All Creation is Groaning Carol J. Dempsey, Russell A. Butkus, 1999 This multi-academic perspective on contemporary environmental issues reminds us of our oneness with the natural world and what that calls us to as moral creatures. Fashioned as a series of stories based on the model of biblical narrative, these seemingly multivalent voices and perspectives are joined together with biblical stories, references, and theological reflection to create in *All Creation Is Groaning* a seamless story that is both provocative and revelatory. *All Creation Is Groaning* provides a clear Vision of living life in a sacred universe. This Vision is linked to the biblical Vision of justice and righteousness for all of creation, and humankind's responsibility to hasten the Vision through a call to ethical practice. Critical and hermeneutical, this book reflects an interdisciplinary approach so as to build bridges of understanding between the Bible and contemporary disciplines. Chapters are *Stories from the Heart, - *New Ways of Knowing and Being Known, - *An Islamic Perspective on the Environment, - *Christian Values, Technology, and the Environment Crisis, - *Feeding the Hungry and Protecting the Environment, - *Mental Cartography in a Time of Environmental Crisis, - *Toward an Understanding of International Geopolitics and the Environment, - *Sustainability: An Eco- Theological Analysis, - *The Stewardship of Natural and Human Resources, - *Development of Environmental Responsibility in Children, - *An Ecological View of Elders and Their Families: Needs for the Twenty-First Century, - *Symphonies of Nature: Creation and Re-creation, - *A Sense of Place, - and *Hope Amidst Crisis: A Prophetic Vision of Cosmic Redemption.

Creation, Nature and Hope in 4 Ezra Jonathan A. Moo, 2011-05-18 This exegetical study of creation and nature in 4 Ezra argues that this first-century Jewish apocalypse's profound pessimism concerning humankind and the present age is matched by a surprisingly robust belief in the goodness of the created order. 4 Ezra presents the natural world as standing with God over and against corrupt humankind, envisions substantial elements of continuity between the ages and hints that those parts of the earth that remain unsullied by humankind still witness to God's sovereignty, love and justice and even serve as material pointers to the new creation. This study calls into question the persistent assumption that apocalypticism and the 'apocalyptic eschatology' of the historical apocalypses in particular necessarily entails a profound dualism. Emerging as it does from an experience of historical disaster and unresolved questions of theodicy, 4 Ezra especially is often considered an apocalypse in which the doctrine of the two ages has been radicalised to the extent that creation, history and life in this world have lost their meaning or significance. The results of this study, however, indicate that while 4 Ezra considers the world of humankind to be corrupted and corrupting, in the natural world the creator's sovereignty is not so obscured, and there his original intentions for creation can still be perceived. This study provides a fresh reading of 4 Ezra that takes seriously the book's unity and coherence. Its conclusions suggest that it may be best to abandon the label 'apocalyptic eschatology' given its potential mask the interesting complexities and mix of continuity and discontinuity that attend the portrayal of creation, nature and hope in an apocalypse like 4 Ezra.

Perspectives on an Evolving Creation Keith B. Miller, 2003-09-25 According to the authors of this book, who explore evolutionary theory from a clear Christian perspective, the common view of conflict between evolutionary theory and Christian faith is mistaken. Written by contributors representing the natural sciences, philosophy,

theology, and the history of science, this thought-provoking work is informed by both solid scientific knowledge and keen theological insight. The three sections of the book address (1) relevant biblical, historical, and scientific background, (2) the scientific evidence for an evolving creation, and (3) theological issues commonly raised in connection with evolution, including the nature of God's creative activity, the meaning of the miraculous, and the uniqueness of humankind. Woven through the volume are short meditations designed to direct readers toward worshiping the God of providence. Contributors: Laurie J. Braaten Warren S. Freedom and Self-Creation Katherin A. Rogers, 2015-10-01 Katherin A. Rogers presents a new theory of free will, based on the thought of Anselm of Canterbury. We did not originally produce ourselves. Yet, according to Anselm, we can engage in self-creation, freely and responsibly forming our characters by choosing 'from ourselves' (a se) between open options. Anselm introduces a new, agent-causal libertarianism which is parsimonious in that, unlike other agent-causal theories, it does not appeal to any unique and mysterious powers to explain how the free agent chooses. After setting out Anselm's original theory, Rogers defends and develops it by addressing a series of standard problems levelled against libertarianism. These include the problem of 'internalism—in that an agent is not the source of his original motivations, how can the structure of his choice ground his responsibility?; the problem of Frankfurt-style counterexamples—Do we really need open options to choose freely?; and the problem of luck—If nothing about an agent before he chooses explains his choice, then isn't the choice just dumb luck? (The Anselmian answer to this perennial criticism is especially innovative, proposing that the critic has the relationship between choices and character exactly backwards.) Finally, as a theory about self-creation, Anselmian Libertarianism must defend the tracing thesis, the claim that an agent can be responsible for character-determined choices, if he, himself, formed his character through earlier a se choices. Throughout, the book defends and exemplifies a new methodological suggestion: someone debating free will ought to make his background world view explicit. In the on-going debate over the possibility of human freedom and responsibility, Anselmian Libertarianism constitutes a new and plausible approach.
