The Oldest Vocation Clarissa W. Atkinson, 2019-03-15 According to an old story, a woman concealed her sex and ruled as pope for a few years in the ninth century. Pope Joan was not betrayed by a lover or discovered by an enemy; her downfall came when she went into labor during a papal procession through the streets of Rome. From the myth of Joan to the experiences of saints, nuns, and ordinary women, *The Oldest Vocation* brings to life both the richness and the troubling contradictions of Christian motherhood in medieval Europe. After tracing the roots of medieval ideologies of motherhood in early Christianity, Clarissa W. Atkinson reconstructs the physiological assumptions underlying medieval notions about women's bodies and reproduction; inherited from Greek science and popularized through the practice of midwifery, these assumptions helped shape common beliefs about what mothers were. She then describes the development of spiritual motherhood both as a concept emerging out of monastic ideologies in the early Middle Ages and as a reality in the lives of certain remarkable women. Atkinson explores the theological dimensions of medieval motherhood by discussing the cult of the Virgin Mary in twelfth-century art, story, and religious expression. She also offers a fascinating new perspective on the women saints of the later Middle Ages, many of whom were mothers; their lives and cults forged new relationships between maternity and holiness. *The Oldest Vocation* concludes where most histories of motherhood begin—in early modern Europe, when the family was institutionalized as a center of religious and social organization. Anyone interested in the status of motherhood, or in women's history, the cultural history of the Middle Ages, or the history of religion will want to read this book.

The Flickering Storms, Life Support, Heaven's Door and Back Ella Glover, RN, 2022-01-11 This book was written to inform readers, Christians, and non-Christians alike, about how the Lord will go before you in times of grave illness, turmoil, and diseases. He'll always see you through the thick and thin of everything. If life has knocked you down with storm after storm, get ready to pick yourself back up and give your problems, illnesses, trials, and tribulations to the Lord. Build a relationship with God through His word. God is on top of the mountain and in the valley. God is a waymaker, a healer, a miracle worker, a promise keeper, and the light in darkness. Have faith in God, no matter what, and trust His word always. Listen for His soft voice. He'll never stir you wrong. For I know the thoughts that I think toward you, said the Lord, thoughts of peace, and not of evil, to give you an unexpected end. Then shall ye call upon me, and ye shall go and pray unto me, and

I will hearten unto you. (Jeremiah 29:11-12 KJV)

Jugaad Time Amit S. Rai,2019-02-05 In India, the practice of jugaad—finding workarounds or hacks to solve problems—emerged out of subaltern strategies of negotiating poverty, discrimination, and violence but is now celebrated in management literature as a disruptive innovation. In Jugaad Time Amit S. Rai explores how jugaad

operates within contemporary Indian digital media cultures through the use of the mobile phone. Rai shows that despite being co-opted by capitalism to extract free creative labor from the workforce, jugaad is simultaneously a practice of everyday resistance, as workers and communities employ hacks to oppose corporate, caste, and gender power. Locating the tensions surrounding jugaad—as both premodern and postdigital, innovative and oppressive—Rai maps how jugaad can be used to undermine neoliberal capitalist media ecologies and nationalist politics.

Finding Me in the Midst of It All Ruth Gold, 2019-02-01 After thirty years of being in an unhealthy relationship and marriage, Ruth Gold decided that she had had enough. She went through many years of ups and downs with her husband regarding hope, love, religious beliefs, and having children. Despite all the challenges she endured, she stayed in the marriage until she gained the strength to pick herself up and leave. Ruth Gold hopes that by sharing her testimony, she will encourage women of all ages who are dealing with the same kinds of problems to be able to seek a relationship with God, who will lead and direct them in living a happier and healthier life. In *Finding Me in the Midst of It All*, Ruth Gold discusses about choosing the wrong mate, settling for a relationship despite what you know or find out, surviving adulterous affairs and children born from those affairs, breaking the cycle of repeated affairs, feeling as if you are trapped with no way out, and most of all, establishing a relationship with God and following his voice instead of a man's.

Under the Weather Stephanie Sodero, 2022-11-15 Humans and human mobility, including driving and flying, are entangled with the climate emergency. Fossil-fuelled mobility worsens severe weather, and in turn, severe weather disrupts human mobility. A shift to zero-emission vehicles is critical but insufficient to repair the damage or prepare communities for the coming disruptions severe weather will bring. In *Under the Weather* Stephanie Sodero explores the intersection between human mobility and severe weather. Anchored in two Atlantic Canadian hurricane case studies, Hurricane Juan in Mi'kma'ki/Nova Scotia in 2003 and Hurricane Igor in Ktaqmkuk/Newfoundland in 2010, the book contributes to contemporary cultural and policy discussions by offering five practical recommendations

- revolutionize mobility, prioritize vital mobility of medical goods and services, embrace ecological mobilities, rebrand redundancy, and think flexibly – for how mobility can be reimagined to work with, rather than against, the climate in ways that also benefit the health, education, and economy of local communities. This ecological approach to mobilities sheds light on extreme mobility dependency and the impact of mobility disruptions on the ground in Canadian communities. Focusing on the entangled relationship between human mobility and the climate, *Under the Weather* examines how communities can transform their relationship with mobility to enable greater resilience.

Muslims and American Popular Culture [2 volumes] Anne R. Richards,Iraj Omidvar,2014-02-10 Offering readers an engaging, accessible, and balanced account of the contributions of American Muslims to the contemporary United States, this important book serves to clarify misrepresentations and misunderstandings regarding Muslim Americans and Islam. Unfortunately, American mass media representations of Muslims—whether in news or entertainment—are typically negative and one-dimensional. As a result, Muslims are frequently viewed negatively by those with minimal knowledge of Islam in America. This accessible two-volume work will help readers to construct an accurate framework for understanding the presence and depictions of Muslims in American society. These volumes discuss a uniquely broad array of key topics in American popular culture, including jihad and jihadis; the hejab, veil, and burka; Islamophobia; Oriental despots; Arabs; Muslims in the media; and mosque burnings. *Muslims and American Popular Culture* offers more than 40 chapters that serve to debunk the overwhelmingly negative associations of Islam in

American popular culture and illustrate the tremendous contributions of Muslims to the United States across an extended historical period.

People and Computers XVI - Memorable Yet Invisible Xristine Faulkner, Janet Finlay, Francoise Detienne, 2012-12-06 For the last 20 years the dominant form of user interface has been the Graphical User Interface (GUI) with direct manipulation. As software gets more complicated and more and more inexperienced users come into contact with

computers, enticed by the World Wide Web and smaller mobile devices, new interface metaphors are required. The increasing complexity of software has introduced more options to the user. This seemingly increased control actually decreases control as the number of options and features available to them overwhelms the users and 'information overload' can occur (Lachman, 1997). Conversational anthropomorphic interfaces provide a possible alternative to the direct manipulation metaphor. The aim of this paper is to investigate users reactions and assumptions when interacting with anthropomorphic agents. Here we consider how the level of anthropomorphism exhibited by the character and the level of interaction affects these assumptions. We compared characters of different levels of anthropomorphic abstraction, from a very abstract character to a realistic yet not human character. As more software is released for general use with anthropomorphic interfaces there seems to be no consensus of what the characters should look like and what look is more suited for different applications. Some software and research opts for realistic looking characters (for example, Haptik Inc., see <http://www.haptik.com>). others opt for cartoon characters (Microsoft, 1999) others opt for floating heads (Dohi & Ishizuka, 1997; Takama & Ishizuka, 1998; Koda, 1996; Koda & Maes, 1996a; Koda & Maes, 1996b).
