Harmful Content on the Internet and in Video Games Great Britain. Parliament.

House of Commons. Culture, Media, and Sport Committee, 2008-07-31 The Internet has become an indispensable tool for communications, research and commerce. But this report addresses the growing public concern at the Internet's dark side: the easy availability of hardcore pornography, which people may find offensive, the uploading by ordinary people of film of real fights, bullying or alleged rape, or the setting up of websites encouraging others to follow extreme diets, or self-harm, or even commit suicide. In particular, there is increasing anxiety among parents about the use of social networking sites and chatrooms for grooming and sexual predation. The Committee welcomes the Government-commissioned report by Dr Tanya Byron on the risks posed by the Internet to children, and agrees that a UK Council for Child Internet Safety should be established. Sites which host user-generated content-typically photos and videos uploaded by members of the public-have taken some steps to set minimum standards for that content. The Committee recommends that proactive review of content should be standard practice for such sites, and calls for provision of high profile facilities for reporting abuse or unwelcome behaviour directly to law enforcement and support organisations. There is a distinct issue about labelling of video games to indicate the nature of their content. Two systems currently exist side by side: the industry awards its own ratings, and the British Board of Film Classification awards classifications to a small number of games which feature content unsuitable for children. The dual system is confusing, and BBFC should have responsibility for rating games with content appropriate for adults or teenagers.

summarize the current scope of the research in this field.

Golden Holocaust Robert N. Proctor, 2012-02-28 The cigarette is the deadliest artifact in the history of human civilization. It is also one of the most beguiling, thanks to more than a century of manipulation at the hands of tobacco industry chemists. In *Golden Holocaust*, Robert N. Proctor draws on reams of formerly-secret industry documents to explore how the cigarette came to be the most widely-used drug on the planet, with six trillion sticks sold per year. He paints a harrowing picture of tobacco manufacturers conspiring to block the recognition of tobacco-cancer hazards, even as they ensnare legions of scientists and politicians in a web of denial. Proctor tells heretofore untold stories of fraud and subterfuge, and he makes the strongest case to date for a simple yet ambitious remedy: a ban on the manufacture and sale of cigarettes.

Like, Comment, Subscribe Mark Bergen, 2022-09-06 The gripping inside story of YouTube, the company that upended media, culture, industry, and democracy—by a leading tech journalist Across the world, people watch more than a billion hours of video on YouTube every day. Every minute, more than five hundred additional hours of footage are uploaded to the site, a technical feat unmatched in the history of computing. YouTube invented the attention economy we all live in today, forever changing how people are entertained, informed, and paid online. Everyone knows YouTube. And yet virtually no one

knows how it works. Like, Comment, Subscribe is the first book to reveal the riveting, behind-the-scenes account of YouTube's technology and business, detailing how it helped Google, its parent company, achieve unimaginable power, a narrative told through the people who run YouTube and the famous stars born on its stage. It's the story of a revolution in media and an industry run amok, how a devotion to a simple idea—let everyone broadcast online and make money doing so—unleashed an outrage and addiction machine that spun out of the company's control and forever changed the world. Mark Bergen, a top technology reporter at Bloomberg, might know Google better than any other reporter in Silicon Valley, having broken numerous stories about its successes and scandals. As compelling as the very platform it investigates, Like, Comment, Subscribe is a thrilling, character-driven story of technological and creative ingenuity and the hubris that undermined it.

Everything I Needed to Know About Business ... I Learned from a Canadian
Leonard Brody, David Raffa, 2009-01-19 If you want to read about...fascinating can-do business builders by two razor-sharp doers themselves, this is the book. If you want to disprove the ugly myth that 'Canada' and 'entrepreneurial' do not compute in a single sentence, this is also the book. Open it up and get acquainted with a bevy of compelling characters who reveal how they've done it and get their tips on how you can do it, too. —Edward Greenspon, Editor-in-Chief, The Globe and Mail I am neither a businessman nor an entrepreneur, but this book gave me practical ideas on how to better cope in an industry that, like so many others, is changing at the speed of light. Brody and Raffa chronicle some amazing and inspirational Canadian success stories and in doing so offer valuable

