Ray, 2008-10 What does it mean to be a God-glorifying baseball player? *Diamond Gems: Life Lessons between the Lines* reminds Christian athletes and coaches of God's mandate to proclaim the excellencies of Him while on the field of play. Each chapter teaches a fundamental baseball principle and uses that concept as a means to establish an even greater connection with an essential doctrine of the Christian faith. This book is much more than a Christian devotional about baseball. It is a strong reminder of the glorious gospel of Jesus Christ and how it manifests itself through the life of a Christian baseball player. It is a helpful tool for those who desire to establish a stronger foundation both as a Christian and as a baseball player. David Ray is a former high school baseball coach and currently serves as principal of Lorraine Elementary School in Georgia. He played baseball at the University of Kentucky and has been drafted professionally by the Oakland A's, the Los Angeles Dodgers, and the Kansas City Royals. He also earned a Master of Divinity degree at New Orleans Baptist Theological Seminary and a Doctor of Education degree from The Southern Baptist Theological Seminary. He and his wife, Mary Pat, live in Conyers, Georgia, and are the parents of two children, Rebekah and Jonathan.

Ancient Astronomy and Celestial Divination Noel M. Swerdlow, 1999 This volume presents recent work on Babylonian celestial divination and on the Greek inheritors of the Babylonian tradition. In the ancient world, the collection and study of celestial phenomena and the interpretation of their prophetic significance, especially as applied to kings and nations, were closely related sciences carried out by the same scholars. Both ancient sources and modern research agree that astronomy and celestial divination arose in Babylon. Only in the late nineteenth century, however, did scholars begin to identify and decipher the original Babylonian sources, and the process of understanding those sources has been long and difficult. This volume presents recent work on Babylonian celestial divination and on the Greek inheritors of the Babylonian tradition. Both philological and mathematical work are included. The essays shed new light on all of the known textual sources, including the omen series *Enuma Anu Enlil*, which contains omens from as far back as the early second or even third millennium, and the earliest personal horoscopes, from about 400 B.C., as well as the *Astronomical Diaries*, ephemerides, and other observational and mathematical texts. One essay concerns astronomical papyri that confirm the extensive transmission of Babylonian methods into Greek; a study of Ptolemy's lunar theory suggests that Ptolemy relied more on his own observations than previously thought; and an analysis of Theon's commentary on Ptolemy's *Handy Tables* shows that Theon explicated their meaning both conscientiously and competently.
