Corporate Social Responsibility in the Health Sector Samuel O. Idowu, Mary T. Idowu, Abigail O. Idowu, 2023-02-28 The pandemic that struck in late 2019 - the coronavirus, commonly referred to as COVID-19 - affected every country in the world. This book examines how the pandemic has impacted healthcare institutions worldwide, and focuses on the international experience of COVID-19 in terms of healthcare delivery since 2019 and today. It highlights how healthcare facilities around the world have managed and continue to manage their obligations to their citizens. The book's goal is to improve our understanding of the many negative and positive impacts of the pandemic on various aspects of our lives, including the health aspect, and how healthcare institutions could expand their ability to manage similar pandemics in the future without seriously compromising their ability to address other, regular health issues. At the same time, it takes a closer look at CSR, sustainability, ethics, and governance issues related to the pandemic, as well as current CSR practices in each of the countries reviewed. Given its scope, the book will be of interest to a broad readership including researchers, practitioners, and students concerned with the pandemic's societal and public health implications.

Microbiological Identification using MALDI-TOF and Tandem Mass Spectrometry Haroun N. Shah, Saheer E. Gharbia, Ajit J. Shah, Erika Y. Tranfield, K. Clive Thompson, 2023-03-29 Microbiological Identification using MALDI-TOF and Tandem

Mass Spectrometry Detailed resource presenting the capabilities of MALDI mass spectrometry (MS) to industrially and environmentally significant areas in the biosciences Microbiological Identification using MALDI-TOF and Tandem Mass Spectrometry fulfills a need to bring the key analytical technique of MALDI mass spectrometric analysis into routine practice by specialists and non-specialists, and technicians. It informs and educates established researchers on the development of techniques as applied to industrially significant areas within the biosciences. Throughout the text, the reader is presented with recognized and emerging techniques of this powerful and continually advancing field of analytical science to key areas of importance. While many scientific papers are reporting new applications of MS-based analysis in specific foci, this book is unique in that it draws together an incredibly diverse range of applications that are pushing the boundaries of MS across the broad field of biosciences. Contributed to by recognized experts in the field of MALDI MS who have been key players in promoting the advancement and dissemination of authoritative information in this field, Microbiological Identification using MALDI-TOF and Tandem Mass Spectrometry covers sample topics such as: Oil microbiology, marine and freshwater ecosystems, agricultural and food microbiology, and industrial waste microbiology Bioremediation and landfill sites microbiology, microbiology of inhospitable sites (e.g. Arctic and Antarctic, and alkaline and acidic sites, and hot temperatures) Veterinary, poultry and animals, viral applications of

MS, and antibiotic resistance using tandem MS methods Recent developments which are set to transform the use of MS from its success in clinical microbiology to a wide range of commercial and environmental uses Bridging the gap between measurement and key applications, this text is an ideal resource for industrial and environmental analytical scientists, including technologists in the food industry, pharmaceuticals, and agriculture, as well as biomedical scientists, researchers, clinicians and academics and scientists in bio-resource centers.

Reporting for Duty Andrew Mills, 2022-12-13 This memoir describes the things the author has done in his life to promote justice and peace in America's foreign and domestic policies. But it is more than a memoir; it also includes background for, and analysis of, the peace and justice issues involved. The author says: "I love my country deeply, and so I want it to live up to its promise of brotherhood, truth, and fairness, and to commit to being a peaceful neighbor among the community of nations." As detailed in the book, the author's life has been one adventure after another as he undertook

actions for justice and peace—for example, when he participated in part of the civil rights march from Selma to Montgomery, Alabama, in 1965 and when he was in a group that was kidnapped by the Contras in Costa Rica in 1985. The book emphasizes that peace work doesn't stop with peace conferences or praying for peace. It is facing the hard truths of the issues and finding the most effective ways to make peace. His primary intent in writing the book is to encourage people everywhere to invest themselves in justice and peace initiatives in their own countries.

The Palgrave Handbook of Sustainable Peace and Security in Africa Dan Kuwali, 2022-05-24 This handbook takes stock of the African Union's Vision 2020 to rid the African continent of wars, civil conflicts, human rights violations, and humanitarian disasters – including violent conflicts and genocide – and provides recommendations on how to address contemporary threats to peace and security in Africa. Routledge Handbook for Creative Futures Gabrielle Donnelly, Alfonso

Montuori, 2022-12-30 As the uncertainty of global and local contexts continues to amplify, the Routledge Handbook for Creative Futures responds to the increasing urgency for reimagining futures beyond dystopias and utopias. It features essays that explore the challenges of how to think about compelling futures, what these better futures might be like, and what personal and collective practices are emerging that support the creation of more desirable futures. The handbook aims to find a sweet spot somewhere between despair and naïve optimism, neither shying away from the massive socio-environmental planetary challenges currently facing humanity nor offering simplistic feel-good solutions. Instead, it offers ways forward—whether entirely new perspectives or Indigenous and Traditional Knowledge perspectives that have been marginalized within modernity—and shares potential transformative practices. The volume contains contributions from established and emerging scholars, practitioners, and scholar-practitioners with diverse backgrounds and experiences: a mix of Indigenous, Black, Asian, and White/Caucasian contributors, including women, men, and trans people from around the world, in places such as Kenya, India, US, Canada, and Switzerland, among many others. Chapters explore critical concepts alongside personal and collective practices for creating desirable futures at the individual, community, organizational, and societal levels. This scholarly and accessible book will be a valuable resource for researchers and students of leadership studies, social innovation, community and organizational development, policy studies,

futures studies, cultural studies, sociology, and management studies. It will also appeal to educators, practitioners, professionals, and policymakers oriented toward activating creative potential for life-affirming futures for all.