lessons on how to harness teamwork, creativity and - above all - passion into any workplace. —Scott White, Editor-in-Chief, The Canadian Press LEARN THE FINE ART OF MANAGEMENT FROM LEADERS AND ENTREPRENEURS AROUND THE WORLD...
...ALL OF WHOM HAPPEN TO BE CANADIAN. Lessons on teamwork from Homer Simpson? World-renowned architect, Moshe Safdie, on organizational design? Joe Boxer, guerilla marketer? How can vision turn a single Toronto motel into the global luxury Four Seasons chain? Isadore Sharp shares his insights. How can anybody sell a multimillion-dollar pharmaceutical company in just one week? Leslie Dan Tells you how he did it. Everything I Needed to Know About Business...I Learned From a Canadian offers first-hand insights, experience, and best practices from twenty-four business and culture leaders, all of whom have achieved excellence in a particular area of business, at home and on the world stage. Some are household names, others are barely known outside their own industry, but they all share the secrets of their amazing success. New to this Second Edition are four brand new chapters on luminaries such as Stewart Butterfield, the mind behind Flickr; and Graydon Carter, Editor-in-Chief of Vanity Fair. With additional mini-profiles of four entrepreneurial up-and-comers, this new edition offers more advice and inspiration than ever. Each chapter features 5 Things You Need to Know - the essential lessons from the leaders and entrepreneurs who have been there and done it all. You'll learn the best of business wisdom, get practical advice on company building, and discover how to prosper in one of the most challenging market environments in history. This book offers management lessons that are as entertaining as they are instructive, all built around the deep thoughts and insights of leaders who are the best in business. The authors are

graciously donating all of their profits from the sale of this book in Canada to young Canadian entrepreneurs who are trying to make our world a better place.

Music, Social Media and Global Mobility Ole J. Mjos, 2013-07-03 This book is about the relationship between media, communication and globalization, explored through the unique empirical study of electronic music practitioners' use of the global social media: MySpace, Facebook, YouTube and Twitter. To understand the significance of the emerging nexus between social media and music in a global context, the book explores various aspects of production, distribution and consumption among electronic music practitioners as they engage with global social media, as well as a historical, political and economic exposition of the rise of this global social media environment. Drawing on interview-based research with electronic music artists, DJs, producers and managers, together with the historical portrayal of the emergence of global social media this pioneering study aims to capture a development taking place in music culture within the wider transformations of the media and communications landscape; from analogue to digital, from national to global, and from a largely passive to more active media use. In doing so, it explores the emergence of a media and communications ecology with increased mobility, velocity and uncertainty. The numerous competing, and rapidly growing and fading social media exemplify the vitality and volatility of the transforming global media, communication and cultural landscape. This study suggests that the music practitioner's relationship with MySpace, Facebook, YouTube and Twitter and the key characteristics of these global social media, alter aspects of our practical and theoretical understandings of the process of media globalization. The book deploys an interdisciplinary approach to media

globalization that takes into account and articulates this relationship, and reflects the enduring power equations and wider continuities and changes within the global media and communications sphere.

Developing Professional Practice 14-19 Andy Armitage,Gina Donovan,Karen Flanagan,Sabrina Poma,2013-11-04 The Developing Professional Practice series provides a thoroughly comprehensive and cutting edge guide to developing the necessary knowledge, skills and understanding for teaching within the 0-7, 7-14 or 14-19 age ranges. Each of the three titles offers a genuinely accessible and engaging introduction to a wide range of professional practice supporting the education of babies to young adults. Discussion of current developments in theory, policy and research is combined with guidance on the practicalities of working with each age group. Numerous examples of real practice are included throughout, along with a range of additional features to help promote understanding.

