Fintech Nation, The: Excellence Unlocked In Singapore Varun Mittal,Lillian Koh,2023-10-23 Singapore's FinTech journey has been a story of relentless pursuit of excellence to build a global financial service hub with limited means and lots of aspirations. The slogan of 'Dream big. Start small. Move fast' has rallied regulators, startups, investors, corporates and everyone else to achieve a common goal.One of the critical superpowers of Singapore is a national character built on survival instinct and a distinctive obsession with being successful. Singaporeans by nature are kiasu (a Hokkien word which can be loosely translated to fear of missing out), and they wear it as a badge of honour. Being kiasu drives Singaporeans to be constantly paranoid, doing everything they can to achieve success. It creates a certain fanaticism about meritocracy and instils a belief that one can never be complacent.In a regulated industry, our fear is our biggest strength, pushing us to comply with a wide range of ever-evolving regulations. The durable social fabric supports an adherence to order and authority. It proves to be a significant asset when it comes to developing and supporting a heavily regulated industry like financial services.Singapore attracts people across the region to build their ventures in the domains of finance and technology. This book traces Singapore's journey from 2015 till today starting with establishment of regional hubs and globalisation of FinTech innovation. The key principles which established Singapore as a FinTech Nation have been an obsession with excellence referred to as RFFL (Right First, Fast Later), a unique model of economic and legal policies known as Singanomics and lastly, an organised and controlled model of a new idea development termed Garden Innovation.

This book is an edited collection of his four IPS-Nathan Lectures, delivered in July 2021, and includes highlights of his question-and-answer segments with our virtual audience. Although still relevant, Singapore's guiding ethos of adaptation, meritocracy, and pragmatism may no longer be sufficient. To secure our future, we will need more innovation, inclusion, and inspiration. What does an innovative economy look like? What does it take to create a more inclusive society? What does it mean to be an inspiring nation? How does it all hold together in a refreshed Singapore Synthesis? The IPS-Nathan Lecture series was launched in 2014 as part of the S R Nathan Fellowship for the Study of Singapore. It seeks to advance public understanding and discussion of issues of critical national interest for Singapore.