America for Americans Erika Lee, 2019-11-26 This definitive history of

American xenophobia is essential reading for anyone who wants to build a more inclusive society (Ibram X. Kendi, New York Times-bestselling author of *How to Be an Antiracist*). The United States is known as a nation of immigrants. But it is also a nation of xenophobia. In *America for Americans*, Erika Lee shows that an irrational fear, hatred, and hostility toward immigrants has been a defining feature of our nation from the colonial era to the Trump era. Benjamin Franklin ridiculed Germans for their strange and foreign ways. Americans' anxiety over Irish Catholics turned xenophobia into a national political movement. Chinese immigrants were excluded, Japanese incarcerated, and Mexicans deported. Today, Americans fear Muslims, Latinos, and the so-called browning of America. Forcing us to confront this history, Lee explains how xenophobia works, why it has endured, and how it threatens America. Now updated with an epilogue reflecting on how the coronavirus pandemic turbocharged xenophobia, *America for Americans* is an urgent spur to action for any concerned citizen.

Pregnant While Black Monique Rainford, 2023-04-11 A tragedy is unfolding all around us and is receiving well overdue attention. Black women are three times more likely to die from pregnancy than their white peers. But Dr. Monique Rainford is working to better understand these disparities and do something about them. *Pregnant While Black* is a hopeful exploration of the issues pregnant Black women face in America. Within these pages, Dr. Rainford draws on over twenty years of experience working in obstetrics and gynecology

to offer a primer on Black pregnancies and how to better care for them. She shares the successes and testimonies of Black women who have struggled during pregnancy and childbirth, anchoring the stories of these women with carefully researched facts. Despite medical advances over the last twenty years, for Black women, the overwhelming dangers of carrying and delivering children remain and it only seems to be getting worse. In *Pregnant While Black*, Rainford begins the work of repairing the damage of the past with an examination of the conditions that plague Black pregnancies. This important book carries the hopes and dreams of a generation looking to effect change, here and now.

Disorder Peter A. Swenson, 2021-11-30 An incisive look into the problematic relationships among medicine, politics, and business in America and their effects on the nation's health A comprehensive, revealing and surprising account of the history of American medicine.--David Blumenthal, M.D., coauthor of *The Heart of Power: Health and Politics in the Oval Office* and president of the Commonwealth Fund This book is both an important contribution to the history of the American medical profession (and its impact on society as a whole), and a reminder of the malleable, historically contingent nature of its identity and ethos.--Scott H. Podolsky, M.D., author of *The Antibiotic Era* Meticulously tracing the dramatic conflicts both inside organized medicine and between the medical profession and the larger society over quality, equality, and economy in health care, Peter A. Swenson

illuminates the history of American medical politics from the late nineteenth century to the present. This book chronicles the role of medical reformers in the progressive movement around the beginning of the twentieth century and the American Medical Association's dramatic turn to conservatism later. Addressing topics such as public health, medical education, pharmaceutical regulation, and health-care access, Swenson paints a disturbing picture of the entanglements of medicine, politics, and profit seeking that explain why the United States remains the only economically advanced democracy without universal health care. Swenson does, however, see a potentially brighter future as a vanguard of physicians push once again for progressive reforms and the adoption of inclusive, effective, and affordable practices.

Justice Matters Kyungsig Samuel Lee, Danjuma G. Gibson, 2022-09-29 The nine chapters in this book, along with a critical introduction, address complex theological issues relating to structural inequalities of our society, exacerbated by the experience of the COVID-19 pandemic. Pastoral theology as an academic discipline is not a value-free enterprise. This book strives to speak against all forms of injustice and to advocate for those who suffer under existing structural inequalities because such a liberative and social transformative task constitutes the fundamental work of pastoral theology. Each chapter in this book analyses how private problems of individuals are occurring within the immediate world of experience with public issues historically, socially, and politically. As a whole, this book addresses

racial injustice, ableism, foster family care, and issues faced by Christian churches during the COVID-19 pandemic. The chapters in this book were originally published as a special issue of the Journal of Pastoral Theology.