Planning in the USA J. Barry Cullingworth,Roger Caves,2013-12-05 This extensively revised and updated fourth edition of Planning in the USA continues to provide a comprehensive introduction to the policies, theory and practice of planning. Outlining land use, urban planning, and environmental protection policies, this fully illustrated book explains the nature of the planning process and the way in which policy issues are

identified, defined, and approached. This full colour edition incorporates new planning legislation and regulations at the state and federal layers of government, updated discussion on current economic issues, and examples of local ordinances in a variety of planning areas. Key updates include: a new chapter on planning and sustainability; a new discussion on the role of foundations and giving to communities; a discussion regarding the aftermath of Katrina in New Orleans; a discussion on deindustrialization and shrinking cities; a discussion on digital billboards; a discussion on recent comprehensive planning efforts; a discussion on land banking; a discussion unfunded mandates; a discussion on community character; a companion website with multiple choice and fill the blank questions, and 'test yourself' glossary terms. This book gives a detailed account of urbanization in the United States and reveals the problematic nature and limitations of the planning process, the fallibility of experts, and the difficulties facing policy-makers in their search for solutions. Planning in the USA is an essential book for students, planners and all who are concerned with the nature of contemporary urban and environmental problems.

Vaccinophobia and Vaccine Controversies of the 21st Century Archana

Chatterjee, 2013-06-25 Vaccinophobia and Vaccine Controversies of the 21st Century Archana Chatterjee, editor Once hailed as a medical miracle, vaccination has come under attack from multiple fronts, including occasionally from within medicine. And while the rates of adverse reactions remain low, suggestions that vaccines can cause serious illness (and even death) are inspiring parents to refuse routine immunizations for their children--ironically, exposing them and others to potentially serious illness. Vaccinophobia and

Vaccine Controversies of the 21st Century explains clearly how this state of affairs came into being, why it persists, and how healthcare professionals can best respond. Current findings review answers to bedrock questions about known adverse events, what vaccine additives are used for, and real and perceived risks involved in immunization. Perspectives representing pediatricians, family practitioners, nurses, parents, pharmacy professionals, the CDC, and the public health community help the reader sort out legitimate from irrational concerns. In-depth analyses discuss the possibility of links with asthma, cancer, Guillain-Barre syndrome, SIDS, and, of course, autism. Included in the coverage: Communicating vaccine risks and benefits The vaccine misinformation landscape in family medicine Perceived risks from live viral vaccines The media's role in vaccine misinformation Autoimmunity, allergies, asthma, and a relationship to vaccines Vaccines and autism: the controversy that won't go away The conundrums described here are pertinent to practitioners in pediatrics, family medicine, primary care, and nursing to help families with informed decision making. In addition, Vaccinophobia and Vaccine Controversies of the 21st Century should be read by trainees and researchers in child development and maternal and child health as the book's issues will have an impact on future generations of children and their families.

Visual Methods in Psychology Paula Reavey, 2012-03-29 This comprehensive volume provides an unprecedented illustration of the potential for visual methods in psychology. Each chapter explores the set of theoretical, methodological, as well as ethical and analytical issues that shape the ways in which visual qualitative research is conducted in psychology. Using a variety of forms of visual data, including photography, documentary film-making, drawing, internet media, model making and collages, each author endeavors to broaden the scope for understanding experience and subjectivity, using visual qualitative methods. The contributors to this volume work within a variety of traditions including narrative psychology, personal construct theory, discursive psychology and

conversation analysis, phenomenology and psychoanalysis. Each addresses how a particular visual approach has contributed to existing social and psychological theory in their topic area, and clearly outline how they carried out their specific research project. The contributors draw on qualitative sources of verbal data, such as spoken interview, diaries and naturalistic conversation alongside their use of visual material. This book provides a unique insight into the potential for combining methods in order to create new multi-modal methodologies, and it presents and analyses these with psychology specific questions in mind. The range of topics covered includes sexuality, identity, group processes, child development, forensic psychology, race, and gender, making this volume a vital contribution to psychology, sociology and gender studies.

Mass Media and Health Kim Walsh-Childers, 2016-12-01 *Mass Media and Health: Examining Media Impact on Individuals and the Health Environment* covers media health influences from a variety of angles, including the impact on individual and public health, the intentionality of these effects, and the nature of the outcomes. Author Kim Walsh-Childers helps readers understand the influence that mass media has on an individual's health beliefs and, in turn, their behaviors. She explains how public health policy can be affected, altering the environment in which a community's members make choices, and discusses the unintentional health effects of mass media, examining them through the strategic lens of news framing and advocacy campaigns. Written for students across a variety of disciplines, *Mass Media and Health* will serve as primary reading for courses examining the broader view of mass media and health impacts, as well as providing supplemental reading for courses on health communication, public health campaigns,

health journalism, and media effects.
