Britain Observed V. V. Ovchinnikov,2014-05-19 Britain Observed: A Russian's View focuses on the understanding of the customs, identity, political and social structure, and societal relations of the British. The book first underscores some of the misperceptions of the British of Russia, the author's country. The text also highlights the experiences of the author when he first arrived in Britain, noting the process of acclimatization that he has undergone. The manuscript emphasizes the appreciation of the author of the sceneries in England, as the sloping hills, fertile meadows, and village church spires that emerge from the hilltops are mentioned. The author also signifies that England is the kingdom of private life and says that neighbors maintain a certain degree of secrecy, and that they discourage intrusion into their private lives. The text also conveys how the author perceives the structure of the government and how Buckingham Palace influences the functions and operations of the government. The book is a fine reference for readers who want to learn the traditions, political considerations, and identity of the British.

Emit Eht Ratna Srivastava,2020-11-13 Move over superheroes, superpowers, men, machines, and weapons with unending noisy ammo. This time when humanity is in danger, it is a humble but not-so-humble kindergarten teacher who must save the world with just the tools of her trade. In the process, she learns the mystery of time, which may solve the puzzle archaeologists and historians in the real world have been struggling to discover. A hypersonic plane. A hypersonic love story. An apocalypse too great for words. A survival technique hinging on the powers of the mind that can defy death and thousands of years—thirty-five thousand years to be exact! Emit Eht is a tale about discovering secrets of our past and asking ourselves if what we know about human history is all a lie. Is our past more closely connected with our future than we know?

Baby It's HOT Outside Paul Murdock,2020-08-25 Lieutenant Commander Reef Klima commands a SEAL team. The Joint Special Operations Command orders it to rescue a US Marine, the Duke of Edinburgh, and others from an al-Qaeda cell that has taken them to a lakeside house in Syria. Senior Chief Emma Bartram, the team sniper, and Major Magnus McKellar, Special Boat Service, are involved in the rescue. During it, the leader of the cell hits Klima on the head. The blow causes a traumatic brain injury, and Klima becomes an 'acquired savant;' he develops prodigious mathematical and other abilities. The Navy places him on medical-hold, assigns him to the Joint Interagency Task Force in Key West. He also becomes an advisor to the Army Special Forces Underwater Operations School. While recovering from TBI and working as a JIATF weather forecaster, Klima uses his Ph.D. in applied mathematics to help NOAA with climate models. He is also learning to cope with an explosive temper. The Navy promotes Bartram to ensign and assigns her to JIATF. The man who caused Klima's TBI leads a cell to Key West and they attack SFUWO. Klima and Green Berets fight them and take one prisoner. The prisoner claims the cell bought a nuclear weapon in Cuba that it's in the keys: left in Cuba during the Missile Crisis. JIAF helps the Department of Energy search for the nuke. Bartram confronts a suicide bomber driving a boat intending to kill spectators watching a superpower boat race. The leader of the cell flees Key West in a stolen Cessna and Reef and other operators follow him to Cuba.
