Dictionary of the c Inscriptions (2 vols) Hoftijzer,Karel Jongeling,2015-11-02 The North-West Semitic epigraphic contributes considerably to our understanding of the Old Testament and of the Ugaritic texts and to our knowledge of the North-West Semitic languages as such. This dictionary is concerned with the North-West Semitic material found in inscriptions, papyri and ostraca in Phoenician, Punic, Hebrew, various forms of Aramaic, Ammonite, Edomite, the language of Deir Alla et cetera. The material covers the period from ca. 1000 B.C. to ca. 300 A.D. Besides translations, the entries include discussions and full references to scholarly literature. The book is a translated, updated and considerably augmented edition of Jean & Hoftijzer, Dictionnaire des inscriptions sémitiques de l'ouest. The additions concern newly found texts as well as references to new scholarly literature. The book is an indispensable tool for research in North-West Semitic epigraphy, on the Old Testament and on Ugaritic texts, and for Semitic linguistics. Please note that this version is an unrevised reprint of the original version published in 1995.

A Comparative Lexicon of Ugaritic and Canaanite Issam K. H. Halayqa,2008 I.K.H. Halayqa investigates lexical correspondences of Ugaritic and Canaanite: Ugaritic was a spoken and written language in an area adjacent to various Canaanite dialects, such as the language of the El-Amarna letters from the city states in Syria, Lebanon and Palestine and Phoenician in Lebanon. Ugaritic was still a spoken language in the El-Amarna period, to which Old Canaanite belongs. Therefore the generic relationship between Ugaritic and Canaanite cannot be dispensed. It therefore seems appropriate to compare etymologically all the Ugaritic lexemes to those of the Northwest Semitic languages, in particular with the Canaanite branch. The position of the Ugaritic language among the Northwest Semitic languages remains a question of lively debate. Ugaritic has been grouped with Amorite, Canaanite, Arabic and Old South Arabic. It has even been considered early Hebrew or early Phoenician or has been seen as a separate Northwest Semitic language distinct from Canaanite and Aramaic. Nevertheless, neither general acceptance nor satisfactory classification has been firmly established. The process of searching and investigating all the possible Canaanite correspondences for 2254 Ugaritic lexemes has lead to the emergence of our lexicon, which contains 1643 certain and uncertain lexemes (1302 + 341) In other words, of 2254 lexemes only 1643 have been found with certain and uncertain Canaanite cognates.

The Other Side of Innovation Vijay Govindarajan,Chris Trimble,2010-09-02 In their first book, Ten Rules for Strategic Innovators, the authors provided a better model for executing disruptive innovation. They laid out a three-part plan for launching high-risk/high-reward innovation efforts: (1) borrow assets from the existing firms, (2) unlearn and unload certain processes and systems that do not serve the new entity, and (3) learn and build all new capabilities and skills. In their study of the Ten Rules in action, Govindarajan and Trimble observed many other kinds of innovation that were less risky but still critical to the company's ongoing success. In case after case, senior executives expected leaders of innovation initiatives to grapple with forces of resistence, namely incentives to keep doing what the

company has always done--rather than develop new competence and knowledge. But where to begin? In this book, the authors argue that the most successful everyday innovators break down the process into six manageable steps: 1. Divide the labor 2. Assemble the dedicated team 3. Manage the partnership 4. Formalize the experiment 5. Break down the hypothesis 6. Seek the truth. The Other Side of Innovation codifies this staged approach in a variety of contexts. It delivers a proven step-by-step guide to executing (launching, managing, and measuring) more modest but necessary innovations within large firms without disrupting their bread-and-butter business.