Politics Inc. John Raidt, 2022-03-02 The book examines the dynamics driving the country's deeply troubled political culture and highlights reforms needed in the post-Trump era to strengthen US democracy. The author paints a clear and sobering portrait of a mercenary election industry and its support structure tailored to perpetuate and exploit America's social and political division. He shows how corrosive partisan animosity, dysfunctional political institutions, and even Trumpism are symptoms of a broken system dominated by a self-serving party duopoly. Having hacked the democratic process for its own ends, the cartel's intrigues continue to undermine functional compromise and the virtues essential for self-governance. Without timely structural reform outlined in the narrative, Politics Inc., abetted by technological, social, and cultural factors, will continue to undermine the country from the far right and far left. The stakes could not be higher. At risk is the nation's security and the future of democracy at home and around the globe.

Seeds of the Church Teun van der Leer, Henk Bakker, Steven R. Harmon, Elizabeth Newman, 2022-11-30 The landmark World Council of Churches convergence text, *The Church: Towards a Common Vision* (2012), which has the potential to become this generation's *Baptism, Eucharist and Ministry* (1982), invites the churches to envision how their own distinctive visions of the

church might have a place in the global church's imagination of the ecumenical future. *Seeds of the Church: Towards an Ecumenical Baptist Ecclesiology* is a collaborative effort by members of the Baptist World Alliance Commission on Baptist Doctrine and Christian Unity to respond to this invitation. This book contends that the distinctive Baptist ecclesial vision is best embodied in twelve core practices of Baptist churches and their interrelationship: covenanting, discerning, gathering, befriending, proclaiming, equipping, baptizing, discipling, caring, theologizing, scattering, and remembering. *Seeds of the Church* opens a window on what is possible when Baptists engage with people of other Christian traditions in the exploration of the common heritage of people belonging to the one household of faith. The global Baptist theological voices represented in this volume offer it as a reading of an ecumenical text in a Baptist key that paves the way for ecclesiological renewal—among Baptists and in the whole church to which they belong.

California, a Slave State Jean Pfaelzer, 2023-06-27 The untold history of slavery and resistance in California, from the Spanish missions, indentured Native American ranch hands, Indian boarding schools, Black miners, kidnapped Chinese prostitutes, and convict laborers to victims of modern trafficking “A searing survey of ‘250 years of human bondage’ in what is now the state of California. . . . Readers will be outraged.”—Publishers Weekly California owes its origins and sunny prosperity to slavery. Spanish invaders captured

Indigenous people to build the chain of Catholic missions. Russian otter hunters shipped Alaska Natives—the first slaves transported into California—and launched a Pacific slave triangle to China. Plantation slaves were marched across the plains for the Gold Rush. San Quentin Prison incubated California's carceral state. Kidnapped Chinese girls were sold in caged brothels in early San Francisco. Indian boarding schools supplied new farms and hotels with unfree child workers. By looking west to California, Jean Pfaelzer upends our understanding of slavery as a North-South struggle and reveals how the enslaved in California fought, fled, and resisted human bondage. In unyielding research and vivid interviews, Pfaelzer exposes how California gorged on slavery, an appetite that persists today in a global trade in human beings lured by promises of jobs but who instead are imprisoned in sweatshops and remote marijuana grows, or sold as nannies and sex workers. Slavery shreds California's utopian brand, rewrites our understanding of the West, and redefines America's uneasy paths to freedom.

'I Know Who Caused COVID-19' Zhou Xun, Sander L. Gilman, 2021-10-06 A timely exploration of the global explosion in xenophobia during the COVID-19 pandemic. Through a close analysis of four cases from around the world, this book explores prejudice toward groups who are thought to have caused and spread COVID-19: the residents of Wuhan and Black African communities in China; ultra-Orthodox Jewish communities in the United States, United Kingdom, and Israel; African-Americans in the United States and Black/Asian/mixed ethnic communities in the United Kingdom; and White right-

wing groups in the United States and Europe. The authors examine stereotyping and the false attribution of blame towards these groups, as well as what happens when a collective is actually at fault, and how the community deals with these conflicting issues. This is a timely, cogent examination of the blame and xenophobia that have been brought to the surface by the COVID-19 pandemic.

Digital Technologies, Elections and Campaigns in Africa Duncan

Omanga, Admire Mare, Pamela Mainye, 2023-11-15 This book looks at how digital technologies are revolutionizing electoral campaigns and democratization struggles in Africa. Digital technologies are giving voice and civic agency to a cross section of African voters, providing important spaces for political engagement and debate. Drawing on cases from Kenya, Uganda, Mozambique, Nigeria, Ethiopia, and Zimbabwe amongst others, this book traces the shifts and tensions in this changing electoral communications landscape. In doing so, the book explores themes such as hate speech and disinformation, decolonisation, surveillance, internet shutdowns, influencers, bots, algorithms, and election observation, and looks beyond Facebook, Twitter, WhatsApp and YouTube to the increasingly important role of visual platforms such as Instagram and TikTok. Particularly highlighting the contribution of African scholars, this book is an important guide for researchers across the fields of African politics, media studies, and electoral studies, as well as to professionals and policymakers in political communication.
